Dunn, 2016-09-13 The book reveals the nexus between religion and politics today and shows that we live in an interdependent world where one global civilization is emerging and where the world's peoples are continuing to coalesce around a series of values that contain potent Western overtones Both Putin's Orthodox Russia and regions under the control of such Islamist

groups like ISIS and Al Qaeda resent and attempt in a largely languishing effort to frustrate this series of values The book explains the current tension between the West and Russia and parts of the Muslim world and sheds light on the causes of such crises as the Syrian Civil War Russia's aggression against Ukraine and acts of terrorism such as 9 11 and the ISIS inspired massacres in Paris It shows that religion continues to affect global order and that knowledge of its effect on political identity and global governance should guide both government policy and scholarly analysis of contemporary history

Christian Community in History Volume 1 Roger Haight, 2004-09-16 Drawing upon the methodology developed in his *Dynamics of Theology* 1990 and exemplified in *Jesus Symbol of God* 1999 Roger Haight in this magisterial work achieves what he calls an historical ecclesiology or ecclesiology from below In contrast to traditional ecclesiology from above which is abstract idealist and ahistorical ecclesiology from below is concrete realist and historically conscious In this first of two volumes Haight charts the history of the church's self understandings from the origins of the church in the Jesus movement to the late Middle Ages In volume 2 Haight develops a comparative ecclesiology based on the history and diverse theologies of the worldwide Christian movement from the Reformation to the present While the ultimate focus of the work falls on the structure of the church and its theological self understanding it tries to be faithful to the historical social and political reality of the church in each period
