**Comparing Cabinets** Patrick Moray Weller, Dennis Grube, R. A. W. Rhodes, 2021 Why is cabinet government so resilient Why does it continue to be the vehicle for governing across most parliamentary systems Comparing Cabinets examines the structure and performance of cabinet government in five democracies with a particular focus on the influence of differing traditions beliefs and practices to address these questions

**Ambient Assisted Living** Niccolò Casiddu, Claudia Porfirione, Andrea Monteriù, Filippo Cavallo, 2019-01-30 This book documents the state of the art in the field of ambient assisted living AAL highlighting the impressive potential of novel methodologies and technologies to enhance well being and promote active ageing It covers a broad range of topics with sections on technological sensors and platforms social robotics for assistance assistance and care applications health and medical support methodologies and technologies as well as the analysis modelling and design of AAL services The book comprises a selection of the best papers presented at the 8th Italian Forum on Ambient Assisted Living ForitAAL 2017 which was held in Genoa Italy in June 2017 and brought together researchers technology teams and professional associations as well as representatives of the Italian regions and advisors to the Italian Ministry of Education University and Research with the goal of developing a consensus on how to improve provisions for the elderly and impaired The respective contributions offer valuable insights into how the latest advances can help address the needs of the elderly and those with chronic health conditions They also underscore the need for AAL to continue moving toward multidisciplinary integration so as to embrace the various disciplines that place the user of services at the centre of the design process

**Social Enterprise and Special Events** Julie Olberding, 2016-11-25 During the past twenty years the field of nonprofit management has grown significantly in terms of the number of nonprofit organizations number of people employed and amount of funds raised A key activity in nonprofit management has been organizing events which are generally defined as purposive gatherings of people These purposes may include increasing awareness about the nonprofit organization and its mission raising funds to support programs and services related to its mission engaging and developing individuals as donors volunteers and advocates and enhancing the image of the organization and or the broader community Events in the modern era tend to be organized across the nonprofit public and private sectors While a nonprofit organization may create and manage an event corporations and businesses often contribute financial support and technical expertise in areas such as branding marketing and social media Depending on the event type and size a local government may provide the venue and public safety services including police fire and ambulance We can understand more about these mission driven cross sectoral events by looking through the lens of social enterprise Social enterprise has been defined as a venture that advances a social mission using business methods or

market based approaches It is typically conceptualized as spanning sectors particularly the nonprofit and private sectors Social Enterprise and Special Events focuses on how market based approaches can be used to help mission driven gatherings achieve their purposes as efficiently effectively and sustainably as possible These approaches include market research brand development cause marketing gamification liquidity cash management and clustering The book also incorporates concepts important in the nonprofit and public sectors such as collaborative governance social capital political capital community development placemaking and diversity The Great Music City Andrea Baker,2019-03-01 In the 1960s as gentrification took hold of New York City Jane Jacobs predicted that the city would become the true player in the global system Indeed in the 21st century more meaningful comparisons can be made between cities than between nations and states Based on case studies of Melbourne Austin and Berlin this book is the first in depth study to combine academic and industry analysis of the music cities phenomenon Using four distinctly defined algorithms as benchmarks it interrogates Richard Florida's creative cities thesis and applies a much needed synergy of urban sociology and musicology to the concept mediated by a journalism lens Building on seminal work by Robert Park Lewis Mumford and Jane Jacobs it argues that journalists are the cultural branders and street theorists whose ethnographic approach offers critical insights into the urban sociability of music activity

**Information Systems: Development, Research, Applications, Education** Stanislaw Wrycza,2016-09-21 This book constitutes the refereed proceedings of the SIGSAND PLAIS EuroSymposium 2016 titled Information Systems Development Research Applications Education held in Gdansk and Sopot Poland on September 29 2016 The objective of this symposium is to promote and develop high quality research on all issues related to systems analysis and design SAND It provides a forum for SAND researchers and practitioners in Europe and beyond to interact collaborate and develop their field The 14 papers presented in this volume were carefully reviewed and selected from 34 submissions They are organized in topical sections on information systems development information systems management and information systems learning Policing Iraq Jesse Wozniak,2021-03-09 Policing Iraq chronicles the efforts of the Kurdistan Regional Government of Iraq to rebuild their police force and criminal justice system in the wake of the US invasion Jesse S G Wozniak conducted ethnographic research during multiple stays in Iraqi Kurdistan observing such signpost moments as the Arab Spring the official withdrawal of coalition forces the rise of the Islamic State and the return of US forces By investigating the day to day reality of reconstructing a police force during active hostilities Wozniak demonstrates how police are integral to the modern state's ability to effectively rule and how the failure to recognize this directly contributed to the destabilization of Iraq and the rise of the Islamic State The reconstruction process ignored established practices and scientific knowledge instead opting to create a facade of legitimacy masking a police force characterized by low pay poor recruits and a training regimen wholly unsuited to a constitutional democracy Ultimately Wozniak argues the United States never intended to build a democratic state but rather to develop a dependent client to serve its neoimperial interests *The Media Syndrome* David Altheide,2016-05-05 Over the

past 45 years award winning sociologist David L Altheide has illuminated how media formats and media logic affect our understanding of social issues of how political decisions are made and of how we relate to each other In this masterful summative work Altheide describes the media syndrome how these factors shape our expectations of and reactions to both public and personal events Ideal for courses on mass media and political communication the book provides a detailed description of the media syndrome and its impact on daily life uses historical and contemporary examples from Watergate to Edward Snowden includes the changes in the ecology of communication from mass media to social media and its social impact

