Robert E Buswell Jr Book:

Tracing Back the Radiance Robert E. Buswell, Jr.,1991-11-01 Chinul 1158 1210 was the founder of the Korean tradition of Zen He provides one of the most lucid and accessible accounts of Zen practice and meditation to be found anywhere in East Asian literature Tracing Back the Radiance an abridgment of Buswell s Korean Approach to Zen The Collected Works of Chinul combines an extensive introduction to Chinul s life and thought with translations of three of his most representative works

The Zen Monastic Experience Robert E. Buswell, Jr.,2020-07-21 Robert Buswell a Buddhist scholar who spent five years as a Zen monk in Korea draws on personal experience in this insightful account of day to day Zen monastic practice In discussing the activities of the postulants the meditation monks the teachers and administrators and the support monks of the monastery of Songgwang sa Buswell reveals a religious tradition that differs radically from the stereotype prevalent in the West The author s treatment lucidly relates contemporary Zen practice to the historical development of the tradition and to Korean history more generally and his portrayal of the life of modern Zen monks in Korea provides an innovative and provocative look at Zen from the inside

Korean Spirituality Don Baker,2008-04-01 Korea has one of the most dynamic and diverse religious cultures of any nation on earth Koreans are highly religious yet no single religious community enjoys dominance Buddhists share the Korean religious landscape with both Protestant and Catholic Christians as well as with shamans Confucians and practitioners of numerous new religions As a result Korea is a fruitful site for the exploration of the various manifestations of spirituality in the modern world At the same time however the complexity of the country s religious topography can overwhelm the novice explorer Emphasizing the attitudes and aspirations of the Korean people rather than ideology Don Baker has written an accessible aid to navigating the highways and byways of Korean spirituality He adopts a broad approach that distinguishes the different roles that folk religion Buddhism Confucianism Christianity and indigenous new religions have played in Korea in the past and continue to play in the present while identifying commonalities behind that diversity to illuminate the distinctive nature of spirituality on the Korean peninsula

is a valuable companion for those interested in the history of Korea and East Asian studies Why the Dalai Lama is a Socialist Terry Gibbs, 2017-03-15 To the surprise of many the Dalai Lama recently declared that I am a socialist While many Buddhists and socialists would be perplexed at the suggestion that their approaches to life share fundamental principles important figures in the Buddhist tradition are increasingly framing contemporary social and economic problems in distinctly socialist terms In this novel and provocative work Terry Gibbs argues that the shared values expressed in each tradition could provide signposts for creating a truly humane compassionate and free society Hopeful about our potential to create the good society through collective effort Why the Dalai Lama is a Socialist is grounded in the fundamental belief that everyday human activity makes a difference Born Again Timothy S. Lee, 2009-12-09 Known as Asia's evangelical superpower South Korea today has some of the largest and most dynamic churches in the world and is second only to the United States in the number of missionaries it dispatches abroad Understanding its evangelicalism is crucial to grasping the course of its modernization the rise of nationalism and anticommunism and the relationship between Christians and other religionists within the country Born Again is the first book in a Western language to consider the introduction development and character of evangelicalism in Korea from its humble beginnings at the end of the nineteenth century to claiming one out of every five South Koreans as an adherent at the end of the twentieth In this thoughtful and thorough study Timothy S Lee argues that the phenomenal rise of this particular species of Christianity can be attributed to several factors As a religion of salvation evangelicalism appealed powerfully to multitudes of Koreans arriving at a time when the country was engulfed in unprecedented crises that discredited established social structures and traditional attitudes Evangelicalism attracted and empowered Koreans by offering them a more compelling worldview and a more meaningful basis for association Another factor is evangelicalism's positive connection to Korean nationalism and South Korean anticommunism It shared in the aspirations and hardships of Koreans during the Japanese occupation and was legitimated again during and after the Korean conflict as South Koreans experienced the trauma of the war Equally important was evangelicals' relentless proselytization efforts throughout the twentieth century Lee explores the beliefs and practices that have become the hallmarks of Korean evangelicalism kibok this worldly blessing saebyok kido daybreak prayer and kumsik kido fasting prayer He concludes that Korean evangelicalism is distinguishable from other forms of evangelicalism by its intensely practical and devotional bent He reveals how after a long period of impressive expansion including the mammoth campaigns of the 1970s and 1980s that drew millions to its revivals the 1990s was a decade of ambiguity for the faith On the one hand it had become South Korea's most influential religion affecting politics the economy and civil society On the other it found itself beleaguered by a stalemate in growth the shortcomings of its leaders and conflicts with other religions Evangelicalism had not only risen in South Korean society it had also for better or worse become part of the establishment Despite this significance Korean evangelicalism has not received adequate treatment from scholars outside Korea Born Again will therefore find an eager audience among

