towards Supplying Off Grid Rural Villages in developing BRICS countries such as Africa India China and Brazil Off grid rural
villages and isolated islands areas require mCHP and trigeneration solar power plants and associated isolated smart
microgrid solutions to serve the community energy needs This article describes the development progress for such a system
also referred to as solar polygeneration The system includes a sun tracker mechanism wherein a parabolic dish or lenses are
guided by a light sensitive mechanism in a way that the solar receiver is always at right angle to the solar radiation Solar
thermal energy is then either converted into electrical energy through a free piston Stirling or stored in a thermal storage
