Learning Spanish Hermann Dr. Sicius, 2025-03-19 This textbook is intended to be used alongside a course but self learners can also work with it without any problems and acquire a very good knowledge of the language It is deliberately not designed for a playful learning of a language of which books are available in large numbers Unfortunately learning a foreign language on a trial basis usually brings little success and it takes a long time as well This book may be very useful for tourists business travelers or property owners in Spain needing to talk to locals This Spanish course is different to other works It has been created to guide you through the systematic and intensive learning of the Spanish language and it contains all the important elements of grammar with lots of example sentences and a large vocabulary section No reference is made to the different learning levels that professional translators correspondents or interpreters need to reach The requirements are therefore well beyond ordering food in a restaurant and they also include a certain amount of time that you should spend on your self study This book will be the first in a series which has been planned to familiarize you with the systematic learning of foreign languages In the future I plan to publish analogous textbooks with exactly the same structure for learning German French Portuguese Dutch and Danish languages I will also be happy to give lessons in these languages on request I am looking forward to your feedback just send me an e mail to hermann sicius web de If you like to continue and learn Spanish now Welcome I wish you much success Quisiera desear mucho xito a usted And now have fun learning Spanish [Descubre](#)
