The Hucksters By Frederic Wakeman:

The hucksters, by frederic wakeman (pbk). Frederic Wakeman, 1965 *Radio Active* Kathleen M. Newman, 2004-05-17

Radio Active tells the story of how radio listeners at the American mid century were active in their listening practices While cultural historians have seen this period as one of failed reform focusing on the failure of activists to win significant changes for commercial radio Kathy M Newman argues that the 1930s witnessed the emergence of a symbiotic relationship between advertising and activism Advertising helped to kindle the consumer activism of union members affiliated with the CIO middle class club women and working class housewives Once provoked these activists became determined to influence and in some cases eliminate radio advertising As one example of how radio consumption was an active rather than a passive process Newman cites *The Hucksters* Frederick Wakeman s 1946 radio spoof that skewered eccentric sponsors neurotic account executives and grating radio jingles The book sold over 700 000 copies in its first six months and convinced broadcast executives that Americans were unhappy with radio advertising *The Hucksters* left its mark on the radio age showing that radio could inspire collective action and not just passive conformity *The Hucksters* Frederic Wakeman, 1946 A scathing satire on radio advertising set in New York and Hollywood Cf Hanna A Mirror for the nation *Fred Allen's Radio Comedy* Alan Havig, 1990 A notable example of radio at its best Back Stage SHOOT In 1954 James Thurber wrote You can count on the thumb of one hand the American who is at once a comedian a humorist a wit and a satirist and his name is Fred Allen Several decades after his death and more than forty years since his radio program left the air Fred Allen s reputation as a respected humorist remains intact In this book Alan Havig explores the roots of his comedy the themes it exploited the problems and challenges that faced the radio comedy writer and Allen s unique success with the one dimensional medium of radio Tracing a career that lasted from 1912 into the 1950s and encompassed vaudeville Broadway revues movies radio and television Havig describes the verbal slapstick style that was Fred Allen s hallmark and legacy to American comedy More than a biography of Fred Allen this is a study of the development of the radio industry a discussion of American humor and the story of how one relates to the other Using a wide variety of published and unpublished sources including the Allen Papers Havig analyzes Allen s radio comedy of the 1930s and 40s within the context of the peculiar advantages and limitations of radio as a medium for comedy He argues that Allen did not merely transfer vaudeville routines to a non visual medium as did Eddie Cantor Ed Wynn and others Allen developed a comedic style that depended on word play sound effects and on his audience s ability and readiness to imagine a visual world in which his eccentric characters operated Havig illustrates his story with numerous examples of Allen s humor with fascinating anecdotes and excerpts from radio broadcasts In accounting for the comedian s success he deals with vaudeville comedy writing sponsor s demands and censorship of material and the organizational world of radio broadcasting companies Describing radio as an instrument of wit Fred Allen wrote on radio you could do subtle writing because you had access to the imagination that was why I liked radio we had some

fun Readers will also have some fun remembering or discovering for the first time Allen's Alley and the magic of radio comedy in its prime. Fred was one of the greatest of vaudeville and radio comedians. Anyone even casually concerned with the state of American humor will be well advised to give his work as Mr. Havig presents it careful study. Steve Allen. Alan Havig has done an intelligent, careful and exhaustive research job. This is a well-written, solid performance biography. J. Fred MacDonald, Curator of the Museum of Broadcast Communication, Chicago. **Adman's Dilemma** Paul

Rutherford, 2018-01-01. The Adman's Dilemma is a cultural biography that explores the rise and fall of the advertising man as a figure who became effectively a licensed deceiver in the process of governing the lives of American consumers. Apparently, this personage was caught up in a contradiction, both compelled to deceive yet supposed to tell the truth. It was this moral condition and its consequences that made the adman so interesting to critics, novelists, and eventually filmmakers. The biography tracks his saga from its origins in the exaggerated doings of P. T. Barnum, the emergence of a new profession in the 1920s, the heyday of the adman's influence during the post-WW2 era, the later rebranding of the adman as artist, until the apparent demise of the figure symbolized by the triumph of that consummate huckster, Donald Trump. In *The Adman's Dilemma*, author Paul Rutherford explores how people inside and outside the advertising industry have understood the conflict between artifice and authenticity. The book employs a range of fictional and nonfictional sources, including memoirs, novels, movies, TV shows, websites, and museum exhibits, to suggest how the adman embodied some of the strange realities of modernity. *Thrillers, Chillers, and Killers* Frank Krutnik, 2025-05-13. Film noir is one of the most exciting and most debated products of studio-era Hollywood, but did you know that American radio broadcast many programs in the noir vein through the 1940s and 1950s? These included adaptations of such well-known films as *The Maltese Falcon*, *Murder My Sweet*, and *Double Indemnity*, detective series devoted to the adventures of private eyes Philip Marlowe and Sam Spade, and the spine-tingling anthology programs *Lights Out* and *Suspense*. *Thrillers, Chillers, and Killers* is the first book to explore in detail noir storytelling on the two media, arguing that radio's noir dramas played an important role as a counterpart to influence on or a spin-off from the noir films. Besides shedding new light on long-neglected radio dramas and a medium that was cinema's major rival, this scrupulously researched yet accessible study also uses these programs to challenge conventional

