Sex Of The Worst Kind English Edition:

Woman and Socialism (English Edition) August Bebel, 2014-11-12 Example in this ebook We are living in an age of great social transformations that are steadily progressing In all strata of society we perceive an unsettled state of mind and an increasing restlessness denoting a marked tendency toward profound and radical changes Many questions have arisen and are being discussed with growing interest in ever widening circles One of the most important of these questions and one that is constantly coming into greater prominence is the woman question The woman question deals with the position that woman should hold in our social organism and seeks to determine how she can best develop her powers and her abilities in order to become a useful member of human society endowed with equal rights and serving society according to her best capacity From our point of view this question coincides with that other question In what manner should society be organized to abolish oppression exploitation misery and need and to bring about the physical and mental welfare of individuals and of society as a whole To us then the woman question is only one phase of the general social question that at present occupies all intelligent minds its final solution can only be attained by removing social extremes and the evils which are a result of such extremes Nevertheless the woman question demands our special consideration What the position of woman has been in ancient society what her position is to day and what it will be in the coming social order are questions that deeply concern at least one half of humanity Indeed in Europe they concern a majority of organized society because women constitute a majority of the population Moreover the prevailing conceptions concerning the development of woman s social position during successive stages of history are so faulty that enlightenment on this subject has become a necessity Ignorance concerning the position of woman chiefly accounts for the prejudice that the woman s movement has to contend with among all classes of people by no means least among the women themselves Many even venture to assert that there is no woman question at all since woman s position has always been the same and will remain the same in the future because nature has destined her to be a wife and a mother and to confine her activities to the home Everything that is beyond the four narrow walls of her home and is not closely connected with her domestic duties is not supposed to concern her In the woman question then we find two contending parties just as in the labor question which relates to the position of the workingman in human society Those who wish to maintain everything as it is are quick to relegate woman to her so called natural profession believing that they have thereby settled the whole matter They do not recognize that millions of women are not placed in a position enabling them to fulfill their natural function of wifehood and motherhood owing to reasons that we shall discuss at length later on They furthermore do not recognize that to millions of other women their natural profession is a failure because to them marriage has become a yoke and a condition of slavery and they are obliged to drag on their lives in misery and despair To be continue in this ebook **International Law and Sexual Violence in Armed Conflicts** Chile Eboe-Osuji, 2012-08-27 Beginning with an attempt at understanding evil doing during armed conflicts from both the general

perspective and the particular angle of sexual violence itself this book explores ways of shoring up international legal protection of women from sexual violence in armed conflicts **All Hands**, 1988 *Landscape and Gender in the Novels of Charlotte Brontë, George Eliot, and Thomas Hardy* Dr Eithne Henson, 2013-05-28 Examining a wide range of representations of physical metaphorical and dream landscapes in Charlotte Brontë George Eliot and Thomas Hardy Eithne Henson explores the way in which gender attitudes are expressed both in descriptions of landscape as the human body and in ideas of nature Henson discusses the influence of eighteenth century aesthetic theory particularly on Brontë and Eliot and argues that Ruskinian aesthetics Darwinism and other scientific preoccupations of an industrializing economy changed constructions of landscape in the later nineteenth century Henson examines the conventions of reading landscape including the implied expectations of the reader the question of the gendered narrator how place defines the kind of action and characters in the novels the importance of landscape in creating mood the pastoral as a moral marker for readers and the influence of changing aesthetic theory on the implied painterly models that the three authors reproduce in their work She also considers how each writer defines the concept of Englishness against an internal or colonial Other Alongside these concerns Henson interrogates the ancient trope that equates woman with nature and the effect of comparing women to natural objects or offering them as objects of the male gaze typically to diminish or control them Informed by close readings Henson's study offers an original approach to the significances of landscape in the realist nineteenth century novel **Understanding Religious Ethics** Charles Mathewes, 2010-12-06 This accessible introduction to religious ethics focuses on the major forms of moral reasoning encompassing the three Abrahamic religions Judaism Christianity and Islam Draws on a range of moral issues such as examples arising from friendship marriage homosexuality lying forgiveness and its limits the death penalty the environment warfare and the meaning of work career and vocation Looks at both ethical reasoning and importantly how that reasoning reveals insights into a religious tradition Investigates the resources available to address common problems confronting Abrahamic faiths and how each faith explains and defends its moral viewpoints Offering concrete topics for interfaith discussions this is a timely and insightful introduction to a fast growing field of interest *A Chariot to Freedom* Shechen Gyaltsap IV, Shechen Gyaltsap Gyurme Pema Namgyal, 2022-01-11 A unique commentary on the preliminary practices of Vajrayana Buddhism from a beloved Nyingma master A Chariot to Freedom is one of the most beloved presentations of the preliminary practices or ng ndro that form the foundation of the Vajrayana Buddhist path This set of practices common to all schools of Himalayan Buddhism is what nearly every practitioner begins with yet it also constitutes a complete method in and of itself Although ng ndro are considered a prerequisite for further teachings and initiations into other practices many of even the most accomplished masters continue to engage in them every day Most of the other excellent works on these foundational techniques are specific to a particular tradition but this text is widely considered to be exemplary in part because it is applicable to all traditions of ng ndro Drawing from the original words of the Buddha in the s
