**The Emergence of Charismatic Business Leadership** Richard S. Tedlow, 2021-09-14 The author of *Giants of Enterprise* examines the evolving role of business leaders in the 21st century with essential lessons from today's trailblazers. In *The Emergence of Charismatic Business Leadership*, Harvard Business School Emeritus professor Richard S. Tedlow reveals how a handful of individuals have transformed modern-day leadership, making charisma essential to the role. He looks at leaders like Oprah Winfrey, Elon Musk, and Steve Jobs, three pioneers who found success by innovating their management style and using their charisma to champion their vision. Through Tedlow's in-depth accounts of modern business history, we see how former outsiders attain power and influence and how charismatic leadership enables the creation of revolutionary products like the battery electric vehicle and the smart phone. But Tedlow also considers the careers of people who used their charisma to mislead, such as Jeff Skilling of Enron and Elizabeth Holmes of Theranos. In this thorough examination, Tedlow shows how charisma, when combined with genuine character, can get you far.

USA Today The author of the blockbuster bestseller *The Millionaire Next Door: The Surprising Secrets of America's Wealthy* shows how self-made millionaires have surmounted shortcomings such as average intelligence by carefully choosing their careers, taking calculated risks, and living balanced lifestyles while maintaining their integrity. Dr. Thomas J. Stanley also builds on his research from *The Millionaire Next Door* and takes us further into the psyche of the American millionaire. Stanley focuses in on the top one percent of households in America and tells us the motor behind the engine, what makes them tick. His findings on how these families reached such financial success are based on in-depth surveys and interviews with more than thirteen hundred millionaires. A very good book that deserves to be well read. The Wall Street Journal Worth every cent. It's an inspiration for anyone who has ever been told that he wasn't smart enough or good enough. Associated Press A high IQ isn't necessarily an indicator of financial success. Stanley tells us that the typical millionaire had an average GPA and frugal spending habits but good interpersonal skills. Entertainment Weekly Ideas bigger than the next buck. Orlando Sentinel
