Using Virtual Reality Technologies for Storytelling Olivier Balet, Gerard Subsol, Patrice Torquet,2003-06-30 The story is the richest heritage of human civilizations One can imagine the rst stories being told several thousand centuries ago by wise old men huddled around camp fires Since this time the narrative process has been considerably developed and enriched sounds and music have been added to complement the speech while scenery and theatrical sets have been created to enhance the story environment Actors dancers and technicians have replaced the lone storyteller The story is no longer the sole preserve of oral narrative but can
