The Oxford Encyclopedia of Economic History Joel Mokyr,2003 What were the economic roots of modern industrialism Were labor unions ever effective in raising workers living standards Did high levels of taxation in the past normally lead to economic decline These and similar questions profoundly inform a wide range of intertwined social issues whose complexity scope and depth become fully evident in the Encyclopedia Due to the interdisciplinary nature of the field the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history demographic history business history and the histories of technology migration and transportation The articles all written and signed by international contributors include scholars from Europe Latin America Africa and Asia

Covering economic history in all areas of the world and segments of economies from prehistoric times to the present The Oxford Encyclopedia of Economic History is the ideal resource for students economists and general readers offering a unique glimpse into this integral part of world history

The Search for Entrepreneurship Simon Bridge,2016-12-08 Since the 1980s governments have often sought to encourage entrepreneurship on the assumption that it creates small businesses as the primary drivers of job creation As a result entrepreneurship has become a valid subject for academic research attracting extensive funding Despite this explosion of scholarship there is no accepted model of how entrepreneurship operates or even a commonly accepted definition of what it is Simon Bridge posits that this is because entrepreneurship has been studied based on the false assumption that it exists as a specific discrete identifiable phenomenon operating in accordance with consistent predictable rules So this misdirected search has produced more questions than answers Accepting that entrepreneurship as we have conceived it does not exist could lead to new and valuable insights into what the different forms of entrepreneurship are and how they might be influenced Scholars advanced students and policy makers will find this a thought provoking insight into the misconceptions of entrepreneurship

Teaching with DBQs Kevin Thomas Smith,2018-03-09 Help your students navigate complex texts in history and social studies This book shows you how to use document based questions or DBQs to build student literacy and critical thinking skills while meeting rigorous state standards and preparing students for AP exams DBQs can be implemented year round and can be adjusted to meet your instructional needs With the helpful advice in this book you ll learn how to use DBQs to teach nonfiction and visual texts including primary and secondary sources maps and paintings You ll also get ideas for teaching students to examine different points of view and write analytical responses Topics include Using the SOAPSETone Speaker Occasion Audience Purpose Subject Evidence and Tone technique to to analyze visual and nonvisual texts Teaching students to distinguish between primary and secondary sources Working with multiple texts and learning to recognize the relationships between them Formulating DBQs to suit different types of assessment including short answer questions multiple choice questions and in class essay prompts Evaluating student responses and providing constructive feedback

State Failure, Sovereignty And Effectiveness Gérard Kreijen,2004 This comprehensive study of State failure upholds that the collapse of States in sub Saharan Africa is a self inflicted problem caused by the abandonment of the principle of effectiveness during decolonization On the one hand the abandonment of effectiveness may have facilitated the recognition of the new African States but on the other it did lead to the creation of States that were essentially powerless some of which became utter failures Written in a style both provocative and unorthodox and using convincing arguments this study casts doubt on some of the most sacred principles of the modern doctrine of international law It establishes that the declaratory theory of recognition cannot satisfactorily explain the continuing existence of failed States It also demonstrates that the principled assertion of the right to self determination as the basis for independence in Africa has turned the notion of sovereignty into a formal legal figment

without substance This book is a plea for more realism in international law Pensive pessimists in the tradition of Hobbes will probably love it Idealists in the tradition of Grotius may hate it but they will find it very difficult to reject its conclusions

World, 1997 *Epidemiology, Biostatistics, and Preventive Medicine* James F. Jekel, 2007-01-01 You ll find the latest on healthcare policy and financing infectious diseases chronic disease and disease prevention technology Information and Communication Technology in Technical and Vocational Education and Training for Sustainable and Equal Opportunity Reem Khamis Hamdan, Allam Hamdan, Bahaaeddin Alareeni, Rim El Khoury, 2024-03-07 This book provides an in depth analysis of current development concerning ICTs with reference to vocational education and training It presents the best and innovative ICT based solutions implemented in education and explores controversial topics such as challenges and opportunities Information and communication technologies ICTs have dramatically changed the way we learn and work They have created new opportunities along with new challenges putting profound and urgent implications on vocational education and training VET Nowadays we must think broadly and make the right choices about VET using innovation and digitalization to boost the quality of vocational education and training enable the upskilling and reskilling of adults and enhance the employability of learners The potential and the impact of ICTs in vocational education and training have yet to be fully exploited leading to an emerging direction of research This book helps readers to understand the idea of business education and education governance in a digital age It is of interest to practitioners administrators researchers teachers teacher educators and students *Document-Based Assessment Activities for Global History Classes* Theresa C.
