Literature and the Remains of the Death Penalty Peggy Kamuf, 2018-10-16 Why have generations of philosophers failed or refused to articulate a rigorous challenge to the death penalty when literature has been rife with death penalty abolitionism for centuries In this book Peggy Kamuf explores why any properly philosophical critique of capital punishment in the West must confront the literary as that which exceeds the logical demands of philosophy Jacques Derrida has written that the modern history of the institution named literature in Europe over the last three or four centuries is contemporary with and indissociable from a contestation of the death penalty How Kamuf asks does literature contest the death penalty today particularly in the United States where it remains the last of its kind in a Western nation that professes to be a democracy What resources do fiction narrative and poetic language supply in the age of the remains of the death penalty Following a lucid account of Derrida's approach to the death penalty Kamuf pursues this question across several literary texts In reading Orwell's story A Hanging Kamuf explores the relation between literary narration and the role of the witness concluding that such a witness needs the seal of literary language in order to account for the secret of the death penalty The next chapter turns to the American scene with Robert Coover's 1977 novel The Public Burning which restages the executions of Julius and Ethel Rosenberg as an outlandish public spectacle in Times Square Because this fictional device reverses the drive toward secrecy that beginning in the mid nineteenth century put an end to public executions in the West Kamuf reads the novel in a tension with the current tendency in the U S to shore up and protect remaining death penalty practices through increasingly pervasive secrecy measures A reading of Norman Mailer's 1979 novel The Executioner's Song shows the breakdown of any firm distinction between suicide and capital execution and explores the essential affinity between traditional narrative structure which is plotted from the end and the plot of a death penalty Final readings of Kafka Derrida and Baudelaire consider the relation between literature and law showing how performative literary language can play the law A brief conclusion titled Postmortem reflects on the condition of literature as that which survives the death penalty A major contribution to the field of law and society this book makes the case for literature as a space for contesting the death penalty a case that scholars and activists working across a range of traditions will need to confront

Distributing Silent Film

Serials Rudmer Canjels, 2011-01-25 Tracing the international consumption distribution and cultural importance of silent film serials in the 1910s and 1920s Canjels provides an exciting new understanding of the cultural dimension and the cultural transformation and circulation of media forms Specifically he demonstrates that the serial film form goes far beyond the well known American two reel serial the cliffhanger Throughout the book Canjels focuses on the biggest producers of serials America France and Germany while imported serials such as those in the Netherlands are also examined This research offers new views on the serial work of well known directors as D W Griffith Abel Gance Erich von Stroheim and Fritz Lang while foregrounding the importance of lesser known directors such as Louis Feuillade or Joe May In the early twentieth century serial productions were constantly undergoing change and were not merely distributed in their original form upon import As adjusted serials were present in large quantities or confronted different social spaces nationalistic feelings and views stimulated by the unrest of World War I and the expanding American film industry could be incorporated and attached to the serial form Serial productions were not only adaptable to local discourses they could actively stimulate and interact as well influencing reception and further film production By examining the distribution reception and cultural contexts of American and European serials in various countries this cross cultural research makes both local and global observations Canjels thus offers a highly relevant case study of transnational transcultural and transmedia relations

The DVD Novel Greg Metcalf, 2012-07-06 Now that television shows can live forever as DVD sets the stories they can tell have changed television episodes are now crafted as chapters in a season long novel instead of free standing stories This book examines how this significant shift in storytelling occurred In 1981 NBC's Hill Street Blues combined the cop show and the soap opera to set the model for primetime serial storytelling which is evident in The Sopranos The Wire and Breaking

Bad In 1963 ABC's *The Fugitive* showed how an anthology series could tell a continuing tale influencing *The X-Files*, *House* and *Fringe*. In 1987 NBC's *The Days and Nights of Molly Dodd* changed the situation comedy into attitudinal comedy leading to *Weeds*, *Nurse Jackie* and *Entourage*. The DVD Novel *How the Way We Watch Television Changed the Television We Watch* not only examines how American television shows changed but also what television artists have been able to create. The book provides an alternate history of American television that compares it to British television and explains the influence of Dennis Potter's *The Singing Detective* on the development of long form television and the evolution of drama shows and sitcoms. The work considers a wide range of network and cable television shows paying special attention to the work of Steven Bochco, David Milch and David Simon and spotlighting the influence of graphic novels and literary novels in changing television.