English speaking historians of modern Korea scholars of comparative religion and world Christianity and practitioners of the faith

Monks and Literati Seong Uk Kim, 2024-11-30 Scholars have long debated the relationship between Buddhist monks and Confucian literati during the late Chosŏn seventeenth to nineteenth centuries when the Korean state adopted anti Buddhist policies On the one hand it is understood that literati openly displayed hostility toward monks and engineered their persecution on the other they were known to have privately supported Buddhism helping the religion persevere even thrive in the Confucian society In *Monks and Literati* the first book length study in English to provide a comprehensive survey of Buddhism in late Chosŏn Korea Seong Uk Kim argues that such opposing views overemphasize the role of literati and depict monks as passive actors Kim applies sociologist Ann Swidler's concept of repertoire the social cultural and religious inventory of symbols rules and skills for constructing strategies of action as an analytical tool to reconcile the two narratives and offer a more nuanced and comprehensive picture of the complex literati monk relationship Kim examines the ways monks initiated and developed relationships with literati using their repertoire of cultural and religious resources Monks adopted various roles such as cultural companion spiritual mentor and ritual officiant within and beyond the private realm of Confucian society and in so doing reaffirmed what it meant to be a monk and redefined what Buddhism could be at a time when monks religious identities and activities were constantly being challenged By avoiding the binary frame describing monks as either victims or beneficiaries of literati *Monks and Literati* sheds new light on not only Korean Buddhism in the late Chosŏn but also more generally East Asian Buddhism where a similar monk literati paradigm has often been applied

Inventing Hui-neng, the Sixth Patriarch John J. Jørgensen, 2005 Hui neng the patriarchal ancestor of all existing Ch'an Zen was invented by Shen hui 684-758 based on a fusion of Buddhist and Confucian themes This propaganda led to the creation of a large hagiographical literature that determined the trajectory of Ch'an

Minding the Buddha's Business Daniel Boucher, Shayne Clarke, 2025-06-24 Colleagues and former students of Gregory Schopen honor his path breaking contributions to Buddhist studies with these articles on the early Mahayana the monastic codes and Buddhism's art historical and epigraphical remains This volume honors the profoundly transformative influence of Gregory Schopen's many contributions to Buddhist studies Eighteen articles by former students and colleagues focus on the areas of Schopen's most noteworthy influence the study of the Mahayana particularly of its early sutra literature the study of Vinaya especially the narratives accompanying the rules for monks and

nuns and the study of Buddhist epigraphy and art history Contributors demonstrate the ongoing significance of Schopen's scholarship including his very first article on the cult of the book in the early Mahayana published fifty years ago Schopen has repeatedly shown how the study of Buddhism has too often focused on scriptures and normative doctrines and not enough on the practical ideas and contexts that significantly impacted the lives of actual Buddhists He sought to reveal these lived concerns in the massive trove of Buddhist inscriptions which often expose the habits and ideas of the tradition's most prominent donors many of whom were monastics as well as the everyday concerns of monks and nuns whose views did not always dovetail with canonical sources Even in his treatment of canonical sources Schopen has shown that the standard portrait of a Buddhist monk or nun fails to match a careful reading of their law codes his work on the Mulasarvastivada vinaya has required scholars to substantially reimagine the legal and ritual obligations as well as the economic concerns that preoccupied the minds of Buddhist jurists Schopen has in essence brought the Buddha down to earth revealing that this is precisely where most Indian Buddhists encountered him The contributions in this celebratory volume reflect this legacy and Schopen's considerable impact on our understanding of Buddhists in India

