Emergency War Plan Sean M. Maloney, 2021-02 Using strategic plans intelligence analysis and other materials that have only recently been declassified Emergency War Plan examines the theory and practice of nuclear deterrence during the 1945-1960 period of the Cold War [Seek and Strike](#) Nigel Walpole, 2020-05-30 A slice of the RAF and NATO in Germany through the Cold War covers the range of jets used by the RAF from the Vampire to the Tornado Firetrench This is an anecdotal history of the largest RAF station in Germany Optimized for a new breed of aircraft and to NATO requirements this huge airfield was cut out of the Elmpt Forest on the German border with Holland and completed in one year to become operational in 1953 First occupied by a fighter wing equipped with Vampires Sabres and Hunters its Seek and Strike motif took on real meaning when the station re equipped with strike attack and reconnaissance Canberras followed by strike attack Phantoms Jaguars and finally Tornados RAF Bruggen was at the

forefront of the Cold War during which innovation and determination brought it many accolades It further distinguished itself in the Gulf War and continued to play its part in subsequent monitoring operations in that theater it was also the only Tornado Wing to operate directly from its home base during the Kosovo campaign This is the story of a station at war of the men and women at the sharp end and in support At work and play it was they who made Bruggen what it was excelling in all things and justifying a claim to have been RAF Germany's jewel in the crown With its closure in 2001 the RAF relinquished its last main operating base outside the UK Bruggen was indeed last and best A story of the people who served at Bruggen their families and the local population and how their lives were entwined with the station Flight Line Book Review

Hitler's Revenge Weapons Nigel Walpole, 2018-03-30 From September 1940 until May 1941 Britain especially Greater London suffered heavily under a barrage of day and nighttime raids by the then mighty Luftwaffe raids which killed some 20 000 people and destroyed or damaged one million homes during what came to be known as the London Blitz A baby blitz followed from January to May 1944 which was destined to be the final manned bomber offensive by a much depleted Luftwaffe Afterwards there came the last gasp the final blitz on London this time delivered by the V1 flying bombs and V2 rockets which were aimed at the capital Overall the V weapons killed or seriously injured 31 000 in London and destroyed or seriously damaged 1.6 million houses throughout Britain Yet despite all this British industry economy and morale remained largely intact Group Captain Nigel Walpole grew up in London during the Blitz and he has traced the full history of the V1 doodlebugs and V2 rockets that terrorized so many at this time He looks at the infamous missile development site at Peenemunde and the engineers who brought Hitler's horrific visions to life He reports his vivid memories of the three Blitz campaigns and the countermeasures taken in response to them Having been granted direct access to the history of the V weapons he describes the evolution development production deployment and launch of the flying bombs and rockets Whilst acknowledging the terrible damage inflicted by these weapons Nigel also recognizes them as an example of Germany's extraordinary capacity for innovation and determination during one of the darkest periods of world history Air Pictorial, 1989 **McDonnell F-101 Voodoo** Kev Darling, 2006
