

Guide To Film Terms: Everything You Need To Know About Movie Terms

1. Film Terms

Film terms are terms that refer to the vocabulary used in filmmaking. This includes technical and creative terms, such as camera angles or close-ups.

It also includes slang words that are specific to the movie industry, such as "pitch" for a script idea or "green light" for permission to move forward with production.

2. Filming Terms And Definitions

Filming is a process that consists of capturing images and sound on camera. It can be done in live-action or animation, but the most common type of filming is live-action filmmaking.

Filming terms and definitions are what many people have to deal with when starting a new job in the film industry.

3. Film Audio Terms

Dynamic mics tend to provide better sound-quality than their counterpart, but they also require more power (an external amplifier) in order for them to operate properly.

Condenser mics use less power because they produce their own electricity through induction with the help of an internal capacitor or battery.
