L'intensification de la réponse policière l'intervention des forces militaires et l'interpénétration des sphères publiques et privées représentent l'heure actuelle une tendance lourde dans le domaine de la sécurité intérieure Cet ouvrage propose donc de mettre en contraste la complexité de ce nouvel assemblage policier Intgrant la fois des contributions originales ou précédemment publiées l'ouvrage présentement recensé est scandé en quatre temps Les trois premiers abordent la question de la militarisation de l'appareil policier sous trois prismes différents l'intervention policière le contrôle de foule et le traitement de l'information le dernier temps tant davantage consacré une analyse du concept de militarisation au travers de la souveraineté et de l'écatement de la notion de sécurité Source inconnue **Security and Sport Mega Events** Diamantis Mastrogiannakis,2016-04-14

This edition stresses some critical reflections regarding security policies before and during Sport Events in our contemporary era of generalized insecurity Sport competitions at the national European and global levels have evolved in terms of economic investment social importance and media coverage However this evolution has brought with it major political concerns At the same time the dominant question regarding the organization of competitions in our post modern neoliberal risk societies is the creation of a safe and secure milieu the need of construction of an environment of life where sport events and the multiple activities and interests related to them can be kept safe from any risk and potentially harmful occurrence In the name of security anticipatory dispositifs and risk management practices rationalities and technologies of government do not exclusively attempt to prevent disastrous incidents or to maintain order in situ Involving a set of heteronymous public and private organizations and bureaucraties state experts and not state security managers proactive security strategies seek to imagine the future to preempt to act in advance to anticipate possible catastrophic incidents by managing populations and
