Jephcott, 2023-04-25 Written in 1954 and published here for the first time The Social Background of Delinquency deals with the social climate in which juvenile delinquency crops up time after time It examines bad behaviour among people who could otherwise be classed as normal members of ordinary English society It attempts to explore certain aspects of the sub cultures within respectable society which appear to breed behaviour officially classed as delinquent The research is based on a working class town in the Midlands with a high proportion of miners and observes a pair of similar streets in five areas of the town Each pair of streets containing one delinquency free and one with a history of trouble Not content with a mere survey the research design is multifaceted and includes ethnographic observations key informant interviews personal history analyses and the playroom method explicitly designed to ascertain children s views The findings are reported here and represent a snapshot of life in the 1950s *Louisiana Off the Beaten Path*® Gay N.
