Habit Neale Martin, 2009-11-25 Habit begins with a revolutionary premise 95% of human behavior is controlled by the unconscious mind This fact exposes the central flaw in marketing theory market research and a preponderance of business strategy that customers are consciously aware of what they're doing Habit explains why 80% of new products fail why billions of advertising dollars are wasted every year and why even satisfied customers aren't loyal In Habit Dr Neale Martin persuasively contends that recent research from the brain sciences reveals that our brain evolved two minds and marketing is focused on the wrong one By explaining how the mind actually works Martin shows how 50 years of marketing theory is deeply flawed and how your customers' habits thwart even your costliest marketing campaigns Habit explains in practical terms how to work with both your customers' executive and habitual minds to not only make sales but more importantly create loyalty You'll discover how behavior actually rewires your customers' mind and how to leverage this by refocusing on behavior not on attitudes and beliefs Martin offers a complete process for working with customers' unconscious and conscious minds together to become your customer's habit not just their choice Using these techniques you can finally achieve the twin holy grails of marketing higher customer retention and greater long term profitability Why focusing on customer satisfaction is a waste of time Prioritizing customer satisfaction ignores a crucial reality 85% of customers who

defect report being satisfied How to establish a beachhead in your potential customer s unconscious Teach new buying habits through cause and effect reward and repetition Why you should keep your regular customers from thinking about you Learn how to keep repurchase behavior on permanent autopilot **PC Magazine** ,2008
