## **The Gestalt Supervision Model:**

**Supervision in Coaching** Jonathan Passmore, 2011-07-03 Coaching is rapidly growing from a young emerging profession to one that is becoming more established on a global scale. As professional coaching grows so does the need for a more formulated approach to regulation, ethics, and individual development. In order for coaches to develop their skills and knowledge they need to make continual professional development and supervision a core aspect of their practice. Published with the Association for Coaching, *Supervision in Coaching* examines how coaches can use a range of professional development tools to improve and develop their coaching. Written by a team of international coaching practitioners, it provides essential guidance on this increasingly key area of coaching practice. The authors provide advice on a range of topics including approaches to supervision, managing ethical dilemmas, the role of regulation and licensing in coaching, and the development of accreditation and professional standards.

*Techniques and Interventions for Play Therapy and Clinical Supervision* Fazio-Griffith, Laura Jean, Marino, Reshelle, 2020-09-25 The use of techniques and interventions for play therapy during the supervision process for graduate and postgraduate counselors provides a host of benefits for the counseling student, postgraduate intern, and supervisor. The counselor in training is able to experientially integrate theory with practice through the use of different modalities that provide reflection and insight into their work with clients. Additionally, the use of techniques and interventions for play therapy allows a secure and strong supervisory relationship which allows the counselor in training to explore personal and professional goals, verbalize and conceptualize client issues, goals, and effective interventions, and develop counselor-client relationships that allow the client to progress during the therapeutic process. However, play therapy techniques and interventions are not often incorporated into the supervision process unless the clinician is a registered play therapist being supervised by a registered play therapist supervisor. *Techniques and Interventions for Play Therapy and Clinical Supervision* is a critical reference source that provides an opportunity for all clinicians to incorporate play therapy techniques and expressive art interventions into the process of supervision. It presents techniques and methods that allow for more effective supervision for counselors in training, which allows for more effective service delivery to clients. Highlighting topics that include play techniques in supervision, cognitive behavioral play therapy, and trauma, this book is ideal for individuals in a university, clinical school, agency, etc. setting who provide supervision for counselors in training, including graduate students and postgraduate students. The book is an excellent supplement for clinical courses at universities with counseling programs and play therapy programs, as well as universities with graduate social work and psychology programs that have play therapy courses and provide play therapy supervision.

*An Integrative Approach to Therapy and Supervision* Mary Harris, Anne Brockbank, 2011-07-15 This book presents an innovative model for therapy and supervision. It draws on ideas from the psychological traditions of Transactional Analysis, Gestalt theory, and Cognitive Behavioural Therapy to develop an integrated approach to working with clients and to developing a supervisor.
