

WD SATA Hard Drive

Quick Install Guide

Before Getting Started

This poster is designed to aid in the quick installation of your WD SATA hard drive. If you experience problems following these procedures or need further information regarding your drive, visit support.wdc.com to search our online knowledge base for frequently asked questions and other common troubleshooting tips and to download the full version WD SATA Hard Drive Installation Guide.

Kit Contents

Necessary materials and tools:

- Computer system manual
 - Operating system manual
 - Operating system installation CD
 - Phillips and flat-blade screwdrivers (if applicable)
- Before performing any hardware installation, back up your existing data.
 - Before handling the drive or system components, discharge static electricity by touching the metal chassis of your computer case or using an antistatic wrist strap.
 - Locate the WVD serial number, model number, and date code on the label on top of your drive, and record them below.

Serial Number: _____ Date: _____

- Power down the computer and unplug the power cord.
- Remove the system cover (refer to your system manual for instructions).

Unpacking and Handling Procedures

WD hard drives are precision instruments and must be handled with care during unpacking and installation. Hard drives can be damaged by rough handling, shock and vibration, or electrostatic discharge (ESD). Be aware of the following precautions:

- Do not unpack your hard drive until you are ready to install it. Your hard drive is packaged in an anti-static bag.
- Handle the hard drive only by the sides. Avoid touching circuit board components on the bottom of the drive.
- To avoid ESD problems, ground yourself by touching the metal chassis of the computer or by wearing a grounding strap before handling the hard drive. Articles of clothing generate static electricity. Do not allow clothing to come in direct contact with the hard drive or circuit board components.
- Do not stack hard drives or stand your WVD drive on its edge.
- Do not drop, shake, or knock down the hard drive.
- Save the original packaging materials and antistatic bag in case you need to return your hard drive. Your warranty will be void if your returned drive is shipped in anything other than the original packaging or WD-approved materials.

Operating Systems

WARNING

Using an operating system not listed below may result in data loss.

The following operating systems are supported:

- Windows® XP
- Windows 2000

System Requirements

- SATA interface connector on motherboard, or SATA controller card (sold separately) installed in an available 32-bit PCI expansion slot (2.1- or 2.2-compliant).
- 3.5-inch internal drive bay

Online Product Registration

Take advantage of WD offerings by registering your drive at <http://www.westerndigital.com/en/products/registration>.

Technical Support

If you need additional information or help during installation or normal use of this product, visit our product support Web site at support.wdc.com and choose from these topics:

- Warranty Services** — Obtain warranty information, warranty status, extended warranty, product replacement, RMA status, and shipping and packaging information.
- Downloads Library** — Download installation software and drivers.

- Service Partners** — Find available WD-approved service and support in your area.
- Contact Support** — Contact a support representative by phone or e-mail.
- Rebates** — Check the status of rebate submissions.
- Localized Support** — Display service and support information in various languages.

1 Set the Jumpers

The default setting for WD SATA hard drives varies depending on the model. To determine the default setting for your drive, look at the drive label on the top of the drive.

DO NOT change the default setting if you intend to use the drive in a desktop computer.

Change the jumper settings ONLY if you intend to use the drive in an enterprise storage environment. For more information on these advanced settings, obtain the full version WD SATA Installation Guide at support.wdc.com.

SPC_DIS Mode (Default) — Enable or disable the spread spectrum clocking feature. Default setting is disabled.

OPT1 — Only for factory use.

OPT2 — Only for factory use.

2 Install the SATA Hard Drive

IMPORTANT: Only for WD 7200 RPM SATA hard drive kits; all other WD SATA hard drive kits, skip to step 1 below.

If installing your new WD drive as an upgrade from a previously installed hard drive: To ensure the optimal settings for your drive configuration, WVD recommends running the Installation Tutorial in the Windows version of Data Lifeguard Tools before hardware installation to generate your custom installation instructions. See "Data Lifeguard Tools" on the reverse side of this poster.

- Connect the smaller connector on the WVD SATA cable to the SATA connector on the motherboard or SATA controller card.

NOTE: If using a SATA controller card, be sure to follow the instructions that came with the card to install SATA host drivers.

SATA-Motherboard Configuration

SATA-Controller Card Configuration

- Attach the larger end of the WVD SATA cable directly to the SATA interface on the back of the WD drive as shown above. SATA connectors are keyed to ensure proper insertion. Also attach the legacy 4-pin power cable.

CAUTION

The WVD SATA cable with SecureConnect™ does not supply power to the drive. When using the WVD SATA cable, you must also attach the legacy ATA 4-pin power connector to the SATA drive. When using a standard SATA interface cable (not included) instead, DO NOT connect both the standard SATA cable (not included) and legacy ATA 4-pin power cable at the same time or the drive may malfunction.

- Slide the hard drive into an available 3.5-inch drive bay and secure the drive with the four mounting screws (two on each side). For proper grounding, install the screws in the hole positions as shown.
- Verify all cable connections. Replace and secure the system cover. Reconnect the power cord and power up the computer.
- If your WVD SATA drive came with a Data Lifeguard Tools™ CD, see "Set Up Your Hard Drive" on the reverse side of this poster to set up your new hard drive. If your hard drive kit did not include a Data Lifeguard Tools CD, see "Alternate Instructions for Installing a Drive" on the reverse side of this poster.

Secured in the drive bay
