The Grammar Dimension in Instructed Second Language Learning Alessandro G. Benati,Cécile Laval,María

Arche,2013-12-19 One of the key issues in second language learning and teaching concerns the role and practice of grammar instruction Does it make a difference How do we teach grammar in the language classroom Is there an effective technique to teach grammar that is better than others While some linguists address these questions to develop a better understanding of how people acquire a grammar language acquisition scholars are in search of the most effective way to approach the teaching of grammar in the language classroom The individual chapters in this volume will explore a variety of approaches to grammar teaching and offer a list of principles and guidelines that those involved in language acquisition should consider to design and implement effective grammar tasks during their teaching It proposes that the key issue is not whether or not we should teach grammar but how we incorporate a teaching grammar component in our communicative language teaching practices

The Developmental Dimension in Instructed Second Language Learning Paul Malovrh,James F. Lee,2013-05-09 Identifies the developmental stages that characterize the acquisition of direct pronouns in Spanish and the effect of formal instruction on language development

The Metalinguistic Dimension in Instructed Second Language Learning Karen Roehr,Gabriela Adela Ganem-Gutierrez,2013-07-04 The metalinguistic dimension refers to the way in which learners bring to bear knowledge about language into their learning of a second language the L2 This book brings together new research on the metalinguistic dimension given its increasing importance in the study of L2 acquisition In applied linguistics it is widely accepted that L2 learners develop and use knowledge about language when engaging with the challenging task of acquiring a new language this applies to both children and adults It is definitions of the metalinguistic dimension that vary and findings regarding its role in L2 learning are not necessarily homogenous or compatible The scope exists for further empirical detailed research This book explores the nature development and role of the metalinguistic dimension and will be essential reading for all SLA scholars and those working in language and education

Second Language Acquisition Susan M. Gass, Jennifer Behney, Luke Plonsky, Elizabeth Huntley, 2025-03-17. Now in its sixth edition, this bestselling textbook remains the cornerstone for the study of second language acquisition, providing a comprehensive yet accessible introduction to SLA. This substantially revised and updated edition has been edited into ten chapters with a focus on the most frequently taught core themes and increased accessibility. A new introductory chapter provides a concise overview of the history of the field. Omitted chapters are available online where supplementation is desired. The text continues to provide a rich range of pedagogical tools that encourage students to reflect upon the experiences of second language learners. As with previous editions, discussion questions and problems are peppered throughout each chapter to help students apply their knowledge, and a glossary defines and reinforces must-know terminology. Additional questions and problems appear on the online companion website. This seminal text is ideal core reading for SLA courses in second language studies, applied linguistics, linguistics, TESOL, and/or language education programs. This textbook is supported with Instructor and Student Resources including PowerPoint slides, exercises, flashcards, audio, and video links. www.routledge.com/cw/gass

The Routledge Handbook of Second Language Acquisition and Input Processing Wynne Wong, Joe Barcroft, 2024-06-27. This state-of-the-science handbook offers a comprehensive discussion of input processing in second language acquisition. The volume assesses past and current research on input processing and engages the reader in critical reflection about the current state of the field and what lies ahead for future research, theory building, and implications for language instruction. The handbook considers multiple theoretical perspectives, pivotal research findings, issues in research methodology, and instructional implications that underscore the centrality of input processing in second language acquisition. Whereas to date most research in this area has focused on input processing as it relates to the acquisition of morphosyntax and lexis, the present volume also attends to more recent theoretical advances regarding other linguistic subsystems such as phonology and pragmatics, as well as processing resource allocation during multilevel input processing. Thorough and forward-looking, this volume is an indispensable resource to scholars and advanced students of second language acquisition, bilingualism, applied linguistics, cognitive science, psychology, and education.

Recent Perspectives on Task-Based Language Learning and Teaching Mohammad Ahmadian,María del Pilar García Mayo,2017-12-04 The last three decades have

witnessed a growth of interest in research on tasks from various perspectives and numerous books and collections of articles have been published focusing on the notion of task and its utility in different contexts Nevertheless what is lacking is a multi faceted examination of tasks from different important perspectives This edited volume with four sections of three chapters each views tasks and Task based Language Teaching TBLT from four distinct but complementary vantage points In the first section all chapters view tasks from a cognitive interactionist angle with each addressing one key facet of either cognition or interaction or both in different contexts CALL and EFL ESL Section two hinges on the idea that language teaching and learning is perhaps best conceptualized understood and investigated within a complexity theory framework which accounts for the dynamicity and interrelatedness of the variables involved Viewing TBLT from a sociocultural lens is what connects the chapters included in the third section Finally the fourth section views TBLT from pedagogical and curricular vantage points

Theories in Second Language Acquisition Bill VanPatten, Gregory D. Keating, Stefanie Wulff, 2025-07-03 This fourth edition of the best selling Theories in Second Language Acquisition surveys the major theories and frameworks currently used in second language acquisition SLA research serving as an ideal introductory text for graduate students in SLA and language teaching Designed to provide a consistent and coherent presentation for those seeking a basic understanding of the theories and frameworks that underlie contemporary SLA research each chapter focuses on a single theory Chapters are written by leading scholars in the field and incorporate a basic foundational description of the theory relevant data or research models used with this theory common misunderstandings and a sample study from the field to show the theory in practice New to this fully revised edition is the incorporation of a new theoretical framework to replace several lesser used theories A key work in the study of second language acquisition this volume will be useful to students of linguistics language and language teaching and to researchers as a guide to theoretical work outside their respective domains **The**

Routledge Handbook of Second Language Acquisition and Individual Differences Shaofeng Li, Phil Hiver, Mostafa Papi, 2022-05-30 The Routledge Handbook of Second Language Acquisition and Individual Differences provides a thorough in depth discussion of the theory research and pedagogy pertaining to the role individual difference ID factors play in second language acquisition SLA It goes beyond the traditional repertoire and includes 32 chapters covering a full spectrum of topics on learners cognitive conative affective and demographic sociocultural variation The volume examines IDs from two perspectives one is how each ID variable is associated with learning behaviors processes and outcomes the other is how each domain of SLA such as vocabulary or reading is affected by clusters of ID variables The volume also includes a section on the common methods used in ID research including data elicitation instruments such as surveys interviews and psychometric testing as well as methods of data analysis such as structural equation modeling The book is a must read for any second language researcher or applied linguist interested in investigating the effects of IDs on language learning and for any educator interested in taking account of learners individual differences to maximize the effects of second language
