

CHAPTER 2 OUTLINE – NEW CIVILIZATIONS IN THE EASTERN AND WESTERN HEMISPHERES, 2200-250 B.C.E.

I. Early China, 2000–221 B.C.E.

A. Geography and Resources

1. China is divided into two major geographical regions: the steppe, desert, and high plateau west and northwest; and the eastern zone, more suitable for settled agriculture.
2. The eastern zone is subdivided into two areas: north and south. The northern area includes the Yellow River Valley and has a dry, cold climate; the southern area includes the Yangzi Valley, has plentiful rainfall, and is relatively warm.
3. China's natural resources include timber, stone, and metals. The loess soil and cool climate of the north are suitable for growing millet; rice may be cultivated in the warmer and rainier south.
4. Agriculture in this region required the coordinated effort of large numbers of people.

B. The Shang Period, 1750–1045 B.C.E.

1. Pre-Shang China was a land of Neolithic communities. Pigs, chickens, and millet were domesticated; silk textiles were developed; and bronze metallurgy was begun (ca. 2000 B.C.E.)
2. There are no contemporary documents to confirm the existence of the legendary Xia dynasty. Later documents concerning the Xia may be referring to one of the late Neolithic societies of the Yellow River Valley.
3. The Chinese writing system (Chinese characters) developed during the Shang period. The Chinese writing system of today is directly related to the writing of the Shang dynasty. The chief written remains are oracle bones used in divination.
4. Shang religion centered on a supreme god, Di, who could not be approached directly but could be reached indirectly through the ruler's ancestors. This made the ruler a link between heaven and earth, and provided a rationale for authoritarian rule.
5. The Shang elite was a warrior aristocracy who enjoyed hunting and warfare. They fought with bronze weapons and rode on horse-drawn chariots. Kings ruled directly over the core area of their kingdom and exercised indirect rule over peripheral areas.

C. The Zhou Period, 1045–221 B.C.E.

1. The Zhou territory was a dependent state of the Shang. They defeated the Shang in the eleventh century B.C.E. and adopted many elements of Shang culture. The two founders of the Zhou were Wen, who led the resistance movement against the Shang, and his son, Wu, who attacked the Shang capital and assumed the throne as first ruler of the dynasty. The Zhou invoked their own deity, Tian ("Heaven") and introduced the concept of the "Mandate of Heaven" in order to justify their rule.
2. The Zhou dynasty is subdivided into two periods: the Western Zhou and the Eastern Zhou. In the early years of the new dynasty, King Wu created a land distribution system similar to the feudal system of Europe's Middle Ages.
3. Early Zhou rulers constructed a new capital city, and other urban centers followed. Built in a grid pattern aligned with the north polar star, the design followed their ancient belief in *feng shui* to maintain harmony. Religion played a large role in both public and private life. Women were expected to live a life of subservience.

Translating the West Douglas R. Howland, 2001-09-30 In this rich and absorbing analysis of the transformation of political thought in nineteenth century Japan Douglas Howland examines the transmission to Japan of key concepts liberty rights sovereignty and society from Western Europe and the United States Because Western political concepts did not translate well into their language Japanese had to invent terminology to engage Western political thought This work of westernization served to structure historical agency as Japanese leaders undertook the creation of a modern state Where scholars have previously treated the introduction of Western political thought to Japan as a simple migration of ideas from one culture to another Howland undertakes an unprecedented integration of the history of political concepts and the semiotics of translation techniques He demonstrates that Japanese efforts to translate the West must be understood as problems both of language and action as the creation and circulation of new concepts and the usage of these new concepts in debates about the programs and policies to be implemented in a westernizing Japan Translating the West will interest scholars of East Asian studies and translation studies and historians of political thought liberalism and modernity

Im/Tb West Civi Spielvogel, 2004-02 *Western Civilization* Chris Perry, 1999-06 *War Before Civilization* Lawrence H. Keeley, 1997-12-18 The myth of the peace loving noble savage is

persistent and pernicious Indeed for the last fifty years most popular and scholarly works have agreed that prehistoric warfare was rare harmless unimportant and like smallpox a disease of civilized societies alone Prehistoric warfare according to this view was little more than a ritualized game where casualties were limited and the effects of aggression relatively mild Lawrence Keeley's groundbreaking *War Before Civilization* offers a devastating rebuttal to such comfortable myths and debunks the notion that warfare was introduced to primitive societies through contact with civilization an idea he denounces as the pacification of the past Building on much fascinating archeological and historical research and offering an astute comparison of warfare in civilized and prehistoric societies from modern European states to the Plains Indians of North America *War Before Civilization* convincingly demonstrates that prehistoric warfare was in fact more deadly more frequent and more ruthless than modern war To support this point Keeley provides a wide ranging look at warfare and brutality in the prehistoric world He reveals for instance that prehistorical tactics favoring raids and ambushes as opposed to formal battles often yielded a high death rate that adult males falling into the hands of their enemies were almost universally killed and that surprise raids seldom spared even women and children Keeley cites evidence of ancient massacres in many areas of the world including the discovery in South Dakota of a prehistoric mass grave containing the remains of over 500 scalped and mutilated men women and children a slaughter that took place a century and a half before the arrival of Columbus In addition Keeley surveys the prevalence of looting destruction and trophy taking in all kinds of warfare and again finds little moral distinction between ancient warriors and civilized armies Finally and perhaps most controversially he examines the evidence of cannibalism among some preliterate peoples Keeley is a seasoned writer and his book is packed with vivid eye opening details for instance that the homicide rate of prehistoric Illinois villagers may have exceeded that of the modern United States by some 70 times But he also goes beyond grisly facts to address the larger moral and philosophical issues raised by his work What are the causes of war Are human beings inherently violent How can we ensure peace in our own time Challenging some of our most dearly held beliefs Keeley's conclusions are bound to stir controversy

