Technoculture in Margaret Atwood's Science Fiction Novels

Jasmine Sharma, 2023-09-01 The contemporary mediation between technoscience and philosophy offers overwhelming insights into the literary critical domain of thought This book conceptualizes an enriching engagement with questions pertaining to the notion of technology and how its blend with cultural facets makes comprehensive room for the reconstitution of the literary landscape in Atwood's science fiction SF novels Ranging from the technologies of disciplinary and bio corporeal power to theorizing gender politics of cyborgian nomadic and humanoid bodies from technologizing the consumption of hybrid edibles and lingual epistemology to discerning the hyperreal dimensions of archived tech memoirs video gaming and digital sex the book takes a philosophical approach to technocultural studies a newly emerging interdisciplinary methodology It contributes to an optimal concretization of technoscientific exploration in Margaret Atwood's literary scholarship and adds to the existing field of theoretical acumen within cosmopolitan literatures

Deleuze and the Schizoanalysis of Dystopia Rahime Çokay Nebioğlu, 2020-06-19 This book offers an insightful history of dystopian literature integrating it within the conceptual schemas of Deleuze and Guattari Unlike earlier examples of dystopia which depict representations of a possible future that is remarkably worse than present society contemporary dystopia often tends to portray an almost allegorical re presentation of present society Tracing dystopia's shift from transcendence towards immanence with the rise of late neoliberal capitalism and control societies okay Nebio lu skilfully constructs a new taxonomy of dystopian fiction to address this changing dynamic Accompanied by a subtle exploration of earlier and later examples of the genre by George Orwell Aldous Huxley Suzanne Collins Veronica Roth William Gibson Max Barry Dave Eggers Cindy Pon and Tahsin Y cel along with rich and nuanced analysis of China Mieville's Perdido Street Station and Margaret Atwood's MaddAddam trilogy the book seeks not only to track the transformation of dystopia in light of worldwide cultural political and economic transformation but also to conduct a schizoanalytic reading of dystopia thus opening up an exciting field of enquiry for Deleuzian scholars

The Orphan in Fiction and Comics since the 19th Century Marion Gymnich, Barbara

Puschmann-Nalenz, Gerold Sedlmayr, 2018-07-27 The orphan has turned out to be an extraordinarily versatile literary figure By juxtaposing diverse fictional representations of orphans this volume sheds light on the development of cultural concepts such as childhood family the status of parental legacy individualism identity and charity The first chapter argues that the figure of the orphan was suitable for negotiating a remarkable range of cultural anxieties and discourses in novels from the Victorian period This is followed by a discussion of both the rare examples of novels from the first half of the 20th century in which main characters are orphaned at a young age and Anglophone narratives written from the 1980s onward when the figure of the orphan proliferated once more The trope of the picaresque the theme of absence and the problem of parental substitutes are among the issues addressed in contemporary orphan narratives The book also looks at the orphan motif in three popular fantasy series namely Rowling's Harry Potter septology Pullman's His Dark Materials trilogy and Martin's A Song of Ice and Fire series It then traces the development of the orphan motif from the end of the 19th century to the present in a range of different types of comics including funnies and gag a day strips superhero comics underground comix and autobiographical comics

Phenomenologies of the City Henriette Steiner, Maximilian Sternberg, 2016-03-09 Phenomenologies of the City Studies in the History and Philosophy of Architecture brings architecture and urbanism into dialogue with phenomenology Phenomenology has informed debate about the city from social sciences to cultural studies Within architecture however phenomenological inquiry has been neglecting the question of the city Addressing this lacuna this book suggests that the city presents not only the richest but also the politically most urgent horizon of reference for philosophical reflection on the cultural and ethical dimensions of architecture The contributors to this volume are architects and scholars of urbanism Some have backgrounds in literature history religious studies and art history The book features 16 chapters by younger scholars as well as established thinkers including Peter Carl David Leatherbarrow Alberto Perez Gomez Wendy Pullan and Dalibor Vesely Rather than developing a single theoretical statement the book addresses architecture's relationship with the city in a wide range of historical and contemporary contexts The chapters trace hidden genealogies and explore the ruptures as much as the persistence of recurrent cultural motifs Together these interconnected phenomenologies of the city raise simple but fundamental questions What is the city for how is it ordered and how can it be understood The book does not advocate a return to a naive sense of unity or order Rather it investigates how architecture can generate meaning and forge as well as contest social and cultural representations

Freedom of Speech and Islam Erich Kolig,2016-04-15
Freedom of speech and expression is considered in the West a high public good and an important social value underpinned by legislative and ethical norms Its importance is not shared to the same extent by conservative and devout Muslims who

read Islamic doctrines in ways seemingly incompatible with Western notions of freedom of speech Since the Salman Rushdie affair in the 1980s there has been growing recognition in the West that its cherished value of free speech and associated freedoms relating to arts the press and media literature academia critical satire etc episodically clash with conservative Islamic values that limit this freedom for the sake of holding religious issues sacrosanct Recent controversies such as the Danish cartoons the Charlie Hebdo affair Quran burnings and the internet film The Innocence of Muslims which have stirred violent reactions in the Muslim world have made the West aware of the fact that Muslims religious sensitivities have to be taken into account in exercising traditional Western freedoms of speech Featuring experts across a spectrum of fields within Islamic studies Freedom of Speech and Islam considers Islamic concepts of blasphemy apostasy and heresy and their applicability in the modern world
