## **The Haccp Food Safety Training Manual:**

**The HACCP Food Safety Training Manual** Tara Paster, 2010 *Food Quality and Safety Systems* Food and Agriculture Organization of the United Nations, 1998 One important element of FAO's work is building the capacity of food control personnel including government authorities and food industry personnel carrying out food quality and safety assurance programmes. Such programmes should include specific food risk control procedures such as the Hazard Analysis and Critical Control Point HACCP system. FAO has prepared this manual in an effort to harmonise the approach to training in the HACCP system based on the already harmonised texts and guidelines of the Codex Alimentarius Commission. The manual is structured to provide essential information in a standardised logical and systematic manner while adhering to effective teaching and learning strategies. Each section is made up of specific training modules which can be combined and customised to meet the specific needs of the students. 1998 first edition 2009 this reprint. Also published in French, Russian and Spanish.

The HACCP Food Safety Training Manual is a complete user friendly guide to the proper food handling procedures, hazard and risk analysis, monitoring techniques and record keeping that every operation serving or selling food should follow. Collectively called a Hazard Analysis and Critical Control Point HACCP plan, this system is recognized by the U.S. Secretary of Agriculture and must be used during the preparation and service of meals. Incorporating the most recent rules and regulations of the FDA Model Food Code, this helpful manual reviews food safety and food defense prerequisite programs and clearly outlines the major principles that define a successful HACCP system. The goal of this HACCP training program goes further to enable the reader to master the five points of the HACCP star. The five major points that define a successful HACCP system are: Establish Prerequisite Programs, Apply Food Defense, Evaluate Hazards and Critical Control Points, Manage Critical Limits, Monitoring and Corrective Actions, Confirm by Record Keeping and Documentation. This comprehensive manual provides the training material that all foodservice operations need to easily use HACCP standards. Essential employees and managers can use the enclosed exam answer sheet to complete the certificate exam to demonstrate their understanding of the HACCP system and its implementation. *HACCP Food Safety Managers Training Manual, the for HACCP Food Safety Employee Manual* Tara Paster, 2011-03-31 This is a student supplement which accompanies HACCP Food Safety Employee Manual 1 e Tara Paster ISBN 0131391828. *The HACCP Food Safety Manual* Joan K.
