Drawing the Line Tom Sito, 2006-10-06 Some of the most beloved characters in film and television inhabit two dimensional worlds that spring from the fertile imaginations of talented animators The movements characterizations and settings in the best animated films are as vivid as any live action film and sometimes seem more alive than life itself In this case Hollywood's marketing slogans are fitting animated stories are frequently magical leaving memories of happy endings in young and old alike However the fantasy lands animators create bear little resemblance to the conditions under which these artists work Anonymous animators routinely toiled in dark cramped working environments for long hours and low pay especially at the emergence of the art form early in the twentieth century In Drawing the Line veteran animator Tom Sito chronicles the efforts of generations of working men and women artists who have struggled to create a stable standard of living that is as secure as the worlds their characters inhabit The former president of America's largest animation union Sito offers a unique insider's account of animators struggles with legendary studio kingpins such as Jack Warner and Walt Disney and their more recent battles with Michael Eisner and other Hollywood players Based on numerous archival documents personal interviews and his own experiences Sito's history of animation unions is both carefully analytical and deeply personal Drawing the Line stands as a vital corrective to this field of Hollywood history and is an important look at the animation industry's past present and future Like most elements of the modern commercial media system animation is rapidly being changed by the forces of globalization and technological innovation Yet even as pixels replace pencils and bytes replace paints the working relationship between employer and employee essentially remains the same In Drawing the Line Sito challenges the next wave of animators to heed the lessons of their predecessors by organizing and acting collectively to fight against the enormous pressures of the marketplace for their class interests and for the betterment of their art form

The cultural phenomenon of cringe comedy and its effects on toxic masculinity in "Peep Show" Victoria Pels, 2023-01-18 Examination Thesis from the year 2022 in the subject English Language and Literature Studies Culture and Applied Geography grade 1.5 University of Leipzig Anglistik language English abstract This thesis looks at the ongoing phenomenon of cringe comedy in British contemporary television Taking a cultural studies perspective it argues that cringe comedy affects toxic masculinity and the way one perceives masculinities A close reading of the TV series *Peep Show* provides a number of examples that give insight into how masculinities are constructed in cringe comedy television and the ideology that comes with awkward jokes Even though the viewing numbers have always been low for *Peep Show* it can be considered a prime example of British comedic television and its recent developments With increasing awareness of toxic masculinities and the increasing popularity of cringe comedy television formats that undoubtedly shape Western societies and cultures it becomes relevant to investigate how humour affects gender stereotypes When exploring the function of comedy and awkwardness in media Kotsko *Awkwardness and Middelton* found that awkwardness creates a shift to self reflecting formats where the spectatorship is being irritated by the uncomfortableness they feel when their expectations are not met on television programs Studying the meanings of jokes and gender is relevant to understanding how one interacts in cultures and how they use humour as a social tool This paper contributes to the fields of cultural studies media studies and gender studies since humour is used to rationalise social norms in British society directly its culture I will argue that the sitcom *Peep Show* uses cringe comedy as a tool to uncover create and criticise toxic masculinity characteristics within our society by evoking laughter in the audience

Making Journeys Catriona D. Gibson, Kerri Cleary, Catherine J. Frieman, 2021-02-01 Despite notable explorations of past dynamics much of the archaeological literature on mobility remains dominated by accounts of earlier prehistoric gatherer hunters or the long distance exchange of materials Refinements of scientific dating techniques isotope trace element and aDNA analyses in

conjunction with phenomenological investigation computer aided landscape modeling and GIS style approaches to large data sets allow us to follow the movement of people animals and objects in the past with greater precision and conviction One route into exploring mobility in the past may be through exploring the movements and biographies of artifacts Challenges lie not only in tracing the origins and final destinations of objects but in the less tangible in between journeys and the hands they passed through Biographical approaches to artifacts include the recognition that culture contact and hybridity affect material culture in meaningful ways Furthermore discrete and bounded sites still dominate archaeological inquiry leaving the spaces and connectivities between features and settlements unmapped These are linked to an under explored middle spectrum of mobility a range nestled between everyday movements and one off ambitious voyages We wish to explore how these travels involved entangled meshworks of people animals objects knowledge sets and identities By crossing and re crossing cultural contextual and tenurial boundaries such journeys could create diasporic and novel communities ideas and materialities

The British Sitcom Spinoff Film Stephen Glynn, 2023-12-07 This book constitutes the first full volume dedicated to an academic analysis of theatrically released spinoff films derived from British radio and television sitcoms Regularly maligned as the nadir of British film production and marginalised as a last resort for the financially bereft industry during the 1970s this study demonstrates that the sitcom spinoff film has instead been a persistent and important presence in British cinema from the 1940s to the present day and includes occasional works with distinct artistic merit Alongside an investigation of the economic imperative underpinning these productions i e the exploitation of proven product with a ready made audience it is argued that with a longevity stretching from Arthur Askey and his wartime Band Waggon 1940 to the crew of Krupt FM and their recent People Just Do Nothing Big in Japan 2021 the British sitcom spinoff can be interpreted as following a full generic life cycle Starting with the formative stage where works from Hi Gang 1941 to I Only Arsked 1958 establish the genre s characteristics the spinoff genre moves to its classic stage where secure for form and content it enjoys considerable popular success with films like Till Death Us Do Part 1969 On the Buses 1971 The Likely Lads 1976 and Rising Damp 1980 the genre s revival since the late 1990s reveals a more parodic final stage with films like The League of Gentlemen s Apocalypse 2005 adopting a consciously self reflective mode It is also posited that the sitcom spinoff film is a viable source for social history with the often stereotypical re presentations of characters and events an often blatant ideological metonym for the concerns of wider British society notably in issues of class race gender and sexuality
