**Political Ecologies of Meat** Jody Emel, Harvey Neo, 2015-05-15 Livestock production worldwide is increasing rapidly in part due to economic growth and demand for meat in industrializing countries Yet there are many concerns about the sustainability of increased meat production and consumption from perspectives including human health animal welfare climate change and environmental pollution This book tackles the key issues of contemporary meat production and consumption through a lens of political ecology which emphasizes the power relations producing particular social economic and cultural interactions with non human nature Three main topics are addressed the political ecology of global livestock production trends changes in production systems around the world and their implications for environmental justice and existing and emerging governance strategies for meat production and consumption systems and their implications Case studies of different systems at varying scales are included drawn from Asia Africa the Americas and Europe The book includes an editorial introduction to set the context and synthesize key messages for the reader

**Agricultural and Climate Change Adaptation Law in Africa** Habib Sani Usman, 2025-02-17 This book presents an analysis of climate change and agricultural laws in Kenya Nigeria and South Africa in order to determine whether they adequately addressed the concept of agricultural adaptation Agriculture is one of the sectors of the economy that is contributing to climate change and at the same time the sector is heavily impacted by climate change Therefore agricultural adaptation is required Focusing on three countries this book provides a novel comparative examination of how and to what extent the law promotes agriculture focused adaptation in these countries The role of the law in addressing issues such as water management strategies soil conservation methods and crop production methods is discussed This book identifies gaps in the regulatory frameworks for agricultural adaptation and highlights the lack of adaptive capacity of African agriculture due to weak or non existing legal frameworks It discusses ways to remedy these gaps through specific on farm adaptation strategies legislative amendments to consolidate all relevant national climate change related policies and laws with agricultural policies and laws that have relevant provisions on adaptation as medium term solutions and the development of a specific framework law for agriculture focused adaptation incorporating essential agricultural adaptation strategies could perhaps be enacted as long term solutions to the regulatory gaps This book will be of great interest to students and scholars of law climate change food and agriculture sustainable development and African studies

**Climate Crisis, Social Responses and Sustainability** Uttam Mukhopadhyay, Subhasis Bhattacharya, Pradip Chouhan, Suman Paul, Indrajit Roy Chowdhury, Uday Chatterjee, 2024-05-28 This proposed book aims to present an analysis of several crisis issues induced by global climate changes and implications at the micro level particularly from the perspective of ground based study Climate crisis leads to

several socio ecological issues which need to discuss with some empirical case studies from the contextual global evidences Climatic crisis generates several social responses which are associated with mitigating issues in addition to sustainable development goals Under these circumstances several loopholes interlinked with climatic crisis need to expose in the present day context This book argues that it is important to understand the issues from multiple dimensions It identifies some important dimensions to discuss in the process Themes we purpose to cover are several field based studies are included for which micro level field based data would incorporate to understand current crisis induced by climate change thus exposing the vulnerabilities of the communities which would be incorporated in different chapters with adequate representation of qualitative methods modelling based geospatial approach Therefore some secondary data based studies have also been included to provide a broader picture Additionally this book aims to provide an interdisciplinary understanding of the issues mainly from the lenses of Geography Economics and Sociology as well as Environmental Studies too Given the focus of this study it is believed that an approach that harmonizes the cognitive domain from different discipline is appropriated A combination of chapters using qualitative as well as quantitative methods also made this book exclusive from others We believe that this edited book surely contributes the knowledge domain with some relevant chapters discussion in the contemporary time and leads to reduce the gap of knowledge

#### **The Political Economy of Global Warming**

Del Weston,2014-04-11 Humanity is facing an unprecedented global catastrophe as a result of global warming This book examines the reasons why international agencies together with national governments are seemingly unable to provide real and binding solutions to the problems The reasons presented relate to the existing dominant global economic structure of capitalism as well as the fact that global warming is too often seen as an isolated problem rather than one of a suite of exceptional converging and accelerating crises arising from the global capitalist political economy This book adopts a political economy framework to address these issues It accepts the science of global warming but challenges the predominant politics and economics of global warming To illustrate the key issues involved the book draws on South Africa building on Samir Amin s thesis that the country represents a microcosm of the global political economy By taking a political economy approach the book provides a clear explanation of the deep and pervasive problem of the denial which fails to acknowledge global warming as a systemic rather than a market problem The book should be of interest to students and scholars researching climate change environmental politics environmental and ecological economics development studies and political economics

