Classic Movie Fight Scenes Gene Freese, 2017-09-11 Both brawls and elaborate martial arts have kept movie audiences on the edges of their seats since cinema began. But the filming of fight scenes has changed significantly through the years, mainly for the safety of the combatants, from improvised scuffles in the Silent Era to exquisitely choreographed and edited sequences involving actors, stuntmen, and technical experts. Camera angles prevented many a broken nose. Examining more than 300 films from *The Spoilers* (1914) to *Road House* (1989), the author provides behind-the-scenes details on memorable melees starring such iconic tough guys as John Wayne, Randolph Scott, Robert Mitchum, Lee Marvin, Charles Bronson, Clint Eastwood, Bruce Lee, Chuck Norris, and Jackie Chan.

Seeing Green Finis Dunaway, 2018-09-28 Over 15 chapters, Dunaway transforms what we know about icons and events. *Seeing Green* is the first history of ads, films, political posters, and magazine photography in the postwar American environmental movement. From fear of radioactive fallout during the Cold War to anxieties about global warming today, images have helped to produce what Dunaway calls ecological citizenship, telling us that we are all to blame. Dunaway heightens our awareness of how depictions of environmental catastrophes are constructed, manipulated, and fought over. Publisher info.

Public Opinion, Legitimacy and Tony Blair's War in Iraq James Strong, 2017-02-17 In the wake of the publication of the Chilcot report, this book reinterprets the relationship between British public opinion and the Blair government's decision making in the run up to the 2003 invasion of Iraq. It highlights how the government won the parliamentary vote and got its war, but never won the argument that it was the right thing to do. Understanding how, why, and with what consequences Britain wound up in this position means understanding better both this specific case and the wider issue of how democratic publics influence foreign policy processes. Taking an innovative constructivist approach to understanding how public actors potentially influence foreign policy, Strong frames the debate about Iraq as a contest over legitimacy among active public actors, breaking it down into four constituent elements: covering the necessity, legality, and morality of war and the government's authority. The book presents a detailed empirical account of the British public debate before the invasion of Iraq, based on the rigorous interrogation of thousands of primary sources, employing both quantitative and qualitative content analysis methods to interpret the shape of debate between January 2002 and March 2003. Also contributing to the wider foreign policy analysis literature, the book investigates the domestic politics of foreign policy decision making and particularly the influence public opinion exerts, considers the domestic structural determinants of foreign policy decision making, and studies the ethics of foreign policy decision making and the legitimate use of force. It will be of great use to students and scholars of foreign policy analysis, as well as those interested in legitimacy in international conflict, British foreign policy, the Iraq War, and the role of public opinion in conflict.
