A complete dry food with the bonus that it is hypoallergenic, with selected protein source (fish) and selected carbohydrate sources of rice and barley. It is a diabetic food, excellent for the reduction of ingredient and nutrient intolerances. We suggest that the food be tried for a period of 3 to 8 weeks. If the signs of the food intolerance disappear, continue feeding indefinitely. The recommended daily serving is only a guide as requirements vary considerably from dog to dog. The daily serving should be adjusted according to the body condition of your dog. For further advice on responsible feeding, please go to www.wellbeloved.com and search for 'ideal body weight'. Feed in one meal per day or ideally divide into two meals per day. The food is designed to be fed dry but may be moistened with warm water to bring out the flavour. Supply plenty of clean, fresh drinking water at all times. If using James Wellbeloved pouches as a tasty topper, reduce dry food by 35 g for every 150 g pouch fed. We recommend that feeding is supervised. The requirements of breeding bitches in the last 3 weeks of pregnancy and during lactation differ substantially from those shown above. Please visit the above website for comprehensive recommendations.
