Advancing inclusive education for students with special educational needs: Rethinking policy and practice Stephen Hay,Wendi Beamish,Dianne

Chambers,2025-05-13 This year marks the 30th anniversary of the Salamanca Declaration UNESCO 1994 which began the global movement towards inclusive education for students with special educational needs SEN Inclusive education for this student group represents a paradigm shift in providing quality education for all students Around the globe this universal ideal has progressed a strengths based approach to student learning and encouraged mixed ability classrooms

Notwithstanding this milestone recent studies have highlighted persistent disparities in the formulation and implementation of inclusion policies inadequacies in teacher preparation and imbalances in access to resources Factors such as these continue to pose challenges in achieving truly inclusive education for students with SEN Given this context it is both timely and essential to undertake a critical reassessment of the inclusive education agenda for this student group While policy frameworks may emphasize inclusion their real world translation often falls short leading to gaps between intention and realization Moreover the limited enactment of evidence based practices at school and classroom levels continue to impede student engagement and learning Furthermore there is a need to consider how inclusive education interfaces with the broader concepts of diversity equity and individualized learning The goal of this Research Topic is to explore these complex issues identify underlying barriers and promote strategies that can genuinely move inclusive education forward for students with SEN

English Teaching and Evangelical Mission Bill Johnston,2017-01-25 Debates about the place of mission work in English Language Teaching continue to rage and yet full length studies of what really happens at the intersection of ELT and evangelical Christianity are rare In this book Johnston conducts a detailed ethnography of an evangelical language school in Poland looking at its Bible based curriculum and analyzing interaction in classes for adults He also explores the idea of relationship in the context of the school and its mission activity and more broadly the cultural encounter between North American evangelicalism and Polish Catholicism The book comprises an in depth examination of a key issue facing TEFL in the 21st century and will be of interest to all practitioners and scholars in the field whatever their position on this topic

Researching the Nineteenth-Century Periodical Press Alexis Easley,Andrew King,John Morton,2017-07-14 Extending the work of The Routledge Handbook to Nineteenth Century British Periodicals and Newspapers this volume provides a critical introduction and case studies that illustrate cutting edge approaches to periodicals research as well as an overview of recent

developments in the field The twelve chapters model diverse approaches and methodologies for research on nineteenth century periodicals Each case study is contextualized within one of the following broad areas of research single periodicals individual journalists gender issues periodical networks genre the relationship between periodicals transnational transatlantic connections technologies of printing and illustration links within a single periodical topical subjects science and periodicals and imperialism and periodicals Contributors incorporate first person accounts of how they conducted their research and provide specific examples of how they gained access to primary sources as well as the methods they used to analyze the materials The 2018 winner of the Robert and Vineta Colby Scholarly Book Prize The Committee describes the focus of the book on methodology and case studies as fresh and original and useful for both experienced scholars and those new to the field Overall Case Studies suggests new ways of reading canonical authors new understandings of the interpretation of the personal and the public and an admirable energy in engaging with the structures of national and transnational periodical discourses that are clearly implicated in maintaining soft power within societies Brian Maidment Liverpool John Moores University Anti-Zionism and Antisemitism Alvin H. Rosenfeld, 2019-01-09 Seventeen essays by scholars examining the links between anti-Semitism and attitudes toward Israel in the current political climate How and why have anti-Zionism and antisemitism become so radical and widespread This timely and important volume argues convincingly that today's inflamed rhetoric exceeds the boundaries of legitimate criticism of the policies and actions of the state of Israel and conflates anti-Zionism with antisemitism The contributors give the dynamics of this process full theoretical political legal and educational treatment and demonstrate how these forces operate in formal and informal political spheres as well as domestic and transnational spaces They offer significant historical and global perspectives of the problem including how Holocaust memory and meaning have been reconfigured and how a singular and distinct project of delegitimization of the Jewish state and its people has solidified This intensive but extraordinarily rich contribution to the study of antisemitism stands out for its comprehensive overview of an issue that is both historical and strikingly timely Pharmacotherapy: A Pathophysiologic Approach, Eleventh Edition Joseph T.
