Crafts and Creative Media in Therapy Carol

Tubbs, Margaret Drake, 2024-06-01 For more than 20 years *Crafts and Creative Media in Therapy Fifth Edition* has been an illuminating reference for the use of creative approaches in helping clients achieve their therapeutic goals. Carol Crellin Tubbs has included a range of craft and creative activity categories from paper crafts to cooking to the use of recycled materials and everything in between. Each chapter includes a brief history of the craft, several projects along with suggestions for grading or adapting examples of related documentation and a short case study. The text also features chapters on activity analysis, general strategies for implementation of creative activities and documentation as well as a chapter describing the relevance of this media from both historical and current occupation-based perspectives. In this updated Fifth Edition, the craft projects have been updated and numerous resources and links for more ideas have been added. There are new chapters on making therapy tools and crafting with a purpose and the recycled and found materials chapter has been expanded in keeping with cultural trends. A flow chart has been added to each case study to help students better understand the process and rationale for tailoring activities for individual client needs and project suggestions for working on specific performance skills or client factors are scattered throughout the chapters. Other additions include a behavioral observation checklist as an aid in evaluation and documentation and several illustrations to help students distinguish between the use of occupation as means and occupation as end. This Fifth Edition also includes an updated instructors manual with additional resources and suggestions for lesson planning. *Crafts and Creative Media in Therapy Fifth Edition* not only provides a wide assortment of craft ideas and instructions but also provides multiple suggestions for therapeutic uses for activities in each category. It includes ways to grade activities to best achieve therapy objectives and examples of documentation for reimbursement. For each craft category, there is discussion on precautions for use with certain populations, contextual limitations and safety considerations. Information is presented in several different formats such as examples, tables, illustrations and other formats to promote student understanding. Included with the text are online supplemental materials for faculty use in the classroom. *Crafts and Creative Media in Therapy Fifth Edition* is the foremost resource for using creative approaches in helping clients achieve their therapeutic goals and should be used by all occupational therapists, occupational therapy assistants and recreational therapists. Promoting Activity and Participation in Individuals with Serious Mental Illness Terry

Krupa, Megan Edgelow, Shu-Ping Chen, Carol Mieras, 2021-09-30 This book presents *Action Over Inertia*, a recovery orientated strengths based approach to address the profound disruptions in daily activities and community participation often experienced by those living with serious mental illnesses. With a focus on supported doing, the *Action Over Inertia* approach engages individuals in small activity and participation efforts as an opening to making longer term and sustained changes that offer meaning and well being. The book helps service providers develop their own knowledge of activities and the health and well being benefits an individual might receive from activities. It also asks them to consider the biases, assumptions and constraints that might impact their ability to implement interventions related to activity and participation. A range of

worksheets resources vignettes and other tools are provided to support this practice The manual was developed from the knowledge and practice of occupational science and therapy but it will be of interest to any mental health professional peer provider administrator or policy maker interested in promoting recovery for people with serious mental illness
