The Identity in Question John Rajchman, 2014-10-29 First published in 1996 Routledge is an imprint of Taylor Francis an informa company *The Identity in Question* John Rajchman, 1995 **The Identity in Question** John Rajchman, 1995 First published in 1996 Routledge is an imprint of Taylor Francis an informa company [The identity in question : a special issue](#) , 1992 **Identity and Ecclesiology** Stephanie A. Lowery, 2017-04-25 Questions of identity continue to intrigue theologians in Africa and African intellectuals often note communal emphases in African thought This raises the question How do ecclesiologies in Africa engage with identity concerns and how do they envision the Christian identity Stephanie Lowery argues in this book that theologians in Africa provide theological and biblical arguments regarding Christian identity that are relevant to individual Christians and ecclesiologies in all contexts She also proposes the social identity approach as a tool that can both further articulate and advance these discussions *Thinking with Kierkegaard* Arne Grøn, 2022-12-31 Arne Grøn's reading of Søren Kierkegaard's authorship revolves around existential challenges of human identity The 35 essays that constitute this book are written over three decades and are characterized by combining careful attention to the augmentative detail of Kierkegaard's text with a constant focus on issues in contemporary philosophy Contrary to many approaches to Kierkegaard's authorship Grøn does not read Kierkegaard in opposition to Hegel The work of the Danish thinker is read as a critical development of Hegelian phenomenology with particular attention to existential aspects of human experience Anxiety and despair are the primary existential phenomena that Kierkegaard examines throughout his authorship and Grøn uses these negative phenomena to argue for the basically ethical aim of Kierkegaard's work In Grøn's reading Kierkegaard conceives human selfhood not merely as relational but also a process of becoming the self that one is through the otherness of self experience that is the body the world other people and God This book should be of interest to philosophers theologians literary studies scholars and anyone with an interest not only in Kierkegaard but also in human identity **The International Handbook of Teacher Ethos** Fritz Oser, Karin Heinrichs, Johannes Bauer, Terence Lovat, 2021-08-05 This volume is the first handbook that brings together cutting edge international research on teacher ethos from a broad array of disciplines The main focus will be on research that illustrates current conceptualizations of ethos and its importance for acting effectively and responsibly in and out of the classroom Research will encompass updated empirical and philosophical work that points to the difference in learning when teaching is practised as a moral activity instead of a merely functional one Authors are among the world's foremost researchers whose work crosses over from moral education into psychology neuroscience sociology philosophy pedagogy and curriculum drawing on these various fields of research Today more than ever we understand that teachers like other professionals need more than subject matter expertise for acting responsibly and doing their best in their daily duties Doing so requires possessing a guiding system of professional ethics moral positioning goals norms and values in other words a professional ethos While the handbook concentrates on

Western domains in the current era the work will extend to other cultures and times as well With this comprehensive range of perspectives the book will be attractive and useful for researchers on teachers and teaching as well as for teacher educators curriculum designers educational officials and last but not least anyone who is interested in what makes a good teacher This volume is also a tribute to Fritz Oser a leading scholar in research on ethos who sadly passed away during the compilation of this handbook **Reports of Cases Arising Upon Letters Patent for Inventions** Samuel Sparks

Reclaiming Goodness Hanan A. Alexander, 2001-05-22 Reclaiming Goodness Education and the Spiritual Quest begins with the premise that sound models for achieving both spiritual fulfillment and the good life are lacking in contemporary culture Arguing that contemporary education is responsible for having abandoned spirituality and the cultivation of goodness in people Hanan A Alexander advances a definition of spirituality which acknowledges an integral connection to education Reclaiming Goodness charts a way to reintegrate ethical and spiritual values with the values of critical thought and reason Written in accessible and non technical prose it will be of interest to professional educators as well as to a wider audience

Overcoming Apartheid James L. Gibson, 2004-04-15 Perhaps no country in history has so directly and thoroughly confronted its past in an effort to shape its future as has South Africa Working from the belief that understanding the past will help build a more peaceful and democratic future South Africa has made a concerted institutionalized effort to come to grips with its history of apartheid through its Truth and Reconciliation Commission In *Overcoming Apartheid* James L Gibson provides the first systematic assessment of whether South Africa s truth and reconciliation process has been successful Has the process allowed South Africa to let go of its painful past and move on Or has it exacerbated racial tensions by revisiting painful human rights violations and granting amnesty to their perpetrators *Overcoming Apartheid* reports on the largest and most comprehensive study of post apartheid attitudes in South Africa to date involving a representative sample of all major racial ethnic and linguistic groups Grounding his analysis of truth in theories of collective memory Gibson discovers that the process has been most successful in creating a common understanding of the nature of apartheid His analysis then demonstrates how this common understanding is helping to foster reconciliation as defined by the acceptance of basic principles of human rights and political tolerance rejection of racial prejudice and acceptance of the institutions of a new political order Gibson identifies key elements in the process such as acknowledging shared responsibility for atrocities of the past that are essential if reconciliation is to move forward He concludes that without the truth and reconciliation process the prospects for a reconciled democratic South Africa would diminish considerably Gibson also speculates about whether the

South African experience provides any lessons for other countries around the globe trying to overcome their repressive pasts A groundbreaking work of social science research Overcoming Apartheid is also a primer for utilizing innovative conceptual and methodological tools in analyzing truth processes throughout the world It is sure to be a valuable resource for political scientists social scientists group relations theorists and students of transitional justice and human rights **Meaning, Subjectivity, Society** Karl E. Smith,2010-01-01 Who am I Who are we How are we to live This book grapples with these perennial questions primarily through a dialogue with Cornelius Castoriadis and Charles Taylor using an interdisciplinary hermeneutical approach examining issues of meaning subjectivity and modern society Revelation Gerald L.
