Federal Register, 2006-08 **Zimbabwe@40** Lloyd Sachikonye, David Kaulemu, 2021-05-17 Zimbabwe 40 is a celebration of the country's four decades of independence and statehood. Forty years is a relatively short period in a nation's life but it is a formative period. What lessons can be learnt from the successes and failures, challenges and opportunities of the last 40 years? What should be avoided in the next 40? Lloyd Sachikonye and David Kaulemu have assembled a distinguished team of scholars to address these questions and the book focuses on issues that characterise the country's development trajectory: the linkage between values and institutions, defects in its democracy, the curse of mineral and agricultural endowment, the impact of migration and the social exclusion of women and young people. The book is written from a depth of commitment to a just, peaceful and prosperous Zimbabwe and represents a work in progress reflecting the continuing research, evaluation and dialogue that each of the authors is engaged in and signalling the nature and direction of future work. As the editors conclude, 'None of the chapters are pessimistic nor are they negative about the country. They are realistic about the gravity of the historical moment the nation faces and the high moral, political and economic mountains we must climb before we can see the Promised Land. Yet they are full of hope; they are convinced that we have not come to the end of history.'

Trade in Zimbabwe Richard Newfarmer, Martha Denisse Pierola, 2015-05-26. In Zimbabwe, trade has been a driver of economic growth, rising incomes and progressive empowerment of Zimbabweans through rising standards of living and the promise of better jobs. Since 1980, through good years and bad, increases in exports have been positively associated with increases in national income. Zimbabwe's location and resource base, together with a low cost but relatively well-educated labor force, have endowed it with a naturally high trade ratio built on a diversified base that facilitates using trade as an engine of growth. While trade

volumes have rebounded smartly from the deep recession of 2007 2008 these do not offset other worrisome longer term trends Export growth during the last decade has been lacklustre and failed to drive high growth Agricultural exports other than tobacco have lost their once dominant role in the region and are no longer a source of diversification Manufacturing has withered in a continuing secular decline Zimbabwe s export basket has become less diversified and more dependent on a narrow range of mineral and to a lesser extent agricultural products In short exports have become less diversified less technologically sophisticated and less labor intensive and ever more dependent on a few large mining activities to provide foreign exchange and employment This report traces the roots of this poor performance to several policy issues poor predictability of macroeconomic policy and economic governance has created an unfavorable climate for private investment and trade a tariff structure that dampens export profitability industrial policies indigenization policy in particular that undermine investor confidence and inhibits private investment and finally competition limiting policies toward services that limit connectivity of Zimbabweans and raise trade costs The good news arising from the study is that the remedies for these policy shortcomings lie in Zimbabwean hands If the government were to adopt reforms that reconfigure economy wide incentives and trade and industrial policies it could promote sustained growth economic diversification and empowerment of poor people

Zimbabwe Brian Raftopoulos, Tyrone Savage, 2004 The author is from the Institute of Development Studies at the University of Zimbabwe He examines the paradox ensuing from the Lancaster House Settlement at Zimbabwe s independence that whilst colonial rule was ended the framework was provided for continued white privilege on the basis of control of the economy by this elite and through them transnational capital He analyses the responses of the ruling including official elite the black petty bourgeoisie and the group associated with the former Rhodesian Front

Extractive Industry Indigenisation in Zimbabwe Kennedy Manduna, 2025-09-25 This book explains how and why Zimbabwe s extractive industry Indigenisation over promised its benefits yet under delivered upon implementation This book traces the history of uneven development in Zimbabwe from the initial days of colonialism to the present using the extractive industry as the unit of analysis to carve out a granular and empirical analysis of the preponderance of transnational corporate control and ownership in the country Indigenisation of Zimbabwe s extractive industries was intended to address mining inequalities by transferring wealth from rich non Indigenous mining capital to disadvantaged Indigenous citizens and communities This policy however was a response to political economic and social crises posed by the international isolation of Zimbabwe s government following the controversial Fast Track Land Reform Programme in 2000 2003 An intervention therefore which promised to address inequalities has thus been hampered by corruption co optation and collusion which has led to it not only failing to address uneven development but in actual fact worsening the situation By examining the hidden structures and infrastructures of power capital and minerals and placing extractive industry Indigenisation in capitalism this book makes a crucial scholarly contribution to the renewed and burgeoning debates around the resurgence of resource nationalism in

