Vsee Guide 2015:

Dynamics of Long-Life Assets Stefan N. Grösser, Arcadio Reyes-Lecuona, Göran Granholm, 2017-05-10 This book is published under a CC BY NC 4.0 license. The editors present essential methods and tools to support a holistic approach to the challenge of system upgrades and innovation in the context of high value products and services. The approach presented here is based on three main pillars: an adaptation mechanism based on a broad understanding of system dependencies; efficient use of system knowledge through involvement of actors throughout the process; and technological solutions to enable efficient actor communication and information handling. The book provides readers with a better understanding of the factors that influence decisions and put forward solutions to facilitate the rapid adaptation to changes in the business environment and customer needs through intelligent upgrade interventions. Further, it examines a number of sample cases from various contexts including car manufacturing, utilities, shipping, and the furniture industry. The book offers a valuable resource for both academics and practitioners interested in the upgrading of capital intensive products and services. The work performed in the project Use It Wisely (UiW) significantly contributes towards a collaborative way of working. Moreover, it offers comprehensive system modelling to identify business opportunities and develop technical solutions within industrial value networks. The developed UiW framework fills a void and offers a great opportunity. The naval construction sector of small passenger vessels, for instance, is one industry that can benefit. Nikitas Nikitakos, Professor at University of the Aegean, Department of Shipping, Trade and Transport, Greece. Long life assets are crucial for both the future competitiveness and sustainability of society. Make wrong choices now and you are locked into a wrong system for a long time. Make the right choices now and society can prosper. This book gives important information about how manufacturers can make right choices. Arnold Tukker, Scientific director, Institute of Environmental Sciences, CML Leiden University, and senior scientist, TNO. **A Mental Health Provider's Guide to Telehealth** Jonathan G. Perle, 2021-03-30 This book works as a guide to videoconferencing practice for psychological providers through a broad, simplified, and practical overview of pertinent factors. It is a consolidation of research literature and professional experiences of practicing teaching and studying videoconferencing. It begins by defining key concepts such as telehealth, telepsychology, and other related terminology, and examining the role of telehealth in addressing ongoing mental health disparities. An overview of existing videoconferencing practices, guidebooks, and general recommendations, as well as specifics of ethical and legal factors, are discussed. The book then details numerous essential factors of videoconferencing practice that are directly applicable to psychological care, including considerations of computer system, video camera, display screen, microphone, videoconferencing platform, bandwidth, and latency, and room setup, along with self-care practices. The appendices provide readers with links to resources, checklists, and other documents to guide their practice. Psychologists, counselors, and other mental health providers will find this user-friendly, research-informed guide indispensable when implementing online treatment and teletherapy. A Guide to

Online Supervision Anne Stokes, 2023-04-21 As online therapy becomes more mainstream the importance of using a means of supervision which parallels this is increasingly being recognised by practitioners and the professional bodies Very little has been written about this newly developing way of working so this book is timely Online Supervision A Handbook for Practitioners covers a wide range of issues from the practical aspects of how supervision happens through research legal and ethical issues to specific therapeutic settings and issues Existing models of supervision are considered in the context of the online setting and new models which have been developed specifically for supervising online are explored

All chapters are authored by experienced online therapists and supervisors who bring their considerable knowledge from their practice to illuminate this growing area of the profession. In many chapters anonymised case examples illustrate the text alongside reflective activities which readers can choose to undertake. While the book aims to develop the practice of online supervision of online therapists, it is recognised that there are circumstances which mean that some practitioners may choose to engage in online supervision of their face to face work. This is recognised and guidelines for offering and engaging in online supervision are discussed. Many practitioners begin to offer online supervision without specialised training and the final chapter centres on a discussion about the value and necessity of undertaking preparation for working in a new medium. Online Supervision: A Handbook for Practitioners will be highly readable and accessible to both experienced practitioners and newcomers to this field.

The DNP Professional Linda Benson, 2024-06-01. The DNP Professional: Translating Value from Classroom to Practice is a collection of exemplars from DNP Doctor of Nursing Practice prepared experts across various advanced practice nursing roles and settings. The content illustrates the application of the American Association of Colleges of Nursing's Essentials, quantifies successful DNP prepared practitioner outcomes and describes the overall impact of the nursing practice doctorate. Each chapter is written by a different expert and focuses on how the Essentials relate to that author's role, including business planning, evidence driven decision making, data analytics and interprofessional collaboration. These leaders demonstrate how to implement lessons learned in a DNP program and translate them into everyday practice in every nursing domain with plenty of pearls to pass along. Editor Linda A. Benson has divided the book into sections based on roles and settings: Nurse Practitioner, Clinical Nurse Specialist, Certified Registered Nurse Anesthetists, Nurse Midwife, Nurse Executive, Academia, Population Health, Informatics, Legislative Activity. When performing at their peak, DNPs can affect clinical satisfaction and cost outcomes as well as provide preceptorship and mentoring. With exemplars from across the continuum of practice sites and roles, The DNP Professional: Translating Value from Classroom to Practice enables both students and DNP graduates to optimize the curricular Essentials in the practice setting.
