Jane Dowson,Steven Earnshaw,1995 *The Landscapes of Western Movies* Jeremy Agnew,2020-10-15 Western films have often been tributes to place and setting with the magnificent backdrops mirroring the wildness of the narratives As the splendid outdoor scenery of Westerns could not be found on a studio back lot or on a Hollywood sound stage the movies have been filmed in the wide open spaces of the American West and beyond This book chronicles the history of filming Westerns on location from shooting on the East Coast in the early 1900s through the use of locations in Utah Arizona and California in the 1940s and 1950s and filming Westerns in Mexico Spain and other parts of the world in the 1960s Also studied is the relationship between the filming location timeline and the evolving motion picture industry of the twentieth century and how these factors shaped audience perceptions of the Real West "A" *Western Filmmakers* Henryk Hoffmann,2024-10-16 From High Noon to Unforgiven the A Western represents the pinnacle of Western filmmaking More intellectual ambitious and time consuming than the readily produced B or serial Westerns these films rely on hundreds of talented artists This comprehensive reference work provides biographies and Western filmographies for nearly 1 000 men and women who have contributed to at least three A Westerns These contributors are arranged by their role in film production Cinematographers composers actors actresses and directors receive complete biographical treatment writers whose work was used in at least two Westerns are also featured An appendix lists well known actors who have appeared in either one or two A Westerns as specified Western Movies Michael R. Rollins,John E. O'Connor,2005-11-11 American historians such as Frederick Jackson Turner have argued that the West has been the region that most clearly defines American democracy and the national ethos Throughout the twentieth century the frontier thesis influenced film and television producers who used the West as a backdrop for an array of dramatic explorations of America's history and the evolution of its culture and values The common themes found in Westerns distinguish the genre as a quintessentially American form of dramatic art In Hollywood's West Peter C Rollins John E O Connor and the nation's leading film scholars analyze popular conceptions of the frontier as a fundamental element of American history and culture This volume examines classic Western films and programs that span nearly a century from Cimarron 1931 to Turner Network

Television's recent made-for-TV movies. Many of the films discussed here are considered among the greatest cinematic landmarks of all time. The essays highlight the ways in which Westerns have both shaped and reflected the dominant social and political concerns of their respective eras. While *Cimarron* challenged audiences with an innovative complex narrative, other Westerns of the early sound era such as *The Great Meadow* (1931) frequently presented nostalgic visions of a simpler frontier era as a temporary diversion from the hardships of the Great Depression. Westerns of the 1950s reveal the profound uncertainty cast by the cold war, whereas later Westerns display heightened violence and cynicism, products of a society marred by wars, assassinations, riots, and political scandals. The volume concludes with a comprehensive filmography and an informative bibliography of scholarly writings on the Western genre. This collection will prove useful to film scholars, historians, and both devoted and casual fans of the Western genre. Hollywood's West makes a significant contribution to the understanding of both the historic American frontier and its innumerable popular representations. *A History of American Literature* Richard Gray, 2011-09-23 Updated throughout and with much new material. *A History of American Literature* Second Edition is the most up-to-date and comprehensive survey available of the myriad forms of American Literature from pre-Columbian times to the present. The rhetorical tools and literary styles that have helped reinvent the art and study of storytelling over time are surveyed in this captivating volume. The American West Robert V. Hine, John Mack Faragher, 2000-01-01 Two historians, Robert V. Hine and John Mack Faragher, present the American West as both frontier and region, real and imagined, old and new, and they show how men and women of all ethnic groups were affected when different cultures met and clashed. Their concise and engaging survey of frontier history traces the story from the first Columbian contacts between Indians and Europeans to the multicultural encounters of the modern Southwest. Profusely illustrated with contemporary drawings, posters, and photographs, and written in lively and accessible prose, the book not only presents a panoramic view of historical events and characters but also provides fascinating details about such topics as western landscapes, environmental movements, literature, visual arts, and film. *Postmodern Subjects / Postmodern Texts*, 1995 *Ghost Rider* Greg Cox, 2007-01-23 The official film