Meaning beyond Molecules and Hubris: Religions Are onto Something with Regard to Life and Evolution Ted Christopher, 2023-10-17 Modern science's understanding of life is built upon the belief that all features of life including of course consciousness are completely describable in terms of molecules and their activities From this perspective living beings can be viewed as simply constituting a particular subset of the material universe and as such are ultimately defined by the same laws of physics and chemistry This material only hypothesis is usually referred to as scientific materialism or materialism and it is essentially a modern intellectual fixture If true this hypothesis has profound implications for life and in particular eliminates the possibility of deeper and/or religious aspects and of course free will too

Nothingness in Asian Philosophy Jeeloo Liu, Douglas Berger, 2014-06-13 A variety of crucial and still most relevant ideas about nothingness or emptiness have gained profound philosophical prominence in the history and development of a number of South and East Asian traditions including in Buddhism Daoism Neo Confucianism Hinduism Korean philosophy and the Japanese Kyoto School These traditions share the insight that in order to explain both the great mysteries and mundane facts about our experience ideas of nothingness must play a primary role This collection of essays brings together the work of twenty of the world's prominent scholars of Hindu Buddhist Daoist Neo Confucian Japanese and Korean thought to illuminate fascinating philosophical conceptualizations of nothingness in both classical and modern Asian traditions The unique collection offers new work from accomplished scholars and provides a coherent panoramic view of the most significant ways that nothingness plays crucial roles in Asian philosophy It includes both traditional and contemporary formulations sometimes putting Asian traditions into dialogue with one another and sometimes with classical and modern Western thought The result is a book of immense value for students and researchers in Asian and comparative philosophy Chapter 20 of this book is freely available

Negotiating Religious Gaps John Lai, 2024-11-01 This book constitutes a pioneering and comprehensive text in context study of the translation of Christian tracts from English into Chinese by Protestant missionaries in nineteenth century China. It focuses on the large body of hitherto widely neglected Protestant Chinese books and tracts, putting the translated texts into their socio-political, cultural and ideological contexts. This integrated approach proves to be fruitful and insightful in describing and explaining actual practices of translation or translation norms. The book addresses the central issue of how original texts were selected, translated and presented by Protestant missionaries under the patronage of various missionary institutions in order to achieve their specific agendas. Based on primary materials and rare archival documents, this extensive survey of the corpus of Chinese Christian literature fills a significant gap in the evaluation of Protestant missions to China, especially with regard to the role of the Religious Tract Society (RTS). Moreover, the contributions of Chinese collaborators are examined in detail to achieve a more balanced view in assessing the role of missionary translators. The book also sheds light on the sophisticated procedures and strategies of cross-cultural translation, particularly on the facet of religious translation in the Chinese translation tradition. John T. P. Lai provides a wealth of information about the development of Protestant religious publishing in late imperial China. Full of interesting data and illustrations, this work should find an audience with church historians and mission scholars.

Buddhist Pilgrim-Monks as Agents of Cultural and Artistic Transmission Dorothy C. Wong, 2018-04-28 The period ca. 645-770 marked an extraordinary era in the development of East Asian Buddhism and Buddhist art. Increased contacts between China and regions to both its west and east facilitated exchanges and the circulation of ideas, practices and art forms, giving rise to a synthetic art style uniform in both iconography and formal characteristics. The formulation of this new Buddhist art style occurred in China in the latter part of the seventh century and from there it became widely disseminated and copied throughout East Asia and to some extent in Central Asia in the eighth century. This book argues that notions of Buddhist kingship and theory of the Buddhist state formed the underpinnings of

Buddhist states experimented in China and Japan from the late seventh to the mid eighth century providing the religious political ideals that were given visual expression in this International Buddhist Art Style The volume also argues that Buddhist pilgrim monks were among the key agents in the transmission of these ideals the visual language of state Buddhism was spread circulated adopted and transformed in faraway lands it transcended cultural and geographical boundaries and became cosmopolitan
