**Fractional Fields and Applications** Serge Cohen, Jacques Istas, 2013-05-29 This book focuses mainly on fractional Brownian fields and their extensions It has been used to teach graduate students at Grenoble and Toulouse s Universities It is as self contained as possible and contains numerous exercises with solutions in an appendix After a foreword by St phane Jaffard a long first chapter is devoted to classical results from stochastic fields and fractal analysis A central notion throughout this book is self similarity which is dealt with in a second chapter with a particular emphasis on the celebrated Gaussian self similar fields called fractional Brownian fields after Mandelbrot and Van Ness s seminal paper Fundamental properties of fractional Brownian fields are then stated and proved The second central notion of this book is the so called local asymptotic self similarity in short lass which is a local version of self similarity defined in the third chapter A lengthy study is devoted to lass fields with finite variance Among these lass fields we find both Gaussian fields and non Gaussian fields called L vy fields The L vy fields can be viewed as bridges between fractional Brownian fields and stable self similar fields A further key issue concerns the identification of fractional parameters This is the raison d tre of the statistics chapter where generalized quadratic variations methods are mainly used for estimating fractional parameters Last but not least the simulation is addressed in the last chapter Unlike the previous issues the simulation of fractional fields is still an area of ongoing research The algorithms presented in this chapter are efficient but do not claim to close the debate Elmhurst College Catalog Elmhurst College, 1960 **University Bulletin** University of California (System), 1973 **The Educational Times, and Journal of the College of Preceptors** ,1892 **Education** ,1961 **Educational Times** ,1896 **Departments of Labor, and Health, Education and Welfare, and Related Agencies Appropriations** United States. Congress. Senate.
