Darin R. Garman, 2010-08-03 What if you could realistically achieve the kind of wealth it takes most people 10 years or more to accumulate and have this wealth in your hands in as little as 9 months Sound crazy Good Chances are you are one of the millions of people that have been led to believe that you have to wait a long long time sometimes up to 30 or more years for your wealth goals to be achieved The good news is you do not have to wait that long and can have your financial chips in a matter of months not years Inside these pages you will find a proven system complete with easy instruction to achieving your financial goals now vs having to wait for your financial payday and hoping your money will be there after working all of those years The good news about 9 Month Investing is it not only eliminates your biggest enemy TIME the methods are also easy to follow and implement as well No excuses Now anyone if they know how can achieve the wealth they want and deserve in a matter of just 9 months Nine to Noon John F. Wooten IV, 2019-01-28 Are you ready Now is the time to start saving and investing Have you been wondering how your neighbors always seem to have more put away than you at the year Perhaps you are tired of living in a complacent world where your savings never really seem to take off In Nine to Noon we explore the practices skills sets and mentalities of uber wealthy capitalist investors in the American economy We break down personal finance and investing in easy to understand individual chapters collectively building a financial education you can use for the rest of your life to generate real savings and retirements For the extremely proactive reader we go into the specifics of trading nine to noon and learn exactly how to mimic improve and eventually master the secret stock market workday that carries unfathomable opportunities In these pages sits standalone financial education for all Whether you want to improve your asset management strategies or simply buy your first stock this is the book for you Enjoy **Cognitive Investing** Rich Willis, 2011-03 Investors ask the wrong questions Will the stock market rise or fall in the next month What is the best place to put my money right now Will interest rates rise or fall Will the economy improve or get worse What will be the best performing stock during the next year The problem with all of these questions is that the answers are unknowable and will

always be so Dwelling on the unknowable is a fruitless quest that will not bring investors any closer to achieving long term financial goals Our fundamental problem is that we are using the wrong part of the brain Cognitive Investing explains how to make investment decisions using the portion of the brain better suited for the task and answers the questions investors should be asking What is the relationship between the economy and the stock market What is the difference between investing and gambling Why is selling much more difficult than buying How important is diversification Why do natural psychological urges lead us to make poor investing decisions Understanding the answers to these and many more essential questions will profoundly and fundamentally transform the way you approach investing

The Income Factory: An Investor's Guide to Consistent Lifetime Returns Steven Bavaria, 2020-02-27 The proven all weather investing strategy that delivers long term consistent returns The most common investing approach today one that values growth over all else can be ineffective and counterproductive for many investors not to mention needlessly stressful Now one of Seeking Alpha s most popular writers Steven Bavaria provides a groundbreaking alternative that will see you through all markets up down and sideways The Income Factory shows how to build an income stream that increases solidly and consistently a result of re investing and compounding the dividends And the best part This income stream actually grows faster during market downturns than during flat or rising market periods The Income Factory sheds light on Why high yield doesn t have to mean high risk How credit investments perform more predictably than equity investments Why junk is a misnomer and why high yield debt is safer than most of the stocks investors own How to grow your wealth steadily without following the markets obsessively Through Bavaria s strategy cash income increases year after year at a predictable rate For example a 9% yielding portfolio doubles and re doubles every 8 years If you re in for the long haul an Income Factory lets you achieve your goals and still sleep well at night Investing does not have to be about picking specific horses and hoping they win the race An Income Factory achieves its goals by essentially betting on horses to make it around the track and finish the race Those are easier bets to win and they don t require us to be glued to the financial news 24 7