understandings of the much-debated topic of noir. **The Conquest of Cool** Thomas Frank, 1997-12-08. Most people remember the youth counterculture of the 1960s, but Thomas Frank shows that another revolution shook American business during those boom years. He shows how the youthful revolutionaries were joined and even anticipated by such unlikely allies as the advertising industry and the men's clothing business. *Halftones* tables. The Politics and Aesthetics of Refusal Caroline Hamilton, Michelle Kelly, Elaine Minor, 2009-03-26. *The Politics and Aesthetics of Refusal* is an eclectic collection of essays from emerging academics who engage with the notion of refusal both as the embodiment of a resistance to conventional boundaries between academic disciplines and as a concept with an

underlying negative or reactive force that can be widely interpreted and applied The applications of refusal outlined in this volume ranging from activism and the politics of cultural production through to problems of identity and knowledge classification raise questions about often elided relationships of agency and complicity in routine experience The sense of refusal that emerges from this book is perhaps most easily classified by what it is not namely a prescriptive conclusive or unified account of what it is to reject react or work against any particular instance of theory or practice in any given domain The value of a thematically oriented collection like this is its ability to work across disciplines media and philosophical frameworks rather than limiting its focus to a narrow territory According to Herbert Marcuse refusal must not only be the guiding principle for all artistic creation it must also be a manifestation of artistic creation itself With this volume we have attempted to compose a collection which is not only theoretically guided by refusal but practically informed by it as well The collection in itself constitutes we hope a constructive rejection of the usual constrictions of discipline and approach placed upon new scholars This rich collection of essays on the political aesthetic and ethical dimensions of that form of social action called refusal is an important contribution to our understanding of the tensions and contradictions of contemporary culture

In 1962 Jamaica and Trinidad and Tobago became independent countries Barbados followed in 1966 In the years leading up to these events the history of the British West Indies was written largely by the British the colonial power who focused on the process of decolonization and the key local players involved After independence local scholars also focused on the role of political leaders in the newly independent countries To date scholars have paid little attention to the impact of these events on the local populations of these islands Decolonization and the Other The Case of the British West Indies explores the local perspectives on and reactions to events by using West Indian literature to supplement the historical record Beginning in the 1930s when local demands for political participation increased through the process of decolonization and into the early years of independence West Indian writers used their life experiences to document local reaction West Indian literature first appeared in 1950 when British publishers became interested in island authors and their novels By using the novels to supplement the historical record we can gain a better understanding of the process of decolonization and the early years of independence in the British West Indies **Radio in the Movies** Laurence Etling,2014-01-10 This richly detailed

examination of two branches of American entertainment focuses on the various ways that radio stations and air personalities have been depicted in motion pictures from 1926's *The Radio Detective* to more recent films like 2006's *A Prairie Home Companion*. Cinematic portrayals of various aspects of radio are covered including disc jockeys sports broadcasts religious programs and the talk radio format. Such films as *The Big Broadcast* 1932 *Reveille with Beverly* 1943 *Mister Rock and Roll* 1957 *WUSA* 1970 *Radio Days* 1987 and *Private Parts* 1997 provide fascinating insights not only into their own times but also into the historical eras that some of these films have endeavored to recreate. A chronological filmography of more than 600 titles is included.

"Better Living" William L. Bird, 1999 *Better Living* Advertising Media and the New Vocabulary of Business Leadership 1935-1955 is a history of how big business learned to be both entertaining and persuasive when talking to the public. Examining the years from the Depression to postwar prosperity *Better Living* follows the dissemination of a politically competitive claim of more new and better in industry and in life. Beginning with the changes in business government relations during the New Deal this study looks at the ways in which politically active corporations and their leaders learned how to speak at a time when speaking was not enough. Using archival sources such as the NBC Ford Motor Company DuPont and Franklin Delano Roosevelt collections William L. Bird Jr. establishes the importance of industrial films and their role in public relations and employee relations as well as the use of dramatic radio productions in corporate public relations. The author examines the interplay between general mass radio and print advertising radio program sponsorship and scriptwriting sponsored motion pictures and television entertainment as well as exhibitions and industrial fairs and the role these media played in shaping ideas about American business and political and cultural institutions in this country for the decades to come.