**The Palgrave Handbook of Theatre Censorship** Anne Etienne, Graham Saunders, 2024-11-29 This book incorporates a wide theoretical cultural literary and historical engagement in exploring the tension between dramatic productions and the forms of censorship they encounter from creation to reception The Palgrave Handbook of Theatre Censorship offers global new insights into censorship practices examining attempts at repression motivated either by fears that audiences gathering together to watch live dramatic events will lead to sedition and mass uprisings or by moral or religious squeamishness requiring the establishment of institutional systems of censorship to curb or suppress the stage As such the Handbook aims to initiate redefinitions of what we understand or experience as censorship Who knew theatre could still carry so many threats or be so widely provocative and dangerous This is an extraordinary and often eye opening set of thirty six individually insightful wide ranging and oftentimes disturbing essays each of which offers unique insights into theatre censorship practices and their impact within a specific political and moral culture There is a particular emphasis on the recent and current and the authors speak with first hand knowledge and from direct experience not only about the restrictions but also how artists sometimes negotiate and evade these What makes the book so especially fascinating and illuminating is seeing so many examples juxtaposed together This enables the reader to hear the essays and the cultures talking to and alongside each other The collection repeatedly breaks fresh ground and the editors deserve enormous credit for gathering and effectively curating so many reports from the front line Steve Nicholson Emeritus Professor University of Sheffield UK Anne Etienne and Graham Saunders s book is a wide ranging incisive and compelling collection of reflections and case studies on the theatre industry s relationship to censorship and self censorship from a historical and contemporaneous perspective An impressive array of authors have been assembled for this volume representing among them views on the subject from Spain Denmark Norway Zimbabwe South Africa Germany Italy Indonesia Iran Portugal Turkey Brazil Japan Ireland Australia Russia England and more The book is by turns surprising in its curatorial and narrative design and wonderfully effective at delineating the complex and thorny paths that create socio political cultures where the censorship and self censorship of theatre artists thrives and or is efficaciously contested and rebelled against Of note is a through line of argument in the book around less overt modes of surveillance that police artists imaginations and thereby the work they create and produce At a time in the world where many governments are increasingly seeking to limit artistic

expression this book is a necessary reminder of the many freedoms that have been fought for in theatres around the globe and how the power of being unsilenced must never be taken for granted Caridad Svich Playwright Translator This is a truly excellent collection of incisive studies It is wide ranging impressively global in scope with an illuminating balance of the historical and the contemporary In its impressive and well realised ambition demonstrated by the well focused intelligence and academic flair of its many contributors this collection is both magisterial and vital It is an essential contribution to censorship studies fascinating and inspiring a must read for anyone interested in the subject Aleks Sierz Theatre critic and author of *Rewriting the Nation* British Theatre Today 2011 *Good Nights Out* A History of British Theatre Since the Second World War 2021

Decolonial Cultural Practices Towards Pluriversal Cultural Institutions and Policies Meike Lettau, Özlem Canyürek, 2024-12-31 The book critically examines the epistemological disparities between colonialism and capitalism critical cultural practices and Western art institutions It does so through the lens of documenta 15 focusing on ruangrupa s lumbung approach which confronts Eurocentric cultural norms and stimulates a shift towards pluriversal horizons demonstrating the transformative potential of alternative methodologies This book provides a comprehensive understanding of how collective methods and practices can cultivate pluriversal horizons in cultural institutions and policies informed by extensive field research at documenta 15 The key elements of the approach include interdisciplinary perspectives linking theory and practice and exploring under discussed dimensions of epistemological disparities It offers practical and theoretical insights into the development of frameworks for cultural

practices and policies critical of coloniality and discrimination recognizes the coexistence of equally valuable epistemes and aims to dismantle Eurocentric structures in the cultural sector This valuable contribution presents relevant insights for those interested in decolonial studies diversity frameworks in cultural institutions and individuals engaged in the critique and transformation of Eurocentric practices within the cultural sector It will appeal to scholars researchers and practitioners in fields such as cultural studies sociology political science cultural geography cultural policy and art education as well as professionals and policymakers

**Imagining the Method** Justin Owen Rawlins, 2024-01-16 A revisionist history of Method acting that connects the popular reception of methodness to entrenched understandings of screen performance still dominating American film discourse today Only one performance style has dominated the lexicon of the casual moviegoer Method acting The first reception based analysis of film acting Imagining the Method investigates how popular understandings of the so called Method what its author Justin Rawlins calls methodness created an exclusive brand for white male actors while associating such actors with rebellion and marginalization Drawing on extensive archival research the book maps the forces giving shape to methodness and policing its boundaries Imagining the Method traces the primordial conditions under which the Method was conceived It explores John Garfield s tenuous relationship with methodness due to his identity It considers the links between John Wayne s reliance on anti Method stardom and Marlon Brando and James Dean s ascribed embodiment of Method features It dissects contemporary emphases on transformation and considers the implications of methodness in the encoding of AI performers Altogether Justin Rawlins offers a revisionist history of the Method that shines a light on the cultural politics of methodness and the still dominant assumptions about race gender and screen actors and acting that inform how we talk about performance and performers

**The Paths of Zatoichi** Jonathan Wroot, 2021-10-01 The Paths of Zatoichi charts the history and influence of the Japanese film and television franchise about Zatoichi the blind swordsman The franchise is comprised of 29 films and 100 TV episodes starring the famous Shintaro Katsu who starred in 26 of the 29 feature films They all follow the adventures of a blind masseur in medieval Japan who wanders from village to village and often has to defend himself with his deadly sword skills The first film was released in 1962 and the most recent in 2010 These dates demonstrate how the franchise can be used as a means of charting Japanese cinema history via the shifts in production practices and audience preferences which affected the Zatoichi series and numerous other film and TV texts Zatoichi signifies a huge area of Japanese film history which has largely been ignored in much existing scholarly research and yet it can reveal much about the appeal of long running characters franchises and their constant adaptation and influence within global popular culture
