The Shamanic Traditions of Siberia Jameyson MacDonald ,2023-08-13 Shamanism in Siberia holds a rich history that dates back thousands of years It is deeply intertwined with the nomadic way of life and the natural surroundings of the region Central to shamanism is the belief in the existence of spirits that can be communicated with and influenced by the shaman a spiritual intermediary between the human and spirit worlds The shaman often chosen by the spirits themselves undergoes rigorous training and initiations to acquire the knowledge and skills necessary for their sacred role

Shamanism in Siberia Marya Czaplicka,2020-03-24 Shamanism is understood by some people to be a primitive form of religion or religio magic practised by the aborigines of northern Asia as well as by all other aborigines in other parts of the world This opinion is held by Mikhailowski Kharuzin and some other Russian scientists Others hold that Shamanism was only one form of expression of the religious cult of northern Asia practised in order to avert the evil spirits This opinion is found in the writings of Jochelson and Bogoras There is still another view put forward which it is well for us to consider This view we find expressed very clearly in the following extract from Klementz One must not lose sight of the fact that in the various beliefs of the Siberian tribes a very close connexion is noticeable and likewise there can be observed an uninterrupted identity in the foundations of their mythology and in their rites even extending as far as the nomenclature all of which gives one the right to suppose that these beliefs are the result of the joint work of the intellectual activity of the whole north of Asia In the writings of the Buryat scientist Banzaroff we find a very similar statement The old national religion of the Mongols and the neighbouring nations is known in Europe as Shamanism whereas among those who are not its followers it has no special name After the introduction of Buddhism among the Mongolic nations they called their old religion The Black Faith Khara Shadjin in contradistinction to Buddhism which they called Yellow Faith Shira Shadjin According to Father Jakiuv the Chinese call Shamanism Tao Shen gambolling before the spirits Those names however do not give any idea of the true character of shamanism Some are of opinion that it originated alongside with Brahminism and Buddhism while others find in

it some elements in common with the teachings of the Chinese philosopher Lao Tze Finally some hold that Shamanism is nothing but Nature worship likening it to the faith of the followers of Zoroaster Careful study of the subject shows that the Shamanistic religion did not arise out of Buddhism or any other religion but originated among the Mongolic nations and consists not only in superstitious and shamanistic ceremonies but in a certain primitive way of observing the outer world Nature and the inner world the soul Of course Banzaroff speaks especially of the Shamanism of the Mongols We cannot agree with him that Shamanism is limited to these people We find it all over northern and part of central Asia As we see them now the Palaeo Siberians may be considered as possessing the simplest and the Neo Siberians the most complex form of Shamanism Thus among the former we see more Family than Professional Shamanism that is the ceremonials beliefs and shamans are practically limited to the family Professional Shamanism that is ceremonies of a communal kind performed by a specialized or professional shaman is here only in its infancy and being weaker has been more affected by Christianity According to the official census only a small part of the aborigines are true Shamanists but as a matter of fact we see that though they are registered as Orthodox Catholics and Buddhists they are in reality nearly all faithful to the practice of their old religion In psychological terminology Shamanism consists of animistic and preanimistic conceptions although most of the people at present engaged in research work on Siberia have been so much influenced by the Tylor theory of Animism that they misuse the word soul and the phenomena that they describe as animistic are very often in a different category altogether
