Alien Experiences Nadine Lalich,Barbara Lamb,2020-09-03 Many current and ancient sources suggest that UFOs and extraterrestrial beings have been visiting the earth and interacting with humans for thousands of years If this is true monumental implications arise regarding the origin and evolution of humanity and the future of our planet This book discusses the highly controversial subject of alien contact and abduction recounting twenty five cases of close encounter The cases included have been selected from the files of psychotherapist Barbara Lamb who has been working with abductees

Miguel De La Rocha,2024-06-13 *F A T E My Future After Traumatic Events* is a powerful story about a man who went through a lot from being dead at birth to having cancer as a teenager through his time as a

Millennialists through the ages have looked forward to the apocalyptic moment that will radically transform society into heaven on earth They have delivered withering critiques of their own civilizations and promised both the impending annihilation of the forces of evil and the advent of a perfect society And all their promises have invariably failed We tend therefore to dismiss these prophets of doom and salvation as crackpots and madmen and not surprisingly historians of our secular era have tended to underestimate their impact on our modern world Now Richard Landes offers a lucid and ground breaking analysis of this widely misunderstood phenomenon This long awaited study shows that many events typically regarded as secular including the French Revolution Marxism Bolshevism Nazism not only contain key millennialist elements but follow the apocalyptic curve of enthusiastic launch disappointment and often catastrophic re entry into normal time Indeed as Landes examines the explicit millennialism behind such recent events as the emergence of Global Jihad since 1979 he challenges the common notion that modern history is largely driven by secular interests By focusing on ten widely different case studies none of which come from Judaism or Christianity he shows that millennialism is not only a cultural universal but also an extremely adaptive social phenomenon that persists across the modern and post modern divides At the same time he also offers valuable insight into the social and psychological factors that drive such beliefs Ranging from ancient Egypt to modern day UFO cults and global Jihad Heaven on Earth both delivers an eye opening revisionist argument for the significance of millennialism throughout history and alerts the reader to the alarming spread of these ideologies in our world today **UFO Religions** Christopher Partridge,2012-11-12 The spectre of the UFO as popularized by shows such

as The X Files has brought an astonishing slant to the face of modern religious practice But what motivates the fantastical and sometimes sinister beliefs of UFO worshippers UFO Religions critically examines some of the fascinating issues surrounding UFO worship abduction narratives UFO based interpretations of other religions the growth of pseudo sciences purporting to explain UFOs and the responses of the core scientific community to such claims Focusing on contemporary global UFO groups including the Raelian Movement Heaven s Gate Unarius and the Ansaaru Allah Community it gives a clear profile of modern UFO controversies and beliefs **The Magic of Our Universe** Kent Davis Moberg,1999 This fascinating

journey into the anomalies pervading our universe appeals to paranormal enthusiasts scholars or anyone interested in the meaning of life **Madness Explained** Richard P Bentall,2004 Today most of us accept the consensus that madness is a medical condition an illness which can be identified classified and treated with drugs like any other In this ground breaking and controversial work Richard Bentall shatters the myths that surround madness He shows there is no reassuring dividing line between mental health and mental illness Severe mental disorders can no longer be reduced to brain chemistry but must

be understood psychologically as part of normal behaviour and human nature Bentall argues that we need a radically new way of thinking about psychosis and its treatment Could it be that it is a fear of madness rather than the madness itself that is our problem