Resources in Education, 1999 **The Concert of Civilizations** Jeremy Kleidosty, 2016-03-09 Are Western and Islamic political and constitutional ideas truly predestined for civilizational clash In order to understand this controversy *The Concert of Civilizations* begins by deriving and redefining a definition of constitutionalism that is suitable for comparative cross cultural analysis The rule of law reflection of national character and the clear delineation and limitation of governmental power are used as lenses through which thinkers like Cicero Montesquieu and the authors of *The Federalist Papers* can be read alongside al Farabi ibn Khaldun and the Ottoman Tanzimat decrees Bridging the civilizational divide is a chapter comparing the Magna Carta with Muhammad's Constitution of Medina as both documents can be seen as foundational within their traditions For the first time in political theory this text also provides a sustained detailed analysis of Khayr al Din al Tunisi's book *The Surest Path* which explains his fusion of Muslim and Western ideas in his writing of Tunisia's first modern

constitution which is also the first constitution for a majority Muslim state Finally the book discusses the Arab Spring through a brief overview of the revolutions in Egypt Libya and Tunisia and offers some early thoughts about Tunisia's uniquely successful revolution

Ireland's Cultural Empire

Giuliana Bendelli, 2018-12-19 The volume highlights Ireland's cultural and linguistic influence in the world It springs from research carried out on the relationship between Ireland and England and pays special attention to the concept of colony Traditional adjectives like colonial and post colonial have been purposely avoided in the title of the book When referring to Ireland they reinforce a prejudicial perspective and blur the relevant influence of its cultural heritage and identity In the decades after independence Ireland was predominantly defined in terms of separatism and isolation and in a contrasting antagonistic relationship with Britain Recent studies have instead explored the essential connectedness of Irish culture The concept of an Irish cultural empire counterbalances this bias and this publication will advance the reader's understanding of international strands in Irish identity The wide ranging choice of authors and topics sets the essays here in a broader context which outlines a chronological thread starting by dealing with Ireland's major cultural impact in Europe during the Middle Ages and the influence of classic motifs in Anglo Irish culture Contributions focus on 18th 19th and 20th century Irish writers

who export their legacy abroad In addition the volume offers new perspectives on Irish emigration to Australia and the USA

Both Eastern and Western Afshin Matin-Asgari,2018-08-16 Studying intellectual trends in Iran in a global historical context this new intellectual history challenges many dominant paradigms in Iranian historiography and offers a new revisionist interpretation of Iranian modernity

Multiculturalism and the History of Canadian Diversity Richard J. F. Day,2000-01-01 Arguing that Canada s multicultural policies are propelled by a fantasy of unity rooted in a European drive to control diversity Day suggests that state intervention can never bring an end to tensions related to ethnocultural relations of power

Lacan and the Biblical Ethics of Psychoanalysis Itzhak Benyamini,2023-12-08 In this fascinating and ground breaking book Itzhak Benyamini uses discourse analysis to lay out the way Lacan constructed his own intellectual discourse informed by Judeo Christianity Offering an understanding of Lacan s emergence and intellectual struggles with significant contemporary intellectuals the author builds a panoramic view of the entire psychoanalytic discourse at the time of the foundational post Freudian generation By engaging in close reading of texts and seminars given by Lacan between the 1930s and 50s Benyamini uncovers the coming into being of Lacan s key concepts The Mirror Stage the Imaginary the Real the Symbolic the Name of the Father the Other jouissance and das Ding The author argues that Lacan wished to regulate this process of conceptualization by connecting the concepts of the Father and the Other with themes from the Judeo Christian tradition especially the Biblical one to create a clinical ethic that does not reflect a worldview or ideology and is guided solely by the analyzand s unconscious desire

Strangers, Aliens, Foreigners Marissa Sonnis-Bell,David E. Bell,Michelle Ryan,2018-12-24 This book examines the other from experiences of migrants and refugees to terrorist labels to constructions of the local We find that inclusive and exclusive identities are often arbitrarily defined along ambiguous lines yet with tangible and deeply political consequences

The Systems View of Life Fritjof Capra,Pier Luigi Luisi,2014-04-10 The first volume to integrate life s biological cognitive social and ecological dimensions into a single coherent framework

David Livingstone and the Myth of African Poverty and Disease Sjoerd Rijpma,2015-06-24 This study about David Livingstone is different from all other publications about him Here Livingstone is not the main topic of interest the focus of the author is on nutrition and health in pre colonial Africa and Livingstone is his key informant David Livingstone and the Myth of African Poverty and Disease is an unusual book After a close examination of Livingstone s writings and comparative reading of contemporary authors Sjoerd Rijpma has been able to draw cautious conclusions about the relatively favourable conditions of health and nutrition in southern and central Africa during the pre colonial period His findings shed new light on the medical history of Sub Saharan Africa The surprise awaiting travellers in and also before 19th century Africa was that the inhabitants of the interior even the slaves were healthier and better fed than many of their contemporaries in Europe s Industrial Revolution An impressive piece of scholarship truly forensic in its close reading and re reading of Livingstone s published works and those of other travellers during the same era clearly a labour of love which has taken years to complete Joanna