general and the struggle for economic sovereignty in particular This book steers readers more broadly to look for new and diversified ways of empowering Indigenous populations and their communities through mining Indigenisation in ways that do not threaten economic and political stability This book will be of great interest to students and scholars of the extractive industries natural resource management African politics and African development *Facets of Power*, 2023-01-10 The diamond fields of Chiadzwa among the world s largest sources of rough diamonds have been at the centre of struggles for power in Zimbabwe since their discovery in 2006 Against the backdrop of a turbulent political economy control of Chiadzwa s diamonds was hotly contested By 2007 a new case of blood diamonds had emerged in which the country s security forces engaged with informal miners and black market dealers in the exploitation of rough diamonds violently disrupting local communities and looting a key national resource The formalisation of diamond mining in 2010 introduced new forms of large scale theft displacement and rights abuses *Facets of Power* is the first comprehensive account of the emergence meaning and profound impact of Chiadzwa s diamonds Drawing on new fieldwork and published sources the contributors present a graphic and accessibly written narrative of corruption and greed as well as resistance by those who have suffered at the hands of the mineral s secretive and violent beneficiaries If the lessons of resistance have been mostly disheartening ones they also point towards more effective strategies for managing public resources and mounting democratic challenges to elites whose power is sustained by preying on them *The Europa World Year: Kazakhstan - Zimbabwe*, 2004 First published in 2004 Routledge is an imprint of Taylor Francis an informa company *Southern African Development Community Land Issues* Ben Chigara, 2013-03 This book constitutes volume one of a two volume examination of development community land issues in Southern Africa In this volume Ben Chigara undertakes a holistic inter disciplinary evaluation of the legitimacy of colonial and emergent post colonial rule property rights in affected States of the Southern African Development Community SADC It particularly focuses on intensifying litigation in national courts the SADC Tribunal and more recently the Washington based International Centre for the Settlement of Investment Disputes ICSID regarding counter claims to title to property The book examines cultural economic and political drivers at the core of SADC land issues focusing on their significance and potential to contribute to the discovery of a new sustainable land relations policy that guarantees social justice in the distribution of all the advantages and disadvantages relating to the allocation and use of land Chigara shows that persistent systematic administrative failures by pre colonial colonial and post colonial authorities have made for a very complex challenge that requires Solomonic tools that neither the Courts alone nor human rights centric morality alone could resolutely attend The book recommends a sophisticated systematic new approach to SADC land issues which is developed in volume two Re conceiving Property Rights in the New Millennium This book will be of great interest to students and researchers of Property and Conveyancing Law Human Rights Law and Land Law *Mining in Zimbabwe*, 2000 **A GUIDE TO ZIMBABWE TAXATION** PARTSON NYATANGA, 2015-01-05 THIS IS A BOOK WRITTEN BY PARTSON

Digital Activism in Zimbabwe Tenford Chitanana,2024-10-21 This book investigates the role of the internet and social media in political processes in non western and non democratic contexts Using Zimbabwe as a case study the book demonstrates how activists and ordinary people deploy social media particularly Facebook to subvert an enduring hegemonic state However the book also highlights how authoritarian regimes are in turn learning and adapting to the information age challenging the impact of digital activism Studies of digital activism in the Global South are often centred around democracy but this book paints a more complex picture examining the role and effect of digital activism in challenging state hegemony in authoritarian contexts The book notes that while communication technologies help mediate activism they are also simultaneously constrained by pre existing and emergent challenges tied to the social and political context and the inherent limitations of those technologies The book investigates the tactics used by digital activists the contextual factors and restrictive political environment they operate in including the role of pro government activists and ultimately the impact of digital activism given these constraints From the case of Zimbabwe the book builds out a broader theoretical analysis of the evolution of third world protest in the digital age examining the limitations of activists actions and the ideological deficit in online activism to ferment a virulent counter hegemony *The Annual Register* ,1986 *Zimbabwe in Transition* Timothy Murithi,Aquilina Mawadza,2011 Zimbabwe s Transition to Democracy in the post independence era has been a very difficult one To date there have been a number of sustained efforts by various local regional and international actors to move Zimbabwe towards democracy as well as attempts to find a lasting solution to the political and economic crises that seriously affected the country s progress from the late 1990s However these attempts have been less successful mainly because Zimbabwe has complex political and economic problems with interlocking national regional and international political and economic dimensions rooted in both historical and contemporary factors and developments To understand the complexities of the challenges to Zimbabwe s transition to democracy as well as prospects for political change and democracy in the country *Zimbabwe in Transition* critically examines both the historical and contemporary dynamics shaping political and economic developments in the country taking into account voices from a broad spectrum of Zimbabwean society including civil society

faith based communities the diaspora women community leaders the media youth and regional actors such as SADC and the AU Book jacket

A Crisis of Governance Jacob Wilson Chikuhwa, 2004 A Crisis of Governance is a detailed analysis of Zimbabwean socioeconomic history and development since the nation achieved independence from Great Britain in April 1980 with a focus on recent events under President Robert Mugabe and the ZANU Patriotic Front An internationally trained African economic analyst Jacob Chikuhwa studies this former British colony's struggle to become a viable independent state Problems range from the need for constitutional reform to political patronage and a de facto one party democracy and the need for transparency in land reform privatization and economic liberalization

The History and Political Transition of Zimbabwe Sabelo J. Ndlovu-Gatsheni, Pedzisai Ruhanya, 2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis Its focus is on a very problematic political culture that is proving very hard to transcend At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti colonial liberation struggle in the 1970s Inevitably violence misogyny and masculinity are constitutive of the political culture Economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self styled Chimurenga aristocracy However this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe's ousting from power was preceded by dirty and protracted internal factionalism At the center of the factional politics was the first family Robert Mugabe and his wife Grace Mugabe This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe taking seriously such issues as gender misogyny militarism violence media identity modes of accumulation the ethnicization of politics attempts to open lines of credit and FDI national healing and the national question as key variables not only of a complete political culture but also of difficult transitional politics
