Vietnam Investment and Business Guide Volume 1 Strategic and Practical Information IBP, Inc., 2013-01-17 Vietnam Investment and Business Guide Strategic and Practical Information

The U.S. Army War College Guide to National Security Issues, 2010 Pure Strategy Everett Dolman, 2012-11-12 A stimulating new inquiry into the fundamental truth of strategy its purpose place utility and value This new study is animated by a startling realization the concept of strategic victory must be summarily discarded This is not to say that victory has no place in strategy or strategic planning The outcome of battles and campaigns are variables within the strategist's plan but victory is a concept that has no meaning there To the tactical and operational planner wars are indeed won and lost and the difference is plain Success is measurable failure is obvious In contrast the pure strategist understands that war is but one aspect of social and political competition an ongoing interaction that has no finality Strategy therefore connects the conduct of war with the intent of politics It shapes and guides military means in anticipation of a panoply of possible coming events In the process strategy changes the context within which events will happen In this new book we see clearly that the goal of strategy is not to culminate events to establish finality in the discourse between states but to continue them to influence state discourse in such a way that it will go forward on favorable terms For continue it will This book will provoke debate and stimulate new thinking across the field and strategic studies

Strategy in Practice George Tovstiga, 2013-02-08 The 2nd edition of

Strategy in Practice presents a practitioner focused approach to strategy. It is increasingly recognised that the ability to adapt classic formulas to changing circumstances and develop fast sound strategic thinking is what differentiates the successful corporate leader. Developed from experience in industry, this successful text will include an instructor site with PowerPoint slides, extra examples and exercises and links highlighting changing business practice. While rigorously founded on current thinking and theoretical concepts in the field of strategic management, it aims to provide the strategy practitioner with a systematic and insight driven approach to strategic thinking, establish and translate the relevance of strategy theory to its application in the practice field, lead the reader through the strategic thinking process beginning with the formulation of compelling and clearly articulated strategic questions that set the scene for practical issues, provide tools of strategic analysis in combination with informed intuition to understand the strategic landscape. *The Making of Strategy* Williamson Murray, 1996-05-31

Most writing about strategy has focused on individual strategic theorists or great military leaders. This book focuses instead on the messy processes by which rulers and states have framed strategy in the past, a subject of vital practical importance to strategists and of great interest to students of strategy and statecraft. It consists of 17 case studies that range from fifth century Athens and Ming China to Hitler's Germany, Israel and the post 1945 United States. The studies analyse within a common interpretive framework precisely how rulers and states have made strategy. The introduction emphasises the constants in the rapidly shifting world of the strategist; the concluding essay tries to understand the forces that have driven the transformation of strategy since 400 BC and seem likely to continue to transform it in the future.

Born From War Patrick W. Naughton, 2025-04-15. As a father and a multi tour Vietnam veteran, I struggled to explain my war and my voluntary service in it to my children. Reading about author Patrick Naughton's similar experiences in his family helped me understand that broad generational gap that confounded so many of us between our war and what was faced by younger veterans of America's global war on terror. What we had between seminal events was more than a simple failure to communicate. The insights provided by Naughton's *Born from War* are enlightening and invaluable. Capt Dale Dye, USMC Ret, author, actor and filmmaker. Patrick Naughton's father barely spoke of his time in Vietnam to his family, yet his service was the sole reason Patrick joined the U.S. Army as a teenager. Patrick Naughton Sr served in Vietnam with the 82nd Airborne and advising the South Vietnamese Army, while Patrick himself would serve in Iraq. Three decades of history and politics divided their service, yet the similarities between their experiences are undeniably striking. Patrick's attempts to understand his father led to a search for those who served with him in Vietnam, an examination of the personal relationship of a father and son whose few connections have been war, and a quest to understand war and its undeniable generational influence. The result is an engaging and eye opening weaving together of the combat experiences of two generations of a military family. From the failure of grand stratagem through personal combat stories and the memories of those lost, America's wars against communism and terror are laid raw through the experiences of one family.
