**The Hermeneutics of Tradition** Craig Hovey, Cyrus P. Olsen, 2014-11-18 The Hermeneutics of Tradition presents the latest scholarship on tradition as a concept and reality in the development of Christian cultures One aim is to show that traditions are upheld communicated and developed within a recognizable set of interpretive guidelines or rules and that analysis of these sets both requires and reveals a hermeneutics of tradition The work of the authors included here presents the precarious integrity of traditions and the often tenuous hold upon those traditions exercised by the hermeneutics that drive dynamics of preservation and change As scholars and religious worshippers continue ancient traditions of receiving strangers with generous hospitality the coherence of tradition serves conversations about where our true differences lie

Tyconius' Book of Rules Matthew R. Lynskey, 2021-03-01 In Tyconius Book of Rules Matthew R Lynskey explores the church centric interpretation of ancient biblical exegete Tyconius in his hermeneutical treatise Liber regularum Influential within his Donatist tradition and the broader context of early North African Christianity Tyconius wrote one of the earliest works on exegetical theory and praxis in Latin Christianity By investigating five key concepts undergirding Tyconius s theology of church Lynskey demonstrates how Tyconius ecclesiology shaped his hermeneutical enterprise Through careful readings and close analysis of Liber regularum this study seeks to describe Tyconius exegesis on its own terms reflecting on notable historical theological formational and missiological implications of his ecclesial exegesis as it concerns the ancient and contemporary church

**Joseph Ratzinger and the Healing of Reformation-Era Divisions** Emery de Gaál ,Matthew Levering, 2019-11-01 Edited by Emery de Gaál and Matthew Levering Joseph Ratzinger and the Healing of Reformation Era Divisions examines Joseph Ratzinger Pope Benedict XVI s manifold contributions to Catholic Protestant theological reflection The collection opens with an introduction comparing Ratzinger s approach to ecumenism to that of Karl Rahner Rahner argues that the structural uniting of Protestants and Catholics should take place now without worrying about doctrinal differences In contrast Ratzinger argues that unity in Christ requires probing the doctrinal differences and seeking a deeper understanding of the reasoning of each side on the grounds that the truth of the Gospel that each side desires to preserve will ultimately be the basis for the only kind of Christian ecclesial unity worth having namely a unity of the basis of the truth of the Gospel of Jesus Christ Detailed essays follow treating a number of loci including papal primacy ecumenical principles liturgy evangelization Mariology Christ s birth and the celebration of Christmas public theology Christocentrism Martin Luther charity conscience missiology justification the reception of Ratzinger Benedict in Radical Orthodoxy and Scripture and Tradition These essays run the full gamut of Ratzinger Benedict s major themes and preoccupations Ten of the essays are by Catholic scholars and seven by Protestant scholars Contributors include many of the world s leading Ratzinger experts and the volume opens with an essay by Bishop Rudolf Voderholzer Director of the Pope Benedict XVI Institute in Regensburg Germany

*Unconformed to the Age: Essays in Catholic Ecclesiology* Tracey Rowland, 2024-07-01 Since her founding by

Christ the Church on earth has recognized and sought to preserve her identity as one complex reality Lumen Gentium 8 formed of both the invisible and the visible the charismatic and the institutional Yet within modern Catholic life and theology the ordered unity of these dimensions is increasingly obscured and undermined by distortive tendencies toward democratization bureaucratization and secularization Such contemporary errors threaten not only the Church's self understanding but also her mission to restore all things in Christ In Unconformed to the Age renowned Australian theologian Tracey Rowland addresses the theological and ecclesiological deviations underlying the present ecclesial disorder including the prioritization of praxis over truth the occlusion of the Cross from its central position in the Church's life and the substitution of a secular corporate vision of the Church for its true construal as Christ's Body and Bride Catholic Inc versus communio Engaging especially with the thought and writings of Joseph Ratzinger as well as other twentieth century theological luminaries Rowland provides both insightful diagnosis of these current pathologies and a multifaceted illumination of the mystery of the Church underscoring the Church's divinely given vocation to bring all people into communion with the Trinity imbuing human actions lives and cultures with the grace of the Incarnation

The Papacy: Revisiting the Debate Between Catholics and Orthodox Erick Ybarra, 2022-11-22 The Lord Jesus Christ intended his kingdom present on earth the Church of God to be one holy catholic and apostolic Prior to the Protestant Reformation in the sixteenth century history tells of the most egregious division in the Church between the Latin West and Byzantine East in AD 1054 and following How can it be that Catholics and Orthodox share a thousand years of ecclesial life together in one faith sacramental order and hierarchical government only to have that bond of communion broken Historians and theologians throughout the years have spilled much ink in recounting the causes and effects of this dreadful and heart wrenching division and among the many debates that exist between Catholics and Orthodox none are as vital to the task of reconciliation as the subject of the papacy In The Papacy Revisiting the Debate between Catholics and Orthodox Erick Ybarra examines sources from the first millennium with a fresh look at how methodology and hermeneutics plays a role in the reading of the same texts In addition he conducts a detailed investigation into the most significant points of history in order to show what was clearly accepted by both East and West in their years of ecclesiastical unity In light of this clear evidence the reader of The Papacy is free to decide whether contemporary Catholicism or Eastern Orthodoxy has maintained the heritage of the first millennium on the understanding of the Papal office

