Sexual Abuse Impacts And Approaches:

Understanding the Effects of Child Sexual Abuse Sam Warner, 2009-01-13 Child sexual abuse is a global problem that negatively affects many women and girls. As such, it has long been of concern to feminists and more recently mental health activists. This book draws on this revolutionary legacy feminism and post structuralism to critically examine current perceptions of women, girls and child abuse in psychology, psychiatry and the mass media and to re-evaluate mainstream and feminist approaches to this subject. The book aims to contribute to the ongoing development of a knowledge base for working with abused women and girls and demonstrates the need to question the use of formulaic methods in working with abused women and girls. It calls for an explicit concern with politics, principles and ethics in the related areas of theory, research and practice. Using research into women who have been sexually abused in childhood and who are detained in maximum security mental health care, Sam Warner explores and identifies key principles for practice. A social recovery model of intervention is developed and case study examples are used to demonstrate its applicability in a range of practice areas. These include abuse, psychotherapy, expert witness reports in child protection with mothers of abused girls and with women and girls in secure care contexts. This thorough investigation of this emotive issue provides a clear theoretical and practical framework for understanding and coping with child sexual abuse. This book will be of interest to anyone who works with children and adults who have been abused. This includes clinical psychologists, therapists and other professionals that work in mental health, psychotherapy and social services and legal settings within both community and secure care contexts. It should also be essential reading for students and academics in this area.

Buddhist Approach to Harmonious Families, Healthcare and Sustainable Societies Thich Duc Thien,Thich Nhat Tu,2019-04-16 EDITORS INTRODUCTION BACKGROUND There have been major changes in world today and that the term Global Leadership and Sustainable Development is no longer taken for granted as a point of reference for understanding the contemporary chaotic situation These disruptive changes mean that it is now arguable as to whether we still live in a world of justice equality peace and prosperity The nature of these changes and the concepts of the Buddhist approach are central to the whole project of this book In this light we place great emphasis on understanding Buddhist teaching in dealing with this matter We argue that any investigation of the changing character and context of the present time needs to take account of the Buddhist philosophy We focus on providing a thorough and critical understanding of change taking place as a starting point of discussion In doing so we attempt to clarify the nature of the Buddhist approach It may be more productively understood as the result of a complex contested and fragile set of arrangements which in this book we term as approach We do not imply that the frameworks based on the Buddhist teachings

are fully fixed and agreed by everybody Rather it would refer to a set of arrangements that need to be further discussed Given the above this volume collects together papers presented at the international workshop on Buddhist Approach to Harmonious Families Healthcare and Sustainable Societies which took place on 13 May 2019 at International Conference Center Tam Chuc Ha Nam Vietnam on the occasion of THE 16TH UNITED NATIONS DAY OF VESAK CELEBRATIONS 2019 The participants in this workshop were not representative of the mainstream thinking or conventional wisdom of this field although this volume reflects this richness and diversity Treating the Buddha teachings as a basic theoretical reconstruction we examine the relationships between the societies and Buddhist responsibilities We combine analyses of the conflicts trends and dynamics affecting future development with more focused studies on a range of policy areas migration education leadership climate change etc Two of our most crucial presumptions are that making Buddhism great again at the time of disruption is our first and foremost duty and the Buddhist responsibility can contribute to creating a new foundation for Global Leadership and Sustainable Development
