Fleming, 2017-11-03 This first of its kind textbook surveys rehabilitation and vocational programs aiding persons with disabilities in remote and developing areas in the U S and abroad Contributors discuss longstanding challenges to these communities most notably economic and environmental obstacles and ongoing barriers to service delivery as well as their resilience and strengths Intersections of health social structural and access disparities are shown affecting rural disabled populations such as women racial and sexual minorities youth and elders In terms of responses a comprehensive array of healthcare and health policy solutions and recommendations is critiqued with regard to health employment and service effectiveness outcomes Included among the topics Healthcare initiatives strategies and challenges for people with disabilities in rural frontier and territory settings Challenges faced by veterans residing in rural communities The Asia and Pacific region rural urban impact on disability Challenges after natural disaster for rural residents with disabilities Meeting the needs of rural adults with mental illness and dual diagnoses Capacity building in rural communities through community based collaborative partnerships Disability and Vocational Rehabilitation in Rural Settings makes a worthy textbook for graduate students and upper level undergraduates in the fields of social work community and environmental psychology public health sociology education and geography Its professional audience also includes vocational rehabilitation counselors serving these dynamic populations **Break the Stigma: Autism** Nichole E Scheerer ,April Hargreaves ,Catalina Sau Man Ng ,Matthew Daniel Lerner, 2024-12-17 While awareness of neurodiversity and specific forms of neurodivergence such as autism has increased over the last few years autism stigma and prejudice against autistic people remains a critical issue that warrants further attention and investigation The experience of stigma and prejudice such as discriminatory actions and attitudes towards autistic individuals on both a personal and public level can have many negative impacts across one s lifetime These experiences can lead people on the autism spectrum and their families to avoid seeking help which can delay diagnosis and access to supportive services of not only autism itself but also co occurring physical and psychological health needs Prejudiced beliefs against autistic people may lead to many forms of discrimination including but not limited to medical education and employment discrimination These attitudes can be built into society at a systemic level and influence policies that govern access to supports and our communities Additionally autism stigma and prejudice against autistic people such as stereotypical portrayals of autistic people in media and the language we use to describe autistic people can be invalidating to a person s autistic identity and to autistic culture Further the impacts of stigma and prejudice can be internalized by autistic individuals which may not only have poor effects on their wellbeing but also increase the want and or need to mask or camouflage to pass as non autistic Masking or camouflaging can reduce a person s sense of belonging self esteem sense of self worth and close relationships all of which are associated with poor outcomes It can also lead to avoidance of opportunities such as connection with other autistic individuals that could increase quality of life This Research

Topic aims to showcase evidence on why the stigma surrounding autism and the prejudice against autistic people are so detrimental. It hopes to provide insights into research and interventions on how stigma and prejudice can be tackled as well as awareness, understanding and acceptance raised in the hope that the research presented will translate to best practice applications in clinical, public health, policy and community settings. We invite researchers to submit a range of articles including but not limited to original research, articles, reviews, meta-analyses, opinions, perspectives and case reports to provide new evidence on the following:

- Harmful impacts of stigma and prejudice on autistic people
- Interventions on reducing stigma surrounding and prejudice against autistic people
- Health promotion in autism i.e. approaches that increase the mental and physical well-being of autistic people
- Interventions targeted at increasing understanding of autism and neurodiversity as well as increasing acceptance and advocacy of as well as allyship with autistic people
- Examining intersectionality in autism stigma and/or prejudice towards autistic people of diverse backgrounds