**Agritourism for Sustainable Development** Brighton Nyagadza,Farai Chigora,Azizul Hassan,2024-01-29 Through the lens of African emerging economies this text examines empirical studies and the related practices of agritourism By looking at tourism innovation entrepreneurship ethics and responsibility of public and private organizational stakeholders the text promotes an understanding of how radical novel sustainable agritourism might be implemented to help society s living become more sustainable with low usage of material resources low energy and

environmental cost The book will be of interest to academics and postgraduate students interested in the challenges of sustainable agritourism and African emerging economies *Emerging Infectious Diseases*, 2015 **AGRAR-2013** Fok, Michel, Ndoye, Ousmane, Koné, Siaka, 2015-11-02 La 4e de couv indique La conférence AGRAR en 2013 a été prévue dans la conduite du Projet AFOMDnet dans le cadre du Programme ACP pour la Science et la Technologie avec le soutien de l'Union Européenne Elle n'aurait cependant pu avoir lieu sans l'adhésion et le soutien directs ou indirects mais aussi la participation d'un nombre conséquent d'institutions du Nord et du Sud La conférence AGRAR pour l'AGRICulture Alimentation et Recherche une conférence par et pour la recherche agronomique en Afrique a été conçue pour perdurer Il est espéré que le partage des travaux conduits en Afrique se poursuive C'est l'objectif de la publication de ces Actes *Agripreneurship and the Dynamic Agribusiness Value Chain* Lukman Raimi, Olawale Paul Olatidoye, Thuraya Farhana HJ Said, 2024-11-22 This book provides an insightful exploration of agribusiness entrepreneurship in the dynamic landscape of the global economy Targeted at agribusiness researchers agricultural scientists finance professionals and consultants the thematic focus encompasses agricultural and business entrepreneurship production and consumption dynamics ethical considerations impact investments and disruptive technologies such as Bitcoin digital ventures cryptocurrency and blockchain Addressing the principles governing innovative business models the text delves into the multifaceted realm of entrepreneurship in agriculture with a specific emphasis on Sustainable Development Goals SDGs and the integration of science technology engineering and mathematics STEM in agribusiness The book underscores the pivotal role of agripreneurs in driving agricultural activities employing mechanization irrigation and modern farming technologies to augment production It navigates the complexities of rural entrepreneurial activity considering factors like location natural resources social capital and information technologies Furthermore the book investigates the necessity for an entrepreneurial culture in agriculture citing its potential to alleviate challenges create employment opportunities curb rural to urban migration and enhance national income Through a pragmatic lens it explores the educational processes required for farmers to develop entrepreneurial and organizational skills emphasizing the significance of such skills in fostering sustainable development A comprehensive examination of entrepreneurship in agriculture this book stands as an indispensable resource for those seeking a nuanced understanding of agribusiness dynamics the integration of innovative technologies and the role of entrepreneurship in shaping the future of agriculture African Local Knowledge & Livestock Health William Beinart, Karen Brown, 2013 A much needed examination of contemporary approaches to animal healing in South Africa informed by a strong understanding of history **A Just Transition to a Low Carbon Future in South Africa** Ngobile Xaba, Saliem Fakir, 2022-02-01 Deliberations on the just transition in South Africa have intensified and will continue to do so for the next few years and decades Climate change widening socio economic inequality the precarious future of work and emergent approaches to financing arrangements have brought new urgency to the issues It therefore remains critical to interrogate how South Africa can ensure a just transition to

a low carbon economy This book underlines the fact that the low carbon transition in South Africa has to grapple with complex historical social economic cultural and political factors The main message is that the transition to a low carbon society is possible but it can only succeed if it is just and handled collaboratively In addition the book aims to broaden the discourse on low carbon transition and explore the opportunities in and impediments to making the transition fair affordable and socio economically viable *The Report: South Africa 2014* Oxford Business Group,2014-12-08 Indeed since the end of apartheid in 1994 South Africa has become a major diplomatic player both on the African continent as well as further afield Despite the size of South Africa s economy the country currently faces a number of major economic challenges As of the end of July 2014 the unemployment rate was at 25.5% according to data from Statistics South Africa which was among the highest in the world While the government s long term development plans are generally highly regarded delivery and execution has occasionally been problematic While there are major hurdles that must be cleared given the country s strong institutions and the rapid pace of economic expansion over the past two decades South Africa should be able to look forward to 20 more years of peace and steady sustained economic growth

*Writing the Ancestral River* Jacklyn Cock,2018-03-01 Writing the Ancestral River is an illuminating and unusual biography of the Kowie River in the Eastern Cape This tidal river runs through the centre of what used to be called the Zuurveld a formative meeting ground of different peoples who have shaped our history Khoikhoi herders Xhosa pastoralists Dutch trekboers and British settlers Their direct descendants continue to live in the area and interact in ways that have been decisively shaped by their shared history Besides being a social history this is also a natural history of the river and its catchment area where dinosaurs once roamed and cycads still grow As the book shows the natural world of the Kowie has felt the effects of human settlement most strikingly through the establishment of a harbour at the mouth of the river in the 19th century and the development of a marina in the late 20th century Both projects have had a decisive and deleterious

impact on the Kowie People are increasingly reconnecting with nature and justice through rivers Acknowledging the past and the inter generational racialised privileges damages and denials it established and perpetuates is necessary for any shared future By focusing on this little river the book raises larger questions about colonialism capitalism development and ecology and asks us to consider the connections between social and environmental injustice
