This book demonstrates in contrast to statistics that show declining consumption of physical formats that there has not been a mass shift towards purely digital media. Physical releases such as special editions DVD box sets and Blu Rays are frequently promoted and sought out by consumers. And that past formats such as VHS Laserdisc and HD DVD make for sought after collectible items. These trends are also found within particular genres and niche categories such as documentary education and independent film distribution. Through its case studies this collection makes a distinctive and significant intervention in highlighting the ways in which the film industry has responded to rapidly changing markets. This volume global in scope will prove useful to those studying the distribution and exhibition of films and the economics of the film industry around the world.

**Patent Law** Adarsh Ramanujan, 2020-09-01 It is a casebook on patent law that involves comparative jurisprudence tailored for India The book is best described by highlighting the following features

- 1 Casebook format The casebook format suits practitioners and judges It allows the reader to independently interpret and assess the implication of each caselaw which forms a vital component of the practice of law The reader is assisted towards this objective by only containing extracts of the relevant portions of the judgment Even from an academic perspective it provides an unfiltered view of the law better than any unnecessary prose
- 2 Comparative approach For each topic of patent law the book would provide a single point congregation of the relevant Indian provisions and extracts from relevant caselaw across India the UK the EU and the USA This approach is ideal for India where jurisprudence on the subject is limited Courts practitioners and the Patent Office often resort to such a comparative approach to learn from the experiences of other jurisdictions
- 3 Notes Author's notes before and after each caselaw or topic fulfil four purposes i set the context for the reader ii critique the caselaw or to bring focus on to issues that arise in practice iii contextualize the discussion to the Indian statute and iv examine the historical perspective including the legislative history
- 4 Focus on law it is a no nonsense no rhetoric book focussing on the law its interpretation and application
