Ralston,2004-09-15 One of the most extraordinary survival stories ever told Aron Ralston s searing account of his six days trapped in one of the most remote spots in America and how one inspired act of bravery brought him home It started out as a simple hike in the Utah canyonlands on a warm Saturday afternoon For Aron Ralston a twenty seven year old mountaineer and outdoorsman a walk into the remote Blue John Canyon was a chance to get a break from a winter of solo climbing Colorado s highest and toughest peaks He d earned this weekend vacation and though he met two charming women along the way by early afternoon he finally found himself in his element alone with just the beauty of the natural world all around him It was 2 41 P M Eight miles from his truck in a deep and narrow slot canyon Aron was climbing down off a wedged boulder when the rock suddenly and terrifyingly came loose Before he could get out of the way the falling stone pinned his right hand and wrist against the canyon wall And so began six days of hell for Aron Ralston With scant water and little food no jacket for the painfully cold nights and the terrible knowledge that he d told no one where he was headed he found himself facing a lingering death trapped by an 800 pound boulder 100 feet down in the bottom of a canyon As he eliminated his

escape options one by one through the days Aron faced the full horror of his predicament By the time any possible search and rescue effort would begin he d most probably have died of dehydration if a flash flood didn t drown him before that What does one do in the face of almost certain death Using the video camera from his pack Aron began recording his grateful good byes to his family and friends all over the country thinking back over a life filled with adventure and documenting a last will and testament with the hope that someone would find it For their part his family and friends had instigated a major search for Aron the amazing details of which are also documented here for the first time The knowledge of their love kept Aron Ralston alive until a divine inspiration on Thursday morning solved the riddle of the boulder Aron then committed the most extreme act imaginable to save himself Between a Rock and a Hard Place a brilliantly written funny honest inspiring and downright astonishing report from the line where death meets life will surely take its place in the annals of classic adventure stories *Radiotelegraph & Radiotelephone Codes, Prowords and Abbreviations* John W Alcorn VK2JWA,2013-10-26 What started out as a minor Project in 1987 blew out like the national debt so with all this accumulated info it seemed worthwhile to produce the first book here now is the Latest Online Edition The sources and references have been many and varied and although the utmost care was taken the Lists are far from complete and may contain errors The original Codes etc were designed principally for marine use as this was the field in which radio was initially developed The majority retain this influence but many have been modified and modernized to cover land and air applications Technical terms have also varied as technology has changed however most abbreviations of the computer age have been omitted These are specialist terms of that mode not often encountered in telegraphy **Energy Abstracts for Policy Analysis** ,1982 *Gulf to Gulf* ,
