LEARNING OBJECTIVES

People engaged in business undertake their activities regularly and thereby earn profit. Although, all these businesses have a common objective of earning profit, they differ from each other with respect to their size, nature, volume of transaction, management and ownership, etc. Thus, structurally they are different. Broadly business may be classified on basis of size, functions and ownership.

But, when we talk about Scales of business, we in a nutshell refer to size of the business. Micro and small is well, small, a store or shop or self employed business. Large, on the other hand, would be business with wide coverage. MNCs, therefore have a coverage beyond one nation. It is a global concept.

The world is integrating into one unit with technological progress and new inventions like internet, etc. making even small firms to operate over a wider geographical area.

In this context, this lesson will enable us to understand different scales of business.

The good business leaders create a vision, articulate the vision, passionately own the vision, and relentlessly drive it to completion.
