The Humanist Society The Social Blueprint For Self Actualization:

The Humanist Society Joseph Sassoon, 2014-11-25 What accounts for the rise and fall of so many civilizations especially when some of them held more political power than their rivals Author Joseph Sassoon tackles this question and many others in this his second volume on self actualization As a missionary for humanism he explores the social conditions that are necessary for the greatest number of people to achieve self actualization In presenting his theories he reviews the work of major thinkers including Kurt Goldstein and his landmark book *Human Nature in the Light of Psychopathology* Charles Darwin Buddha and many others Sassoon explores the answers to key questions What is societys role in helping individuals move toward self actualization What benefits would society enjoy if more people achieved their potential What are the main characteristics of a humanist code What can we do to promote humanist values A third volume in this series will establish the conditions required to bring about a world federalism based on humanism In a changing world with competing ideologies it is more important than ever to establish the importance of humanist values In this study Sassoon describes a step by step social arrangement leading to self actualization for the greatest number of people in society *The Scientist and the Humanist*

Victorian Political Culture Angus Hawkins,2015 Victorian Britain is often described as an age of dawning democracy and as an exemplar of the modern Liberal state yet a hereditary monarchy a hereditary House of Lords and an established Anglican Church survived as influential aspects of national public life with traditional elites assuming redefined roles After 1832 constitutional notions of mixed government gradually gave way to the orthodoxy of parliamentary government shaping the function and nature of political parties in Westminster and the constituencies as well as the relations between them Following the 1867 8 Reform Acts national political parties began to replace the premises of parliamentary government The subsequent emergence of a mass male electorate in the 1880s and 1890s prompted politicians to adopt new language and methods by which to appeal to voters while enduring public values associated with morality community and evocations of the past continued to shape Britain's distinctive political culture This gave a particularly conservative trajectory to the nation's entry into the twentieth century This study of British political culture from the late eighteenth to the early twentieth century examines the public values that informed perceptions of the constitution electoral activity party partisanship and political organization Its exploration of Victorian views of status power and authority as revealed in political language speeches and writing as well as theology literature and science shows how the development of moral communities rooted in readings of the past enabled politicians to manage far reaching change This presents a new overarching perspective on the constitutional and political transformations of the Victorian age *Race, Time, and Utopia* William M. Paris,2024 Racial injustice at its core is the domination of time Utopia has been one response to this domination The racially dominated are not free to define what counts as progress they are not free from the accumulation of past injustices and most importantly they are not free from the arbitrary organization of work in capitalist labor markets Racially unjust societies are forms of life where the justifications for how to organize time around life labor and leisure are out of the hands of the dominated In *Race Time and Utopia* William Paris provides a theoretical account of utopia as the critical analysis of the sources of time domination and the struggle to create emancipatory forms of life Rather than focusing on inclusion and equality before the law as found in liberal theories of racial injustice Paris analyses the neglected utopian tradition of justice in black political thought that insists justice can only be secured through the transformation of society as a whole This transformation is nothing less than the democratic transformation of how organize and narrate our shared time Bringing into conversation the work W E B Du Bois Martin Delany Marcus Garvey Frantz Fanon and James Boggs with the critical theory of Karl Marx Ernst Bloch Rahel Jaeggi and Rainer Forst Paris reconstructs a social theory and normative account of forms of life as the struggle over how time will be organized asking Can there be freedom without a new order of time **Talk, Talk, Talk** S.I.
