The Gospel of Mark Robert E. Picirilli, 2003

The Gospel of Mark John R. Donahue, Daniel J. Harrington, 2005 In The Gospel of Mark Fathers Donahue and Harrington use an approach that can be expressed by two terms currently used in literary criticism intratextuality and intertextuality This intratextual and intertextual reading of Mark s Gospel helps us to appreciate the literary character its setting in life and its distinctive approaches to the Old Testament Jesus and early Christian theology

Intratextuality means we read Mark as Mark and by Mark. Such a reading expresses interest in the final form of the Gospel, not its source or literary history, and in its words and images, literary devices, literary forms, structures, characterization, and plot. Reading Mark by Mark gives particular attention to the distinctive vocabulary and themes that run throughout the Gospel and serve to hold it together as a unified literary production. Intertextuality comprises the relation between texts and a textual tradition and also referring to contextual materials not usually classified as texts, e.g. archaeological data. Intertextuality is used to note the links of the text of Mark's Gospel to other texts, especially the Old Testament and to the life of the Markan community and of the Christian community today.

The First Commentary on Mark, 1998-01-08. This book is the first English translation of a text that Michael Cahill identifies as the first formal commentary on Mark's Gospel. Thought to have been written by an early seventh-century abbot, the commentary was for almost 1000 years attributed to St. Jerome and as such exercised incalculable influence on subsequent commentary. St. Thomas Aquinas drew on it freely in his *Catena Aurea*; for example, as did the highly influential Counter-Reformation commentary of Cornelius a Lapide. Renaissance scholarship demoted the work to the *pseudepigrapha* of Jerome and it clearly lost status as a result. However, the contemporary recovery of interest in the commentary tradition ensures a welcome for the publication of this translation. Irrespective of authorship, the text is important in the history of biblical interpretation; it is the first commentary on Mark and has had wide influence in the Latin West. It is written in the allegorical style and attempts to provide an application of the Gospel text to the practice of Christian discipleship. It is characterized by the use of other biblical texts and, through the use of bold face and italics in the translation, the reader is able to see the extent of quotation, paraphrase, and allusion. The extensive notes are designed to provide information on source material and on the author's technique. As the first Markan commentary, this text holds a unique place in the history of biblical exegesis. This translation will make it available to scholars who do not read Latin and will serve as a useful introduction to early and medieval Bible commentary, both in format and content.

The Theology of the Gospel of Mark, William Telford, 1999-06-17. This 1999 book presents the reader with a comprehensive view of the theology underlying the first narrative account of the life of Jesus. In Chapter 1, Dr. Telford introduces the background of the text and its general message, attempting briefly to place the Gospel and therefore its theology in its historical setting. In the second chapter, he describes and analyses the Gospel's theology again from an historical perspective and with particular regard to its original context. In the third chapter, Telford goes on to examine the Gospel in relation to other relevant writings of the New Testament, briefly reviewing this larger corpus and highlighting parallels and contrasts where appropriate. He seeks to locate the Gospel's theology in its wider canonical context. The fourth and final chapter ranges even further afield, commenting on the Gospel's history of interpretation and on its significance in the contemporary context.
