The Impulse Of Rage A Novel:

The Complete Novels of Jack London Jack London, 2023-12-29 The Complete Novels of Jack London compiles the rich and adventurous narratives that defined the American literary landscape in the early 20th century. Known for its vivid portrayal of nature and the human spirit, the collection features classics such as *The Call of the Wild* and *Martin Eden*, showcasing London's hallmark realist style interwoven with elements of naturalism and socialism. The writing is marked by a vigorous prose that captures the raw and often brutal struggles between man and the natural world, encapsulating the zeitgeist of an era grappling with modernity and existentialism. Jack London, an emblematic figure of the American literary canon, drew from his own tumultuous experiences, including his years as a gold prospector in the Yukon and his commitment to social justice, to enrich his narratives with authenticity and depth. His encounters with nature's indifference and the struggles of the working class deeply influenced his storytelling, allowing him to explore themes of survival, individualism, and the instinctual drives within humanity. For readers seeking a profound exploration of life's elemental challenges and triumphs, *The Complete Novels of Jack London* is not merely a collection of stories but a journey into the complexities of human nature and society. This anthology serves as an essential resource for understanding the breadth of London's vision and the enduring legacy of his contributions to literature.

Masculinist Impulses Nathan Grant, 2004 In *Masculinist Impulses*, Nathan Grant begins his analysis of African American texts by focusing on the fragmentation of values of black masculinity: free labor, self-reliance, and responsibility to family and community, as a result of slavery, postbellum disfranchisement, and the ensuing necessity to migrate from the agrarian South to the industrialized North. Through examinations of novels that deal with black male selfhood, Grant demonstrates the ways in which efforts to alleviate the most destructive aspects of racism ultimately reproduced them in the context of the industrialized city. Grant's book provides close readings of Jean Toomer's *Cane* and Natalie Mann and Zora Neale Hurston's *Moses, Man of the Mountain*, *Seraph of the Suwannee*, and *Their Eyes Were Watching God*, for whom the American South was a crucial locus of the African American experience. Toomer and Hurston were virtually alone among the Harlem Renaissance writers of prose who returned to the South for their literary materials. That return, however, allowed their rediscovery of key black masculine values and charted the northern route of those values in the twentieth century to their compromise and destruction. Grant then moves on to three more recent writers: John Edgar Wideman, Gloria Naylor, and Toni Morrison, who expanded upon and transformed the themes of Toomer and Hurston. Like Toomer and Hurston, these later authors recognized the need for the political union of black men and women in the effort to realize the goals of equity and justice. *Masculinist Impulses* discusses nineteenth and twentieth century black masculinity as both a feature and a casualty of modernism. Scholars and students of African American literature will find Grant's nuanced and creative readings of these key literary texts invaluable.

News and the Human Interest Story Helen MacGill Hughes, In this account of the growth of newspapers in modern industrial society Helen Hughes traces the development of a mass audience through analysis of the origins of the human interest story in the popular ballads of an earlier day She shows how such commonly found interests as a taste for news of the town ordinary gossip and moving or gripping tales with a legendary or mythic quality have reflected the tastes of ordinary folk from the days of illiterate audiences to the present She explains how these interests ultimately were combined with practical economic and political information to create the substance and demand for a popular press In describing the rise and fall of newspaper empires each with their special readership attractions Dr Hughes shows how technological innovation and idiosyncratic creativity were used by owners to capture and hold a reading audience Once this audience developed it could be fed a variety of messages beamed at reinforcing and maintaining both general and specific publics as well as a view of the world consonant with that of the publisher and major advertisers Hughes offers a persuasive argument for the continuing viability of this method for combined social control instruction and amusement captured by the association of news and the human interest story

Literature and Terrorism ,2012-01-01 The years following the attacks of September 11 2001 have seen the publication of a wide range of scientific analyses of terrorism Literary studies seem to lag curiously behind this general shift of academic interest The present volume sets out to fill this gap It does so in the conviction that the study of literature has much to offer to the transdisciplinary investigation of terror not only with respect to the

present post 9 11 situation but also with respect to earlier historical contexts Literary texts are media of cultural self reflection and as such they have always played a crucial role in the discursive response to terror both contributing to and resisting dominant conceptions of the causes motivations dynamics and aftermath of terrorist violence By bringing together experts from various fields and by combining case studies of works from diverse periods and national literatures the volume Literature and Terrorism chooses a diachronic and comparative perspective It is interested in the specific cultural work performed by narrative and dramatic literature in the face of terrorism focusing on literature s ambivalent relationship to other competing modes of discourse
