Toxic Flora Kimiko Hahn, 2013-12-16 Kimiko Hahn's frankness allows these poems to stand out as starkly fresh as the carnivorous plants she describes. American Poet For Kimiko Hahn the language and imagery of science open up magical possibilities for the poet. In her haunting eighth collection inspired by articles from the weekly Science section of the New York Times Hahn explores identity extinction and survival using exotic tropes drawn from the realms of astrophysics mycology paleobotany and other rarefied fields. With warmth and generosity Hahn mines the world of science in these elegant ardent poems from "On Deceit" as "Survival Yet another species resembles a female bumble bee ending in frustrated trysts or appears to be two fractious males which also attracts no surprise a third curious enough to join the fray What to make of highly evolved Beauty bent on deception as survival".

The Best American Poetry 2010 Amy Gerstler, David Lehman, 2010-09-14 AMY GERSTLER'S COMMITMENT TO INNOVATIVE POETRY that conveys meaning feeling wit and humor informs the cross section of poems in the 2010 edition of The Best American Poetry. The works collected here represent the wealth the breadth and the tremendous energy of poetry in the United States today. Featuring poems from some of our country's top bards including John Ashbery Anne Carson Louise Glück Sharon Olds and Charles Simic. The Best American Poetry 2010 also presents poems that poignantly capture the current moment such as the sonnets John Updike wrote to chronicle his dying weeks. And there are exciting poems from a constellation of rising stars Bob Hicok Terrance Hayes Denise Duhamel Dean Young and Elaine Equi to name a very few. The anthology's mainstays are in place. It opens with series editor David Lehman's incisive foreword about the state of American poetry and has a marvelous introduction by Amy Gerstler. Notes from the poets illuminating their poems and their writing processes conclude this delightful addition to a classic series. A Broken Thing Emily Rosko, Anton Vander Zee, 2011-09-16 In the arena of poetry and poetics over the past century no idea has

been more alive and contentious than the idea of form and no aspect of form has more emphatically sponsored this marked formal concern than the line But what exactly is the line Emily Rosko and Anton Vander Zee's anthology gives seventy original answers that lead us deeper into the world of poetry but also far out into the world at large its people its politics its ecology The authors included here emerging and established alike write from a range of perspectives in terms of both aesthetics and identity Together they offer a dynamic hybrid collection that captures a broad spectrum of poetic practice in the twenty first century Rosko and Vander Zee's introduction offers a generous overview of conversations about the line from the Romantics forward We come to see how the line might be an engine for ideals of progress political ethical or otherwise For some poets the line touches upon the most fundamental questions of knowledge and existence More than ever the line is the radical against which even alternate and emerging poetic forms that foreground the visual or the auditory the page or the screen can be distinguished and understood From the start a singular lesson emerges lines do not form meaning solely in their brevity or their length in their becoming or their brokenness lines live in and through the descriptions we give them Indeed the history of American poetry in the twentieth century could be told by the compounding and often confounding discussions of its lines A Broken Thing both reflects upon and extends this history charting a rich diffusion of theory and practice into the twenty first century with the most diverse wide ranging and engaging set of essays to date on the line in poetry revealing how poems work and why poetry continues to matter Reliquaria R. Villanueva,2014-09-01 In his prize winning poetry collection Reliquaria R A Villanueva embraces liminal in between spaces in considering an ever evolving Filipino American identity Languages and cultures collide mythologies and faiths echo and resound Part haunting part prayer part prophecy these poems resonate with the voices of the dead and those who remember them In this remarkable book we enter the vessel of memory the vessel of the body The dead act as witness the living as chimera and we learn that whatever the state of the body this much rings true every ode is an elegy each elegy is always an ode **Making Poems** Todd F. Davis,Erin Murphy,2010-02-02 This diverse collection of poems and companion essays by forty nationally and internationally known poets allows readers to experience the creative process through the eyes and voice of each poet No matter how often we are told that revision is an essential component of poetic composition it can be difficult to resist the temptation to think of the poem as having sprung spontaneously Athena like from the writer's head By exposing readers to the finished product as well as the poet's own account of the poem's creation Making Poems offers a behind the scenes perspective on the poetic process that will fascinate both beginning and established writers The book also affords poetry instructors an opportunity to demonstrate to their students the ways in which poems can originate from seemingly mundane and unlikely sources

Their exchanges confront ecopoetics the corporate university the sheer volume of contemporary poetry and more This substantial set of dialogues gives readers a glimpse inside a master critic s deeply informed critical practice and lists his intellectual touchstones The balance between essay and interview achieves a distillation of Rasula s long established idea of wreading In his original use the term denotes how any act of criticism inherently adds to the body of writing that it purports to read how Rasula couldn t help but participate in his favorite poems In this latest form Wreading captures a critical perception that sparks insight and imagination no matter what it sees     *Botanical Icons* Andrew Griebeler,2024-02-28 A richly illustrated account of how premodern botanical illustrations document evolving knowledge about plants and the ways they were studied in the past This book traces the history of botanical illustration in the Mediterranean from antiquity to the early modern period By examining Greek Latin and Arabic botanical inquiry in this early era Andrew Griebeler shows how diverse and sophisticated modes of plant depiction emerged and ultimately gave rise to practices now recognized as central to modern botanical illustration The author draws on centuries of remarkable and varied documentation from across Europe and the Mediterranean Lavishly illustrated *Botanical Icons* marshals ample evidence for a dynamic and critical tradition of botanical inquiry and nature observation in the late antique and medieval Mediterranean The author reveals that many of the critical practices characteristic of modern botanical illustrations began in premodern manuscript culture Consequently he demonstrates that the distinctions between pre and early modern botanical illustration center more on the advent of print the expansion of collections and documentation and the narrowing of the range of accepted forms of illustration than on the invention of critical and observational practices exclusive to modernity Griebeler s emphasis on continuity intercultural collaboration and the gradual transformation of Mediterranean traditions of critical botanical illustration persuasively counters previously prevalent narratives of rupture and Western European exceptionalism in the histories of art and science
