Riverbank and Seashore in Nineteenth and Twentieth Century British Literature Gillian Mary Hanson, 2005-11-17 The waters of river and sea represent a kind of freedom a liberty which as Iris Murdoch writes enables man to exist sanely without fear and to perceive what is real As settings in fiction the riverbank and seashore are rich in potential offering a sense of destiny and suggesting the possibility of self truth and self knowledge In British literature the rural coastal setting shadowed by cliffs tugged by the constant movement of the sea becomes the site of revelation and generates the energy that brings characters to a new level of self awareness The river's embankments bridges and tunnels often mark specific stages of revelation and movement in plot Entrapment and isolation contingency and communication are themes that seem born of such settings This book examines the ways in which 21 modern and postmodern writers from Tennyson to Ted Hughes from Jane Austen to Jane Gardam have made use of the physical environment of riverbank and seashore in their work It considers how each author employs the physical settings in the service of plot and character development and how those settings are used to connect with some of the major intellectual concerns of the late 19th and 20th centuries Appendices offer significant quotations from the texts under discussion arranged according to the location they describe the rural river the urban river river into sea the rural shore and the urban shore

Wilkie Collins (Authors in Context) Lyn Pykett, 2009-01-29 Lyn Pykett offers a lively exploration of the novels of Wilkie Collins author of the first recognised detective novel

Giants of the Past Lisa Hopkins, 2004 This book considers the ways in which the idea of evolution has been used in popular fiction focusing mainly on novels of the Victorian and Edwardian periods but also including a closing section on Steven Spielberg's first two Jurassic Park films The book's overall argument is that in many of these texts the version of origins proffered by Darwinian theory is suggestively played off against both the version of human origins offered by Milton and the book suggests implicitly supported by Shakespeare and the version of national origins offered by Virgil and by the myth of Brutus legendary grandson of Aeneas and supposed first founder of Britain Nevertheless although these novels tend to give such prominence to alternatives to Darwinian theory they are also very ready to draw on any aspects of it which will lend support to their own agendas especially when it comes to drawing sharp distinctions between races and sexes Although Darwinian theory posed challenges to contemporary orthodoxies and pieties it could thus also be used in the support of some of them