**Asian Americans and the Spirit of Racial Capitalism** Jonathan Tran, 2022 Any serious consideration of Asian American life forces us to reframe the way we talk about racism and antiracism There are two contemporary approaches to antiracist theory and practice The first emphasizes racial identity to the exclusion of political economy making racialized life in America illegible This approach's prevalence in the academy and beyond now rises to the level of established doctrine The second approach views racial identity as the function of a particular political economy what is called racial capitalism and therefore analytically subordinates racial identity to political economy Jonathan Tran develops

arguments in favor of this second approach He does so by means of an extended analysis of two case studies a Chinese migrant settlement in the Mississippi Delta 1868 1969 and the Redeemer Community Church in the Bayview Hunters Point section of San Francisco 1969 present While his analysis is focused on particular groups and persons he uses it to examine more broadly racial capitalism s processes and commitments at the sites of their structural and systemic unfolding In pursuing a research agenda that pushes beyond the narrow confines of racial identity Tran reaches back to trusted modes of analysis that have been obscured by the prevailing antiracist orthodoxy and proposes reframing antiracism in terms of a theologically salient account of political economy *Futuring Our Past* Espin, Orlando ,Macy, Gary,2014-04-10 The Catholic understanding of Tradition is not just about the preservation of ancient practices or customs it is the process by which the faith is handed on traditioned from one generation to another The essays in this volume by scholars from a wide range of disciplines center on two questions How is the Christian tradition traditioned among Latino as And what impact does this traditioning have on the Tradition *Futuring our Past* is the first volume in a new Orbis series published in cooperation with the Center for the Study of Latino a Catholicism at the University of San Diego Aside from the editors contributors include Bernard Cooke Miguel H D az Michelle Gonz lez Jos R Irizzary Francisco Lozada Jr Daisy L Machado Nancy Pineda Madrid Gary Riebe Estrella Jean Pierre Ruiz and Theresa Torres **Maurice Blondel** Robert C. Koerpel,2018-11-30 During the past few decades there has been renewed interest in the twentieth century French Catholic philosopher Maurice Blondel 1861 1949 and his influence on modern and contemporary theology but little scholarship has been published in the English speaking world In *Maurice Blondel Transforming Catholic Tradition* Robert Koerpel examines Blondel s work the historical and theological development of the idea of tradition in modern Catholicism tradition s relation to reason and revelation and Blondel s influence on Catholicism s understanding of tradition The book presents aspects of Blondel s thought that deserve to be more widely known and contributes to important debates in current theology on modern French Catholic thought and the emerging conversations surrounding them Koerpel looks to the cultural context from which Blondel s thought emerges by situating it within the broader conceptual historical and theological developments of modernity He examines the problem of reason and revelation in modern Catholicism the role and nature of tradition and the relationships between theology and history truth and change nature and grace and scripture and the development of doctrine This book provides readers with an appreciation of Blondel s conceptually creative answer to how tradition represents the Word of God in human history and why it is one of his most important contributions to modern and contemporary theology They will discover how his contribution restores the animated vitality between the institutional and liturgical dimensions of tradition essential to the living dynamic nature of Catholicism *Solitude and Compassion* Gordon, Gus,2014-04-10 Richard Rohr says about this book and its author that the only authors worth reading are those who have done their homework the homework of their own life and the study of other great minds and hearts Gus Gordon has done both Here you will reap and enjoy the rewards By

