Practical Social Work Ethics Malcolm Carey, Lorraine Green, 2013 This is the first text of its kind to deal exclusively with applied social work ethics It focuses on an eclectic mix of difficult moral questions or issues encountered in much modern day practice It is therefore not theoretically driven with some practical elements attached but is instead is a practice based book where any theory introduced is linked to tangible practice situations It is also thought provoking controversial in parts and always engaging With a focussed and clear writing style this book will be of interest to all social work students and practitioners interested in the practical yet complex moral ramifications of their applied role

Midas Touch I: Alter Saine J. Reborn To Dominate Luo Yuan, 2020-06-08 The pity of the heavens had allowed her to return to the age of sixteen In her previous life she had been a weak and lowly person that everyone could bully In this world no one dared to not fear her The life that she owed her in was one in which she would pay back twice as much Scoundrel would not show any mercy The trap was still as secretive as ever he thought he could see through everyone's hearts but he had accidentally lost his heart in the transaction with the guy in front of him The man in front of him was definitely a disaster

Lives of the Queens of England Agnes Strickland, 1904

The Oracle's Heart Evangeline Moonwhisper, The ancient temple of Delphi stood sentinel against the Mediterranean sky its weathered columns catching the first light of dawn Cassandra Thorne pressed her palms against the cool marble feeling the familiar tingle that preceded her visions At twenty six she had learned to recognize the signs the way the world seemed to shimmer at its edges the sudden clarity that preceded the overwhelming flood of images from futures yet to unfold

Not now she whispered to herself closing her eyes and trying to center her breathing She had come to Greece seeking answers about her gift not more questions The Oracle of Delphi had been silent for over a millennium but the ancient stones still hummed with psychic energy that called to her across continents Dr Helena Vasquez her mentor and the leading researcher in parapsychology had arranged for Cassandra to spend three months here studying the historical connection between the site and prophetic abilities What Helena didn't know was that Cassandra's visions had been growing stronger and more frequent sometimes overwhelming her completely The vision struck without warning A man with storm gray eyes and dark hair standing in this very spot His hands reaching for hers across time and space The taste of copper pennies in her mouth danger A choice that would change everything Love that transcended the boundaries between worlds Cassandra gasped stumbling backward as the images faded Her heart raced as she tried to process what she had seen In all her years of experiencing prophetic visions she had never seen anything about her own future especially not something so vivid and emotionally charged New Life Dale L. Brand,1992 *Theatre Record* ,1997 **Nursing Our Healer's Heart** Lorre Laws,2024-12-10 The nursing profession is in crisis Within a decade the world will have just over half the number of nurses it needs The global nursing workforce has experienced mass complex trauma secondary to healthcare system inadequacies and a global pandemic Traumatized and burned out nurses are leaving their roles or the profession in unprecedented numbers Those who remain are stretched to or beyond their capacity While system level strategies aim to address this crisis none of them consider nurse traumatization and its impact upon patient safety outcomes and quality of care We cannot wait for health systems to prioritize nurse safety Nurses can and must come together as a global community to heal through avoidable and unavoidable nurse specific traumatization while partnering with healthcare leaders to usher in a new era of nursing This book through an actionable framework guides nurses in healing the traumas and hardships they've endured as individuals and nursing communities Grounded in the sciences of unitary caring integrative nursing neurophysiology and transpersonal neurobiology this book supports nurses in restoring their healers heart as they come together to address the deep trauma burnout attrition and presenteeism that are central to the nursing crisis Nurses will learn the language of their nervous system and how to navigate it as a foundational practice to support professional wellbeing Each nurse will discover their unique innate care plan which will guide their healing and co healing with other nurses By embracing the healing and practices offered in this book nurses will learn how to support their nervous system regulation so they can thrive instead of survive in practice Working from their healed scars instead of their open wounds nurses can effectively lead sustainable organizational change and health care reforms that prioritize nurse safety and professional wellbeing *Punch* ,1866
