The Names of Minimalism Patrick Nickleson, 2023-01-19 Minimalism stands as the key representative of 1960s radicalism in art music histories but always as a failed project In The Names of Minimalism Patrick Nickleson holds in tension collaborative composers in the period of their collaboration as well as the musicological policing of authorship in the wake of their eventual disputes Through examinations of the droning of the Theatre of Eternal Music Reich s Pendulum Music Glass s work for multiple organs the austere performances of punk and no wave bands and Rhys Chatham and Glenn Branca s works for massed electric guitars Nickleson argues for authorship as always impure buzzing and indistinct Expanding the place of Jacques Rancière s philosophy within musicology Nickleson draws attention to disciplinary practices of guarding compositional authority against artists who set out to undermine it The book reimagines the canonic artists and works of minimalism as early minimalism to show that art music histories refuse to take seriously challenges to conventional authorship as a means of defending the very category art music Ultimately Nickleson asks where we end up if we imagine the

early minimalist project artists forming bands to perform their own music rejecting the score in favor of recording making extensive use of magnetic type as compositional and archival medium hosting performances in lofts and art galleries rather than concert halls not as a utopian moment within a 1960s counterculture doomed to fail but as the beginning of a process with a long and influential afterlife

Give the Word Ann Smock, 2019-06-17. Werner Hamacher's witty and elliptical 95 Theses on Philology challenges the humanities and particularly academic philology that assume language to be a given entity rather than an event. In *Give the Word*, eleven scholars of literature and philosophy—Susan Bernstein, Michelle Cohen Halimi, Peter Fenves, Sean Gurd, Daniel Heller Roazen, Jan Plug, Gerhard Richter, Avital Ronell, Thomas Schestag, Ann Smock, and Vincent van Gerven Oei—take up the challenge presented by Hamacher's theses. At the close, Hamacher responds to them in a spirited text that elaborates on the context of his 95 Theses and its rich theoretical and philosophical ramifications. The 95 Theses included in this volume makes this collection a rich resource for the study and practice of radical philology. Hamacher's philology interrupts and transforms parting with tradition precisely in order to remain faithful to its radical but increasingly occluded core. The contributors test Hamacher's break with philology in a variety of ways, attempting a philological practice that does not take language as an object of knowledge, study, or even love. Thus, in responding to Hamacher's Theses, the authors approach language that, because it can never be an object of any kind, awakens an unfamiliar desire. Taken together, these essays problematize philological ontology in a movement toward radical reconceptualizations of labor, action, and historical time.