showing the deep connections between solitude and solidarity he reveals the very heart of the Gospel Gus Gordon has learned from both Jesus and the Buddha how to use solitude to nurture compassion freeing up the divine energy within to live in solidarity with others experiencing the peace in life you share with others This is a very practical book about how to bring high ideals of both great religious founders to your heart Gordons book will speak and it will speak powerfully to the many of us who are struggling with the need to be nurtured by solitude and solidarity action and contemplation prophecy and mysticism wisdom and love Paul F Knitter Union Theological Seminary New York *Catholic Theology* Tracey Rowland,2017-01-26 Rowland showcases here the dominant contemporary approaches to doing Catholic theology Chapter 1 offers a summary of the two International Theological Commission ITC documents on the discipline of Catholic theology These documents set out the general principles which should govern any approach to Catholic theology at least according to the ITC The subsequent chapters each focus on one of four different approaches frequently found in contemporary Catholic academies the approach of Thomists members of the *Communio* milieu members of the Concilium milieu and promoters of different varieties of Liberation Theology Rowland s work is pitched at the level of first time students of theology who are trying to make sense of the methodological choices which undergird the different approaches to Catholic theology Rowland concludes with four appendices a list of all Doctors of the Church a list of all encyclicals since the 19th century a list of the documents of the Second Vatican Council and a list of definitions of the various Christological heresies which were the subject of the debates of the early Church Councils These appendices will provide useful reference tables for young scholars including seminarians *Disclosing Church* Clare Watkins,2020-03-05 From 2006 to 2011 researchers at Heythrop College and the Oxford Centre for ecclesiology and Practical Theology OxCEPT Ripon College Cuddesdon worked on a theological and action research project Action Research Church and Society ARCS 2010 saw the publication of *Talking About God in Practice* Theological Action research and Practical Theology SCM which presented in an accessible way the work of ARCS and its developing methodology This turned out to be a landmark study in the praxis of Anglican and Catholic ecclesiology in the UK showing how theology in these differing contexts interacted with the way in which clergy and congregations lived out their religious convictions This book is a direct follow up to that significant work authored by one of the original researchers providing a systematic analysis of the impact of the theological action research methodology and its implications for a contemporary ecclesiology The book presents an ecclesiology generated from church practice drawing on scholarship in the field as well as the results of the theological action research undertaken It achieves this by including real scenarios alongside the academic discourse This combination allows the author to tease out the complex relationship between the theory and the reality of church Addressing the need for a more developed theological and methodological account of the ARCS project this is a book that will be of interest to scholars interested not only Western lived religion but ecclesiology and theology more generally too **T&T Clark Companion to Henri de Lubac** Jordan Hillebert,2017-06-29 The T T Clark Companion to

Henri de Lubac introduces the life and writings of one of the most influential theologians of the 20th century. A highly controversial figure throughout the 1940s and 50s, Henri de Lubac (1896–1991) played a prominent role during the Second Vatican Council and was appointed cardinal by Pope John Paul II in 1983. His work, which covers an impressive range of theological, philosophical, and historical inquiries, has left an indelible mark on modern Christian thought. This volume, including contributions from leading Catholic, Protestant, and Anglican scholars, introduces readers to the key features of his theology. By placing de Lubac's writings in both their immediate context and in conversation with contemporary theological debates, these essays shed light on the theological ingenuity and continuing relevance of this important thinker.

Afro-Igbo Mmad? and Thomas Aquinas'S Imago Dei Venatius Chukwudum Oforka, 2016-06-25

In our modern and globalised world, the concept of human dignity has gained a haloed status and plays a decisive role in assessing the moral integrity of every human being. It provides a necessary foundation for the ongoing human rights struggles. For the idea of human dignity ensures that our ever-growing complicated world wears a human face and that human beings are respected as absolute values in themselves.

Afro Igbo Mmad and Thomas Aquinas Imago Dei: An Inter cultural Dialogue on Human Dignity attempts to expand the discourse on the concept of human dignity, which appears to have been parochially founded on the principles of Western cultures and ideologies. To deparochialise this discourse, it proposes an inter cultural dialogue towards establishing common principles that define the foundation of human dignity, even when the approaches of diverse cultures to this foundation differ.

The Afro Igbo Mmadu and Thomas Aquinas Imago Dei is therefore a model of such inter cultural dialogue. It hosts a profound dialogue between the concept of Mmad among the Igbo people of eastern Nigeria, Africa, and the concept of Imago Dei according to Thomas Aquinas of western European culture. The study discusses the rich values in these cultural concepts and acknowledges them as veritable tools for establishing human dignity as a universal and inalienable character of human beings. It nonetheless highlights the low points in these cultures that are discordant with this universal and inalienable character. The dialogue establishes that these two cultures could complementarily enrich one another and in this way mutually augment their shortcomings towards a more globalised and reinforced foundation of human dignity and the defence of the dignity of every individual human being.

*Exploring Christian Ethics* Craig Hovey, 2018-04-19

Talking about ethics tends to involve talking about what we should or more often shouldn't do. We talk about setting limits on actions that for whatever reason we think are either wrong or somehow harmful to ourselves or others. The aim of this book, however, is to explore Christian ethics within a wider, more positive framework, one that views Christianity's moral resources as part of the good news that it proclaims to all creation. Ethics, says Hovey, need not be characterized primarily by negative prohibitions, limits, and tiresome hand wringing. Rather, it's about a joyful and worshipful way of living which flows naturally out of the abundant goodness of God's life and character as revealed in Jesus.
